FAIR SPIRIT IS GROWING.

The part which Grants Pass shall have in the entertainment of visitors during the days of the county fair is now being formulated and planned by a number of committees authorized at the general meeting held in the Commercial club rooms Tuesday evening.

The gates at the fair grounds will be open during the day, but all entertainment during the evenings of the three days will be in the hands of the committees of citizens, and will be held upon the streets.

THE STRIKE SITUATION.

How the railroad managers and the chiefs of the brotherhoods of trainmen, now involved in a dispute that may tie up traffic in the United States next Monday, view the six proposals made by President Wilson is contained in the following epitome:

First—Brotherhoods are passive regarding any plan to enlarge membership and widen scope of the interstate commerce commission. Railroads wholeheartedly approve the suggestion.

Second—Brotherhoods unanimously want establishment of an eight-hour day by law. Some think such action would prevent the strike.

Third—Brotherhoods not greatly concerned over appointment of a commission to study effects of an eight-hour day on operation costs. Railroads desire such a commission if the eight-hour day law is inevitable.

Fourth—Brotherhoods opposed—in principle only—suggestion that congress explicitly approve interstate commerce commission consideration of increased freight rates; believe

the roads are making enough now to grant demands. Railroads favor any movement to give them increased freight rates, but are doubtful of results of such consideration.

Fifth—Brotherhoods actively oppose as un-American "forcing men to work when they do not want to," which, they say, would be the result of creation of a commission to investigate labor disputes, with the proviso that to strike would be unlawful during any investigation.

Sixth—Brotherhoods do not oppose giving the president power to operate trains in event of military necessity, provided only trains needed for military purposes are thus operated.

ployes at a meeting last night. Engineers were instructed to quit their engines at terminals, or, if that course violates the sixteen-hour law, to leave them at the first switch.

Railroad terminals were jammed today. Business men rushed to other cities to close deals so they could get back before a strike is called.

KAISER DEPOSES GEN. FALKENHAYN

London, Aug. 30.—Emperor William dismissed General Falkenhayn, chief of the German general staff, because Falkenhayn was opposed to sending troops to the eastern front to meet a Roumanian invasion.

Field Marshal von Hindenburg urged that reinforcements be sent to Austro-Hungary and won the support of the emperor with the result that troop trains are now rushing thousands of German soldiers to the defense of Transylvania.

The change in the general staff means the dismissal of 30 German generals on both fronts, the most radical shake-up in any army since the war began, the correspondent stated.

ARTILLERY SHELLS BULGARIAN CITY

Amsterdam, Aug. 30.—Roumanian artillery is bombarding the Bulgarian city of Rustchuk and the Hungarian town of Orfoso according to Vienna advices today.

Rustchuk lies on the river Danube, opposite the Roumanian city of Giurgiu, and on railways affording an easy entrance into Bulgaria for Roumanian invading armies.

Orfoso lies near the junction of the Roumanian, Serbian and Hungarian frontiers.

STRIKE FEAR CAUSE OF SLUMP IN MARKET

CAN NOT FORCE MEN TO WORK

Washington, Aug. 30.—Senator Cummins today, in a senate speech, denounced "so-called compulsory arbitration" as an impossibility.

"I do not doubt, however," said Cummins, "that congress could create a tribunal and confer upon it jurisdiction to seize upon a controversy between a co-operative body of railway workers, such for instance as the brotherhood engineers and the railway companies, call the parties in dispute in before it, take evidence and render judgment, assuming, of course, that the dispute affects commerce with foreign nations or among states.

"But even this procedure would meet obstacles, since enforcement of an award might compel men to work against their will, which is involuntary servitude. Compulsory arbitra-

tion in the complete sense is a myth, an idle dream. It is only possible under pure socialism, in which all returns of the human being are determined by the state, or in pure monarchy.

"If we are ready to treat the man who refuses to work, or who leaves his work because he is dissatisfied with wages or working conditions as we do criminals or deserting soldiers, then compulsory arbitration is possible.

"I pray we never shall be ready to do this."

Cummins said there is some good in both the Canadian and New Zealand laws regarding industrial disputes, but that they are not wholly effective. Similar laws in Massachusetts and Wisconsin, he believes, are better.

JOHNSON IS G.O.P. CHOICE FOR SENATOR

San Francisco, Aug. 30.—Governor Hiram Johnson will be the republican candidate for United States senator at the November election, according to the incomplete returns early today from more than half the precincts in the state.

While the republican state central committee, which opposed Johnson, will not concede Booth's defeat, Governor Johnson's manager predicted early today that final revised returns will show the progressive executive's majority to be greater even than expected.

Analysis of the figures indicates that Booth carried virtually all of the counties in southern California south of the Tehachapi but that pluralities rolled up for Johnson in other parts of the state more than overcame Booth's lead in the south.

Johnson was jubilant over his victory today.

Returns are far from complete. According to these, Johnson carried San Francisco by 10,000, Alameda county by about 5,000, Santa Clara county by about 800 and San Mateo county by approximately 500.

Incomplete returns also indicate that Johnson carried 29 of the 53 counties in the state, although the result in some counties was so close as to be in doubt.

A statement made before daylight at the Johnson headquarters was that

"In the Country God Made and Man Forgot" There will be horse RACES— You follow with the speedy nag—GET BUSY Ball Games, Dancing and other SPORTS BAND MUSIC—EVERY DAY—HEAR THAT? that vacation trip should not be delayed. Newport "Oregon's premier beach resort" is not far away and is easily reached. 2 Daily Trains from Albany and Corvallis. Low round trip fares are available. Scott, General Passenger Agent, Portland, Oregon. SOUTHERN PACIFIC

Johnson's plurality would be, "at least 7,000," and it was added that this result was reached "by conceding every doubtful uncertainty." The vote in San Francisco was only about half of the official registration, and it is believed that this will prove to have been the ratio of votes polled throughout the state. In the Fifth congressional district, Congressman Nolan was nominated by both the republicans and democrats for congress. Cow Ease will keep the flies off of your cows if you will give it a chance.
