Two Divorces Are Granted—

Judge Calkins today granted two divorces, one to Fleda Edna Hall from Paul Luther Hall, upon the alleged grounds of cruel and inhuman treatment, and the second to L. M. Johnson from Della Johnson, the complaint being desertion.

Balmy Springtime Weather—

Perfect springtime weather is making the frogs sing, causing the trees to bud, and has placed garden making upon the calendar of activities. Farm work is being gotten under way, and much ground will be prepared for planting during the next few days.

Dr. Bywater Speaker—

An audience of more than 300 gathered at the Baptist church last night, when Dr. E. Bywater delivered his address on "Our City, a Boom and a Boomerang." He pointed out the need of boosters, but not boomers, while the knocker may sometimes serve as a governor to the over-enthusiastic booster. The doctor believes that the working up of a permanent payroll is the key to a successful community, and this is already forming with the advent of sawmills, sugar factory, the new railroad, and the opening of mines. Yet the need of securing still more enterprises must continue to be the paramount effort of every individual citizen, Dr. Bywater stated.

Will Again Haul Copper Ore—

A. H. Gunnell, of the Waldo Copper Mine company, announces that teams are to be started hauling ore from the mine to Waters creek, for shipment over the new railroad, tomorrow. When the heavy rains started, the hauling of ore by wagon and by track had to be discontinued, but the roads are now becoming settled again, spring always opening with a rush in southern Oregon. The Waldo mine was the first to ship a carload of ore over the new railroad after its construction to Wilderville, and it now seems likely that it will also have that distinction from the Waters creek station.

CRATER LAKE TO BE SUBJECT OF TALK

A treat is in store for the lovers of scenic southern Oregon, and of Crater lake in particular, when on Thursday afternoon, February 17, the fine collection of paintings by Miss Mabel Russell, of Ashland, will be on exhibition at Guild hall, and on the evening of that day there will be an illustrated talk on Crater lake, at which time the pictures may also be viewed. The talk will be given by a man who is perhaps better informed on this subject than any other man in the world, Will G. Steel, superintendent of Crater Lake National park.

Miss Russell, a native Oregonian, comes of a family highly gifted in art. Her paintings to be shown here are largely of Crater lake, and in addition she will exhibit some photographs taken there at a time when she was snowbound. The painting, "Forset Fire," just completed, will be viewed on Thursday. The Crater lake pictures were exhibited in Washington, D. C., when Mr. Steel went there in reference to the development of the Crater lake park.

Mr. Steel needs no introduction to any southern Oregon community. His work for and devotion to the development of Crater Lake National park is too well known.

WILL INDICT MORE IN BOMB PLOT CASE

Washington, Feb. 14.—At least four or five new indictments may be expected to follow further justice department investigation of C. C. Crowley, indicted with German Consul Bopp as a bomb plotter. The department, it became known today, has secured a mass of evidence against San Francisco whom, it is alleged, Crowley paid and whom have been circulating throughout the west in behalf of German propaganda.

CHAMPION PUG HAS DEVELOPED A COLD

Chicago, Feb. 14.—Due to development of another heavy cold, Jess Willard has abandoned training temporarily and fears were expressed this afternoon that his match with Frank Moran at New York may have to be postponed.

C. E. CONVENTION WILL OPEN FRIDAY

It is the intention of the committees in charge of the coming state convention of the Christian Endeavor society that no citizen of Grants Pass shall be allowed to forget the dates of February 18 to 20. They desire that every person who is interested in this great organization shall look forward to the big meeting from the viewpoint of hosts and hostesses, and with a feeling of pride and proprietorship. It will be the occasion of getting and receiving, for the convention is bound to bring to us much that is helpful and inspiring, and we desire that the visitors should carry away a favorable impression of Grants Pass and her people.

First and foremost there should be an atmosphere of cordial hospitality, both in the churches and the city. It should be shown that the city is in sympathy with the movement, and with this in view all the business houses will be asked to decorate their windows with the colors and insignia of the society. Further, the owners of automobiles will be asked to donate the use of their machines for the transportation of delegates, especially on Saturday afternoon, when it is planned to take the visitors on a sight-seeing tour about the city.

We desire that the people of the various churches will avail themselves of the various sessions, and especially the popular evening meetings with their song services, and the union church services on Sunday evening.

The young people of the different societies should need no urging to register early in the convention and show the visitors the local union is back of the event. And we hope also that every registration will mean a ticket to the Millionaire Banquet, so that not one of the 200 seats at the Oxford will be vacant.

Lastly, we urge that every singer in the city will be ready to assist in the chorus work during the convention. This will be in charge of a capable director, and will be made a pleasure to all concerned.

PUBLICITY COMMITTEE.

Steam Power.

The power of steam was known to the ancients, a mechanical contrivance in which it was used being noted by Hero of Alexandria about 130 B. C., but nothing came of it, and it was not till the seventeenth century that its power was again recognized.

A Dead One.

"He is a dead one" is not slang. It occurs in Longfellow's "Spanish Student." The clown Chispa says, "I have a father, too, but he is a dead one."

ARMOR PLATE BILL ACTION IS DELAYED

Washington, Feb. 14.—Senator Lodge today temporarily blocked the attempt of Chairman Tillman of the senate naval committee to get immediate action on the government armor plate bill.

The Massachusetts senator denied any intention of delaying the bill and said he merely desired to have it lay over until Senator Penrose returns. Penrose had given notice that private armor plants will close down and boost plate prices if the bill is passed. Tillman said he would brook no delay and would attempt to have the measure considered over Lodge's objection if the circumstances of the latter's request are suspected.

LONDON REPORTS ANOTHER ZEPPELIN IN DISTRESS

London, Feb. 14.—The Zeppelin L-20, sister airship to the L-19, destroyed recently in the North sea, was reported in Copenhagen mes-

sages today to have been in distress off the west coast of Denmark yesterday. Her engines were said to be working irregularly, while another report said she was drifting in the North sea.
