

REV. MR. ROACH'S DEPARTURE

Large Gathering Bids Farewell to the Popular Knappa Pastor.

Knappa, Ore., Aug. 30.—The beautiful residence of Mrs. C. C. Bender was filled to overflowing Monday evening, the occasion being a farewell reception for Rev. George H. Roach, who has so acceptably supplied the pulpit of the Presbyterian church here, the past four months.

Mr. Roach during his brief labors here has endeared himself to both the church and people in general. His Godly life of humility and self sacrifice has been an inspiration to many.

Mr. Roach will spend two or three weeks at his home in Portland and then return to the theological seminary in San Francisco, where he expects to complete his studies next May.

A THREATENING "SUIT"

"I'll get on to you, if you don't watch out," said a pretty suit in the San Francisco Clothing Store yesterday, as it discerned the peering glance of a small boy who had entered unobserved.

"Wheel soon see," answered the lad, and a yearly-subscription smile played buoyantly over his features as he said it.

MUST REMAIN ON OLYMPIA

Chinese Members of Crew Come Under Exclusion Law.

ADMIRAL DEWEY INTERCEDES

Suggests They Be Admitted to Citizenship if Possible—Steel Famine Delays Naval Work.

NEW YORK, Aug. 31.—A special to the Herald from Washington, says: Under the Chinese exclusion law, some members of the crew of the Olympia, who served with such credit in the battle of Manila bay was to win special commendation from Admiral Dewey in a letter to the navy department may not be allowed to set foot on shore when his flagship reaches New York.

In the battle with the Spanish fleet, they were assigned to duty in passing ammunition and performed other duties connected with fighting the ship and every one of them did his task well enough for Admiral Dewey who even suggested that if possible, they be admitted to American citizenship.

His letter was referred to the treasury department. Secretary replied although he greatly regretted the fact there was no way in which the law could be waived. The Chinamen in the Olympia's crew could not be admitted to the United States unless they had been lawfully in this country at the time of their enlistment.

The law is mandatory upon the officials of the treasury department and it will be the duty of Collector of Customs Bidwell, at New York, to prevent the Chinese members of the Olympia's crew from leaving the ship while she is in New York harbor. Under the law, a naval vessel is part of the soil of the country, and technically if any of them were enlisted in San Francisco they have not been out of the United States, while serving on the Olympia. It is not probable, however, that any action would be taken by the treasury officials should the Chinamen be allowed to land on the supposition that they are legally entitled to reside in the United States.

NAVAL WORK DELAYED

Contractors Unable to Secure Steel for Construction of Warship.

NEW YORK, Aug. 31.—A special to the Herald from Washington, says: On account of the steel famine, considerable difficulty is being experienced by the navy department in obtaining reasonable bids for work contemplated at navy yards and the construction of men of war is being delayed.

The Gas Engine & Power company of New York has specifically called the attention of the department to the difficulty of obtaining steel as a reason in support of its request that the time of completion of the torpedo boat Batley be extended. Similar requests have been received from other warship contractors and they advance the same reason as the cause of delay.

The bureau of yards and docks recently advertised for bids on a contract for the construction of a workshop and boiler house for ordnance at the League Island navy yard. The original specifications called for the use of considerable steel. The bids received were higher than the appropriation and were refused. Modifications in the plans were made and bids again invited. In the meantime, the price of steel had risen and the bids were higher than on the first occasion.

Further modifications of the plans were made and new bids invited but owing to the increase in the cost of steel, the bids were relatively just as high and larger than the appropriation. Rear-Admiral Endicott has made further modifications which reduce the amount of steel to be employed and bids for the building will be opened on September 13.

CHARGES FILED AGAINST U. S. CONSUL AT CANTON

Issued American Registry to the Filibuster Steamer Abbey Afterwards Captured by Dewey.

CHICAGO, Aug. 31.—Too ill to continue his journey to Washington, without a day's rest, Dr. Edward Bedloe, United States consul at Canton, China, halted in Chicago and while here took occasion to deny the report that he is under suspension and discuss the charges that have been filed against him with the state department.

Dr. Bedloe arrived in Chicago on the overland limited from San Francisco. He took a carriage and was driven at once to a physician, who after diagnosing his case, told him he was suffering from malarial fever and that it will be imprudent for him to attempt to finish his long trip without the intervention of a day's rest.

At the Auditorium annex it was said that Dr. Bedloe was worse, his temperature at one time being 102 degrees.

steamer Abbey a short time before it was captured by a vessel of Admiral Dewey's fleet near Luzon.

The report that Consul Bedloe had been placed under suspension appeared but a few days ago in Washington dispatches, in which it was said suspension had resulted from charges made in behalf of Chinese government and filed at the state department by Minister Wu, protesting against the alleged actions of Chung, Chinese interpreter for the U. S. consulate at Canton, and alleging that Consul Bedloe had violated the treaty stipulations.

"I am not under suspension," said Consul Bedloe, in speaking of these charges. "I am away from my post on sixty days leave of absence for which I made application some four months ago and which is in no way dissimilar to other leaves of absence that have been granted me since I entered the consular service."

"Whatever charges may have been preferred against me at the state department, I must decline to discuss, at least until I know their source and contents. Thus far I have not been informed officially that any charges have been laid against me. The first intimation I had to that effect was when, on arriving in this country, I saw the reports in the newspapers."

"An American registry was granted to the steamer Abbey, it is true, but this was done more than a year ago and at a time when the Filipinos were regarded as allies of the United States. The charge that I am in sympathy with the Filipinos is rank nonsense. The Abbey is a vessel so small as to be of no importance and when the American registry was granted, the boat was under bond to the Chinese government to make a trip to Singapore. The bonds were forfeited."

A WONDERFUL CURE OF DIARRHOEA

A PROMINENT VIRGINIA EDITOR

Had Almost Given Up, but Was Brought Back to Perfect Health by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

READ HIS EDITORIAL

From the Times, Hillsville, Va. I suffered with diarrhoea for a long time and thought I was past being cured. I had spent much time and money and suffered so much misery that I had almost decided to give up all hope of recovery and await the result, but noticing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy and also some testimonials stating how some wonderful cures had been wrought by this remedy, I decided to try it. After taking a few doses I was entirely well of that trouble, and I wish to say further to my readers and fellow sufferers that I am a hale and hearty man today and feel as well as I ever did in my life.—O. R. Moore. Sold by Charles Rogers.
