## Assays High In Copper and Gold

Ex-County Commissioner H. M.  
 Williams and S. D. Moore of Lostine  
 passed through Enterprise the first of  
 the week on their way to the head of  
 Sheep creek to do assessment work on  
 the quartz claim owned by them and J.  
 A. Burleigh of this city at the mouth of  
 Lick creek.

The rock from this claim assays high  
 in copper, gold and silver. They were  
 accompanied by Joe Clemens, deputy  
 game warden for this county, who is a  
 practical mining man. If the ore con-  
 tinues to show as good results as it has  
 thus far, the shaft will be sunk to a  
 considerable depth.

This claim is only one of many  
 quartz locations on the headwaters of  
 the Innaha, Sheep and other streams  
 in that section that are making a good  
 showing, and the most conservative are  
 now predicting a big mining boom in  
 southern Wallowa on the completion of  
 the railroad.
