### Her Stately Carriage.

The play was over. The actors, who had lived long on dreams of a full house such as had faced them at this performance, hastened to the box office, where they expected to witness the manager enact the role of the ghost in a beautiful, heart throbbing drama called "The Postponed Walk of Hamlet's Father." But they were late. The manager had walked ahead of time with the money, and, like Mother Hubbard's bowwow, the members of the company "got left."

One thing, and only one thing, remained for the actors to do, walk back to the city with silk and money blest. It was discouraging, but—

"Say," said the low comedian to the woman who had won storms of applause by her representations of Ophelia, Portia and other characters of equal note, "you shouldn't mind this. Just think, as you walk, of the critic who praised your stately carriage."

He laughed at his joke, but the actress turned up her nose, drew herself up to full height and strode on—with the stately carriage in evidence, but unavailable for locomotion.—New York Press.

### Why Parrots Are Great Favorites.

Of all the members of the feathered tribes there are none which have been greater favorites and have been regarded with a greater degree of genuine attachment than parrots. The beauty of their plumage, with its wealth and variety of gorgeous colors, their symmetry of form and gracefulness of manner would alone have been sufficient to give them their popularity.

But the closest link they have established with our affection is, of course, found in their wonderful faculty for the repetition of spoken words and various familiar sounds, together with their possession, in many instances, of a reasoning power which suggests that they are not always mere imitators, but really understand the general sense of what they say. Combined with this power of speech, the fond attachment which they are capable of showing toward those who feed or are otherwise kind to them leads to their being among the most favored as they seem to be among the best fitted companions of human beings. This place of honor in the animal world they have held for many centuries.—Strand Magazine.

## BLOOD DISEASES CURED

If you ever had any Blood or Skin Diseases, you are never safe until the virus of poison has been eradicated from the system. Don't be satisfied with a "patch up" by some family doctor. Our New Method is Guaranteed to Cure or No Pay. No Names Used without Written Consent.

Cured When all Else Failed.

"Could I live my early life over, this testimonial would not be necessary, though I was no more sinful than thousands of other young men. Indiscretions, excesses and mental worry all helped to break down my system. When I commenced to realize my condition I was almost frantic. Doctor after doctor treated me but only gave me relief—not a cure. Hot Springs helped me, but did not cure me. The symptoms always returned. Mercury and Potash drove the poison into my system instead of driving it out. I bless the day your New Method Treatment was recommended to me. I investigated who you were first, and finding you had over 20 years' experience and responsible financially, I gave you my case under a guarantee. You cured me permanently, and in six years there has not been a sore, pain, ulcer or any other symptom of the disease." M. A. CONLEY.
