

Enterprise 5000 In 5 Years

There's a reason. There are plenty of reasons. As a general conclusion, satisfy yourself by taking a general survey of the towns, county seat towns in the East you have known and you will recall towns of four and five thousand people that do not begin to have the natural resources tributary to them that Enterprise has. In those towns of 5000 the resources are developed. Here they haven't begun to develop. In this valley there are 70,000 acres of irrigated land, not a "going to be" proposition, but an actual fact today. We say that every acre of that 70,000 acres of irrigated land is tributary to Enterprise. Part of it is near Joseph, Lostine and Wallowa, but as every one of those towns grows, Enterprise will grow that much faster. As a "one-man town" is a dead one so is a one-town county a dead one.

There is not a particle of doubt in our minds but in the next few years Joseph, Lostine and Wallowa will be thriving, bustling towns of 3000 people, and that very fact will make Enterprise, the county seat,

centrally located as it is and the whole county directly tributary to it, a town of 5000 to 6,000 people. It is as necessary Joseph, Lostine and Wallowa thrive for Enterprise to grow, as it was to have a Buffalo, Baltimore, Pittsburgh, Philadelphia, and Washington to make New York City. There is not a particle of doubt but that Wallowa county has the resources to support four or more towns of 3,000 to 6,000 people. There is enough timber tributary to each town to keep one or more large saw mills in each town going for the next 25 years, and the lumber industry now assured for Wallowa will make that a 3000 town. The mining development at Lostine assures its future growth; Wallowa Lake will make Joseph the most popular summer resort in the Northwest and the County High School and county seat definitely located at Enterprise assures for it in a few years a population of 3000 people, to say nothing of the mineral, agricultural, timber, stock and dairying, water power and other resources at her doors. Marcus Daley, the great copper king of Montana, passed through this county in an early day on a mining tour and said that when transportation was provided there was enough copper in the Powder River mountains to build a town in Wallowa Valley the size of a half dozen Buttes, and that **Town is Enterprise**. Only a few days ago \$30,000 was deposited in Enterprise Bank to develop the Contact mines. The Wallowa County Mining and Development Company with a capital of \$2,000,000 was recently organized with head offices at Enterprise, and now has a force of men developing this property. The railroad down Snake river will open up a dozen good

mines. Just as the mines in Coeur d'Alene and British Columbia, 150 miles from Spokane, and the timber and agricultural country and water power made Spokane a city of 100,000, so will the mines, timber, irrigated and wheat lands and water power make Enterprise a town of 5,000 to 10,000. We have said nothing of the stock industry. We have said nothing about this being the finest county in the Northwest for sheep, cattle, horses, hogs, and dairying. The crop of wool for 1909 alone brought in \$350,000 from the outside. How's that for pay roll? Of the 70,000 acres under irrigation, every 40 acres will support a family and net \$1000 a year profit when properly handled.

Why pay rent when you can buy property in Enterprise for half what it is worth and on easy payments. We have lots for sale in Alder View and Boyd's Addition for \$100.00 up and only \$10.00 down, \$1.00 a month with only 7 per cent interest on deferred payments. Do you realize that property in Enterprise has not advanced a dollar since the panic?

And yet today, the quietest time of the year, the merchants say business never was so good and money so plenty. Not a house in town for rent and yet there are a dozen dwellings in course of construction. We have three clients wanting to rent business rooms and not one to be had in town. We are on the eve of a great town development. The dull period is over and Enterprise will grow faster in the next year than it has in the last three years. Look out for the "knocker." You will recognize him when you meet him on the street. If you are from Missouri we will show you.

If you have a snap in farm property we will buy or sell it for you. If it isn't a snap, say nothing. We handle snaps only.

Burk's Big Uncle Tom's Cabin Company Under a Mammoth Canvas. Will Exhibit at Enterprise.

Among the many noted organizations in America that have become famous, the Ringing Bros. and Bernum & Dale's Shows are considered to be the largest and most popular Circuses, but the largest Dramatic organization exhibiting under canvas is "Burk's Big Spectacular Production of Uncle Tom's Cabin." This Mammoth Amusement Enterprise is the acknowledged BARNUM of all "Uncle Tom Cabin Companies." Like the big circuses they travel in their own cars and require a special train of their own to transport their paraphernalia from one city to another. This organization embraces more Men, Women and Children, More Horses, Ponies, Dankeys and Siberian Hounds, More Charlots, Floats, Tableaux-Wagons etc. than any other similar exhibition in America. The Parade which may be seen daily on the principal streets whenever this Mighty Show exhibits is the largest

of any Domestic exhibition in the world. The immortal play "Uncle Tom's Cabin" is Mrs. Harriet Beecher Stowe's Masterpiece of Dramatic Fiction. The management of Burk's Big Company has spared no expense in securing a Metropolitan Cast to properly produce this grand old drama in combination with the dramatic talent the management presents a Contingent of High Class Vaudeville Artists consisting of Merry-Makers, Jubilee Singers, Lancers, Wire Walkers, Hoop Rollers, etc. These Artists are introduced during the action of the play, and always create the greatest of satisfaction. Fred R. Fisher's Famous Concert Band and Symphony Orchestra is also one of the many strong features of this up to date Modern American Amusement Organization, which is coming in all its vast entirety and will exhibit at Enterprise, August 17, under a Mammoth Water Proof Palace Pavilion Theatre Seating 2500 people.
