### BILLIE BURKE

is a natural screen actress—she was probably a tomboy earlier in life. Back of her fascinating vivacity are the high spirits of sound health—she is a fountain of natural energy and seemingly exhaustless vigor. Every movement, however, nicely balanced by training, springs from the natural impulses of a woman to whom mere existence is a natural pleasure. Such, at least, is the impression she conveys to those who rejoice with her, whether she is merely amusing herself or whether she is shattering some old world pessimism.—Extract from M. P. World, by Louis R. Harrison.

## STATE WARDEN SHOEMAKER HERE

State Game Warden Carl D. Shoemaker autoed into the city Friday night, and this forenoon left for the mouth of the Rogue, where he will investigate conditions in that district. He was accompanied on the trip by B. L. Jewel, deputy state fish warden, of Oregon City; James Driscoll, deputy game warden, and C. H. Flory, assistant district forester, of Portland. They went by way of Crescent City, which point they were due to reach last night. Mr. Flory will visit the Winchuck portions of the Siskiyou reserve while the others of the party go on to Gold Beach and Wedderburn to investigate the fish and game conditions. On their return, it is expected that all the gentlemen will make a trip to the Josephine caves, going in from the Illinois valley side, where they will have a walk of less than five miles over the trail that leads up Cave creek.

Washington, June 17.—An ambulance company and a field artillery company and a field hospital corps ordered from Cheyenne, Wyoming, to the Indiana training camp, today was diverted for service on the border.

## To the People of Grants Pass:

In presenting "Peggy" at the Bijou Theatre tonight and tomorrow, I wish for the sake of the photoplay art to appeal especially to those to whom the photoplay is an unusual amusement.

It is my desire to show this picture, undoubtedly the best ever shown in this city, to the irregular show goes as a demonstration of a photoplay story, beautifully told, skillfully directed and artistically constructed and photographed.

I believe in the photoplay. In my opinion, it is the newest of the Arts, and will take its place with the other seven.

I want you to see "Peggy" because it is in regard to pure artistry and construction the peer of any photoplay ever produced.
