The Seabird.

WARREN W. LAMPORF.

It was late in the autumn season,
It was late in the autumn day,
As the Seabird loosed her moorings
And sailed from the harbor away.

And a maiden sat at her window
A-watching with anxious eyes,
For the wind was steadily rising
And the storm-rack covered the skies.

And she watched till the shades of evening
Fell over the land and sea
And hid from her sight the Seabird
And the keeper of Skilligalee.

All night in her lonely chamber,
As she tossed in her troubled sleep,
The maiden lay dreaming of danger
And death on the stormy deep.

She saw the storm-rack and the wave-foam
As closer together they drew,
And heard the loud roar of the tempest
As wilder and wilder it grew.

She saw the rent sails of vessels
Adrift in the murky gloom,
And the worn, pallid faces of sailors
As they sank to a sailor's doom.

And once on the tossing billow,
With the little Seabird in tow,
She fancied all grim and ghostly
She saw the dread phantom ship go.

And sometimes, awaked from her dreaming,
She shuddered to hear the loud roar
Of the tempest about her cottage,
And the boom of the waves on the shore.

Yet there's never a night so dreary
But will have its succeeding day,
And there's never a tempest so angry
But its fury will pass away.

And the morn brought back the sunshine
To the dark and troubled sea,
And the sea brought back to the maiden
The keeper of Skilligalee.

Yet the morn nor the sea brought gladness,
But bitterest woe instead;
For lo! at the feet of the maiden
The keeper lay cold and dead.

Must Help Protect Forests.

Game and Forest Warden Pierce recently received a report from Deputy W. O. Frost giving details in regard to the fire which destroyed about 40,000 cords of four-foot wood in Alger county.

The report shows that during the time the fire was raging, a Finlander, who was ordered to assist the fire fighters, refused, and as a result was arrested under the law requiring every available man to assist when called upon. The law has been in effect about two years, but this is the first time its provisions have been carried out. The Finlander was found guilty and sent to the workhouse for 90 days. It is expected complaints will be made against two other men who ran away when called upon to help.

The Modesty of Women

Naturally makes them shrink from the indelicate questions, the obnoxious examinations, and unpleasant local treatments, which some physicians consider essential in the treatment of diseases of women. Yet, if help can be had, it is better to submit to this ordeal than let the disease grow and spread. The trouble is that so often the woman undergoes all the annoyance and shame for nothing. Thousands of women who have been cured by Dr. Pierce's Favorite Prescription write in appreciation of the cure which dispensed with the examinations and local treatments. There is no other medicine so sure and safe for delicate women as "Favorite Prescription." It cures debilitating drains, irregularity and female weakness. It always helps. It almost always cures. It is strictly non-alcoholic, non-secret, all its ingredients being printed on its bottle-wrapper, contains no deleterious or habit-forming drugs, and every native medicinal root entering into its composition has the full endorsement of those most eminent in the several schools of medical practice. Some of these numerous and strongest of professional endorsements of its ingredients, will be found in a pamphlet wrapped around the bottle, also in a booklet mailed free on request, by Dr. R. V. Pierce, of Buffalo, N. Y. These professional endorsements should have far more weight than any amount of the ordinary lay, or non-professional testimonials.

The most intelligent women now-a-days insist on knowing what they take as medicine instead of opening their mouths like a lot of young birds and gulping down whatever is offered them. "Favorite Prescription" is of known composition. It makes weak women strong and sick women well. Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send to Dr. R. V. Pierce, Buffalo, N. Y., 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound. If sick consult the Doctor, free of charge by letter. All such communications are held sacredly confidential. Dr. Pierce's Pleasant Pellets invigorate and regulate stomach, liver and bowels.

New Poor Commissioner.

At a meeting of the Board of Commissioners of the Poor held at Charlevoix last Monday, the resignation of E. L. Stanford of Boyne City was accepted and Judge Harris appointed Frank L. Pierson of Boyne Falls to fill the vacancy. Mr. Pierson was later elected secretary of the organization. J. W. Rogers of this place is president of the Board and Fred Smith of Charlevoix is the third member. Mr. Stanford was recently appointed game warden for this section and could not conveniently handle the two offices.

Good Fire Protection, Now.

The new 200,000-gallon water tank recently constructed, on the hill north of town, has been put into commission and is giving a good pressure. The new trunk line from the pumping station to the tank is practically completed, and workmen are now busy with the West Side extension.

Jackson Prison Twine.

Michigan farmers are to be congratulated upon the prospects for the success of the Michigan twine plant at the Jackson prison. The plant has been a potent factor in reducing the cost of twine to the farmers. It has encountered opposition from the start from the twine trust. Over two million pounds of twine have already been shipped from the prison. Last week's shipments were the largest in the history of the plant and there is every reason to believe that the entire output will be contracted for before the close of the season. Farmers who have not yet placed their orders should take the earliest opportunity to do so.

Butter worth 30 cents per pound is made from the same milk that grease worth 4 cents a pound is made. It takes as much milk to make the one as the other. The one is the result of ignorance, the other of intelligence. The one goes begging in the market and brings poverty upon the producer, the other is everywhere in demand and brings wealth and honor to the maker. The one honors the cow the other disgraces her! The one builds hovels and sheds, the other builds mansions and costly barns! The one covers the farm with mortgages, the other removes them! The one brings ignorance to the children, the other knowledge and respectability. In no way are ignorance and knowledge more plainly brought in contrast than in the manufacture of butter. Ignorance sits in poverty and is clothed in want and disgrace, while knowledge is clothed in plenty and respectability! In the last ten years knowledge has struck a terrible blow right square on the head of ignorance, cracked its skull and laid it up for repairs. This knowledge had its birth in the West, and the creamery is its legitimate offspring.
