IN BAD ODOR.
Prison Officials at Jackson Were Grossly Negligent.

Discipline Thrown to the Winds and Convicts Have an Easy Time—They Are Censured by the Jury at the Haight Inquest.

THE PRISON SENSATION.

JACKSON, April 2.—The reward of \$500 offered for Latimer's capture will be awarded to six men of Jerome, the town where he was captured. They are James Westover, who first identified Latimer at Walworth's store, and the alien party, composed of John Van Allen, James Phelps, James Moreland, Lester Carpenter and George Sabin.

At the inquest on Haight's remains the jury returned a verdict to the effect that George Haight died from the effects of a dose of prussic acid, feloniously, willfully and maliciously administered by Latimer. The verdict also finds that there has been gross negligence in the prison management in allowing prisoners to have the liberty of the halls after locking hours and in allowing poisonous drugs to be taken into the prison and to go into the hands of known desperate convicts therein imprisoned, and censures Clerk Taber and Capt. Gill for such gross negligence, which gave Latimer the opportunity of procuring and administering the poison and thus making his escape.

When arraigned for examination Friday afternoon Maurice P. Gill, captain of the prison guard, was discharged. The charge against him was aiding Latimer to escape. He was immediately rearrested on a charge of negligence and placed under bonds of \$500 for hearing. Gill is doubtful of his ability to clear himself of this charge, but thinks complaints should also be made against Warden Davis and Clerk Taber, as he thinks them equally guilty.

New disclosures of the loose management of affairs at the prison have appeared to have about all the privileges as well as luxuries they want. Talking with each other is prohibited by rule, but they visit and dicker among themselves in jewshaps, mouth organs, banjos, tobacco and other things. When supposed to be at work they gather in groups in the yard and tell stories. The trading feature was exposed by a clerk showing his books and complaining about the amount of work required to keep the books.

Ward off disease by removing the cause of it. It's with the liver or the blood, nine times out of ten. A sluggish liver makes bad blood—and bad blood makes trouble. Dr. Pierce's Golden Medical Discovery makes pure blood. It invigorates the liver and kidneys, rouses every organ into healthful action, and cleanses it, renews the whole system. Through the blood it cures. For Dyspepsia, Indigestion, Biliousness, Scrofulous, Skin and Scalp Diseases—even Consumption (or Lung-scrofula) in its earlier stages, it's a certain remedy.

Nothing else is "just as good." Anything "just as good" could be sold just as this. It's the only blood-purifier that's guaranteed to benefit or cure, in every case, or the money is refunded.

The catarrh that isn't cured costs \$500. Not to you, but to the proprietors of Dr. Sage's Catarrh Remedy. They promise to pay you the money, if you have an incurable case.

They don't believe that you have one.
