At the May term of the circuit court one of the warmly contested cases was that of Edwin A. Todd vs. James Stever, growing out of the Stever car other business. The jury at that time found a verdict of no cause of action. At the September term a motion for judgment was argued, and on Friday, Judge Newton filed his decision granting the motion, the costs of the former suit to be paid by the party losing the case when tried. G. K. Lyon was the attorney for Todd, and S. F. and Quincy Smith for Stever.

On Monday the Judge filed his decision in the case of Wm. J. Stockton vs. Milo and Fannie Hovey. This case has about the following history: Stockton was an employee of Hovey in a saw mill; while at work he lost an arm in an accident, caused he claims by Hovey's negligence; in a suit Stockton got a judgment for \$1,000 against Hovey, but when he came to levy for the same found that the latter had deeded all his property to his wife; he then asked to have the transfer set aside, which was the motion granted by the Judge.

The following court item from the Flint News will be of interest: Judge Newton yesterday handed down an opinion sustaining the demurrer of defendant in the case of ex-Gov. Josiah W. Begole et al. vs. James Stever. The case was heard by Judge Newton at the last term of the Shiawassee county court, and grows out of the investments of Gov. Begole and others in a concern for the manufacture of the others. Gov. Begole was elected president, a brick building in which to carry on operations was erected at Owosso, and machinery was purchased and placed therein. The invention evidently proved worthless and Gov. Begole and others interested brought suit, praying the court to grant an order for the sale of the property in order that the proceeds might be devoted to the payment of some \$3,000 they had invested in the project. Plaintiffs claimed in their bill they were induced to invest on the representation of Stever that his patent had been thoroughly tested on several roads and found perfect, whereas the invention was found to be a failure. Stever filed a demurrer to the bill in which he sets forth that the bill does not make the corporation a party to the suit, although seeking relief against defendant Stever and the corporation; that the court can make no decree of the nature asked until all the parties are brought before the court.

Judge Newton in his opinion sustains the demurrer, but allows plaintiffs 20 days, on payment of costs, to amend the bill by making the corporation a defendant or including any party or any matter which came properly within the scope of the bill as originally filed.

Judge Newton has filed an opinion overruling defendants' demurrer in the case of James H. Calkins vs. Lyman Woodard et al. This is a Shiawassee county case, comes from Owosso, and was brought to quiet title to a piece of land on which formerly was a mill race owned by Dewey & Stewart, part of which is now a street and has been for over twenty years. Defendants demurred to plaintiff's bill, although in the demurrer they admit the facts pleaded in the bill as true. The judge decides as above, but grants defendants leave to amend in twenty days on payment of costs.
