SOME DEMOCRATIC PROSPERITY.

Senator Chamberlain, in his address delivered in Grants Pass Wednesday evening, took full credit to the democratic party for the "prosperity" that has come to the country during the past three years.

"We have heard in recent days that the alternative of the policy of the present administration is war. I think the alternative of the present administration is peace with honor."

Seventeen articles entering into the manufacture of actual munitions, foodstuffs and various supplies for the great armies of Europe have constituted this year 64.7 per cent of the total exports of this nation.

FARM LOAN BOARD GIVES WARNING

Washington, Oct. 12.—Seeking to head off what they believe is developing into one of the greatest financial frauds the United States has known, the federal farm loan board today asked the aid of the department of justice.

Clear across the continent, in a strip of states from Virginia to California, the board reported to the justice department, organizations either deliberately fraudulent, or at best illegal, have sprung up for the purpose of defrauding farmers through the latter's ignorance of the new rural credits act.

been victimized to an aggregate of \$350,000.

Governors of states and members of congress have been made unwitting parties to some of these illegal operations, it is said, the promoters taking advantage of them as well as of the farmers.

Prominent men in all walks of life have been involved, their names being used in some cases simply to lend respectability. The board believes it will be able to prosecute successfully.

One of these concerns failed before it could even have applied for a charter, but it had sold stock to the amount of several hundred thousand dollars to farmers.

The board today would not make public the names of the concerns to which it is calling the justice department's attention and refused to give their localities, save that by coincidence they have appeared in the belt of states across the middle of the country, comprising some of the most prosperous farming sections.
