NUMBER 23.

BRIGHT FUTURE PROSPECTS

Echo Steadily Forging to the Front
With the Development of Surrounding Rich Resources

LAND OF ALFALFA AND HONEY

Merchants and Everybody Prosperous—Lands Now Irrigated and in Cultivation—Other Projects—Homes for the Homeseeker.

No town along the line of the O. R. & N. has brighter future prospects than Echo.

Located as it is in the very heart of one of the choicest agricultural districts of the West which is being rapidly developed and brought into cultivation by means of irrigation; the feeding and shipping point for thousands of head of livestock annually, and fast becoming recognized as a natural distributing and supply point for a rich interior section of country, Echo is steadily and permanently forging to the front and assuming metropolitan airs.

Real estate transactions in both city and farm properties is quite active and many improvements are being made in the town. Many new residences and business buildings are contemplated and at the present writing several are under course of construction.

Investments in Echo realty is sure to bring good returns, and through the steady and permanent advance in values will pile up the golden dollars while you sleep.

Echo merchants are doing a thriving business and everybody generally in this section is prosperous, as is the case in all irrigated sections, where the farmer does not have to depend upon rain for moisture, and knows to a certainty and full knowledge that when he seeds his ground he will harvest a crop, and can almost estimate beforehand to the bushel or ton what the crop will yield per acre.

Under the present irrigation systems at Echo there is about 15,000 acres of land under cultivation, which annually produces from 7 to 10 tons of choice alfalfa hay to the acre in three cuttings. Wheat, oats, barley, rye, etc., fruits and berries of all kinds and varieties have a prolific

growth and yield immense crops under irrigation, and in this rich made soil almost anything you put in the ground with the application of water and the plentiful bright sunshine of this section will grow and ripen to perfection, almost beyond belief.

Other irrigation projects are being inaugurated in the vicinity of Echo, have already been financed, and within the next year or two will furnish water and bring into cultivation thousands of acres more of choice sage brush land which, when reclaimed will produce and blossom as the rose, and which will all be tributary to Echo, and annually pour into the channels of trade of this city an enormous wealth in products and golden dollars.

The home of the busy bee and the land of alfalfa and honey; the land of choice fruits and berries; the land of luscious water-melons, cantaloupes and muskmelons, fit to tickle the palate of a king with their delicious flavor; the land of beautiful flowers and gardens; the land of sunshine, health, happiness and contentment: truly Echo is the mecca for the homeseeker and the home builder from the overcrowded districts of the east. Here he will find plenty of pure fresh air, a balmy atmosphere, and a climate that for health and loveliness cannot be surpassed anywhere and seldom equaled. Excellent school facilities; good business opportunities; in fact all the conditions are to be found in this prolific section that bring about the adequate and highly profitable remuneration of labor, happiness, contentment, and of life, worth the living.

NOTICE.

ECHO, ORE., June 1, 1909.

Property owners will please take notice they will be compelled to cut all weeds on their property, and to the middle of the street adjoining their property under penalty.

Signed:

WM. HOGGARD,
City Marshal.

Sore Nipples.

Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the babe to nurse. Many trained nurses use this salve with best results. For sale by Dorn & Dorn.

The Saturday Evening Post at the Racket Store.

ECHO REDS VS. UMATILLA NINE

The Two Teams Cross Bats on the Diamond at Umatilla Grounds Sunday Last

10 TO 7 IN FAVOR OF ECHO REDS

Quite a Delegation Went Down From Echo and Were Well Entertained By the Umatilla Boys—There Was No Wrangling.

The Echo Reds crossed bats on the diamond with the Umatilla nine Sunday last at the latter town.

A delegation of about twenty people from Echo went down to Umatilla on the train Sunday morning to witness the game, and they all report having had a good time, and that the Umatilla boys certainly know how to entertain and make a fellow feel at home.

There was no wrangling on either side, and both teams gallantly played the part of gentlemen all through the contest.

The game was well attended and was promptly called at 12:45 P. M. and closed at 2:10, lasting just one hour and twenty-five minutes.

It was an exciting and interesting game from start to finish and at the close the score stood 10 to 7 in favor of Echo.

To encourage the Echo boys to play ball E. H. Brown, of the Echo Register, took along ten Havana cigars and promised a cigar every time a tally was made by the Echo boys. The cigars and tallies broke even—10 each. If Brown's cigars had held out it is likely the Echo Reds would still be scoring tallies.

Following is the lineup of the two teams:

ECHO		UMATILLA	
Campbell	p	McKenna	
Hoskins	c	Burke	
Gilbert	1 b	Cornell	
Hurr	2 b	Lenox	
Pugsley	3 b	J. O'Connell

BONNEY-BAILEY NUPTIALS

A pretty wedding was solemnized at the residence of Mr. and Mrs. L. C. Rothrock, in Pendleton Tuesday of this week, Rev. Storey officiating, when two of the most prominent young people of Echo, Mr. Ralph R. Bonney and Miss Vivian Stewart Bailey, were united in the holy bonds of matrimony.

Mr. Bonney, the groom, is the youngest son of Mr. and Mrs. C. R. Bonney, of Echo, and is a prominent and rising young business man, being engaged in the harness and saddlery business in this city.

Miss Bailey, the bride, is the youngest daughter of Mr. and Mrs. Joe Bailey, of this city, and is a very accomplished and talented young lady.

Mr. and Mrs. Bonney have a host of friends in Echo and vicinity who wish them bon voyage and much happiness and prosperity over the matrimonial sea of life.

The happy young couple have taken up their residence for the present with Mrs. Bonney's parents in Echo, where they are now at home to their many friends.

Marshfield—The national waterways commission, which will take a western trip during the coming summer, has been invited to visit Coos Bay and other Oregon points. It is expected that the entire commission, which is composed of members of the senate and house, will not visit the Pacific Coast, but that a sub-committee will go to places west of the Mississippi.

Salem—Eugene Bosse, of Salem, has received from the United States patent office complete rights on a new flax machine, which it is believed will make flax-growing feasible and profitable in this country. The machine will do away with the present expensive process of retting the straw. It is said the machine will turn out from 1300 to 1500 pounds of clean fibre in ten hours and can be operated by four men.

La Fayette—Charles Mitchell, a well to do farmer near Amity, saw a pack of hounds on a chase pass through his fields. Taking his shotgun he followed them to his sheep pasture, where he shot and wounded two of them. He was brought before a justice of the peace and fined \$85 and costs. The shooting is the first incident of its kind in Yamhill county. Fox hunting has become one of the most popular sports in the Willamette valley.

Salem—Attorney-General Crawford has rendered an opinion to the effect that the master fish warden of Oregon may lawfully collect for all licenses for the operation of stationary fishing gear and equipment on the Columbia river south of the Oregon-Washington boundary line, and that for the operation of all floating equipment a license may be granted by the authorities of either Oregon or Washington, and that such license is sufficient.

Lebanon—Five thousand cords of pulp wood belonging to the Lebanon Paper Mill, were destroyed Saturday, making a loss of \$22,500. Added to this loss is approximately \$6000 expended by the company in getting firemen here from other cities and in keeping a big force of men fighting at 50 cents an hour all night and day. This expenditure saved about \$40,000 worth of wood and in keeping the \$1,000,000 paper mill plant out of danger.

Of Interest to Farmers and Mechanics.

Farmers and mechanics frequently meet with slight accidents and injuries which cause them much annoyance and loss of time. A cut or bruise may be cured in about one-third the time usually required by applying Chamberlain's Liniment as soon as the injury is received. This liniment is also valuable for sprains, soreness of the muscles and rheumatic pains. There is no danger of blood poisoning resulting from an injury when Chamberlain's Liniment is applied before the parts become inflamed and swollen. For sale by Dorn & Dorn.

J. E. Cherry, of Milton, registered at the Echo Hotel yesterday.

CITY COUNCIL PROCEEDINGS

City Council met in regular session Wednesday evening June 3rd with Mayor Scholl presiding. Aldermen A. B. Thompson, E. R. Ware, R. B. Stanfield, E. Ripper, E. N. Litsy and Recorder Brown present. Absent Alderman Smith.
