

# The Condon Globe

VOL. XVI.

CONDON, OREGON, FRIDAY, NOVEMBER 16, 1906.

NO. 35.

## LOCAL AND PERSONAL

The Ladies of the Catholic church are making elaborate preparations for their first bazaar. All kinds of fancy work will be sold and several contests are contemplated. The sisters of St. Dominic are arranging an entertainment which will be given in connection with the bazaar.

Grant Wade of Olex was in town Tuesday evening.

Frank Palmer departed Wednesday morning for Portland where he will remain for a few days.

Wm. Looney of Ferry Canyon was a Condon visitor Wednesday.

J. F. and C. A. Lewis of Olex were business visitors in Condon this week.

S. B. Barker is repairing the hall over the Condon Drug Co. store for the accommodation of the local lodges.

Miss Pearl Carlisle of Arlington was visiting with friends in Condon this week.

Syl Palmer and wife left Tuesday morning for Coos Bay where they expect to locate if they are favorably impressed with the country.

F. A. Haskell transacted business in The Dalles this week.

Mrs. R. E. Summers and her niece, Mabel McMorris, who recently recovered from a severe attack of typhoid fever, left on Tuesday's train for Portland where they will visit for a few days.

Emmett Summers shipped two car loads of fat hogs to Troutdale this week.

The Portland Telegram contained a fine photo of the Condon National Bank building this week.

F. E. Reynolds of Gwendolen had his subscription to the Globe extended for another year this week.

Reserved seats for the second lecture of the Midland Lyceum Bureau will be on sale at Troxel's jewelry store next Monday.

Geo. Blake and B. K. Searcy returned from Shuttler Flat this week with fifty-six geese.

The Oregonian has been sued for libel by W. S. Ladd. A newspaper that can't kick up a libel suit in this day and age isn't worth reading.

Chas. Horner left on the Thursday morning train for Albany where he will visit with the home folks for a few days.

Drs. Wood & Gavey are moving into their new quarters in the Gilliam County bank building this week. They have rented a suite of five large rooms on the second floor of the new building which will be fitted up in first-class shape.

Frank Golden returned Tuesday evening from a few days' visit in Portland.

One of our subscribers concluded this week that he couldn't afford a dollar and a half a year for a county paper. We didn't believe there was such abject poverty in the county. It's up to some one to take up a collection for this poor, unfortunate individual.

Weigel & Rice have moved into their commodious new quarters in the Gilliam County Bank building. The firm had intended to make the change a few weeks ago but it seemed impossible to to finish up the new store at an earlier period.

## AJAX

Mr. Lee Hines returned from a weeks sojourn in Wasco and Portland.

Miss Ethel Barres has returned to the Ajax vicinity and is residing on her homestead.

Mrs. E. Maley has gone to Phoenix Arizona, to spend the winter with his grandson, Fred Farrar.

Miss Lizzie Barres was a passenger on the Ajax stage last Saturday.

Wm. Atridge, who has been resident of Ajax all summer, has located near Lebanon.

Fine rain in Ajax last week. The ground is wet to a depth of about four inches.

Ethel Adlard began teaching the Ajax school Monday.

Oscar Simmons, L. L. Turney, Pias Workinger, Albert Brandon and Mr. Morgan were Condon visitors last week.

Mrs. Geo. Gram is visiting with friends in Condon.

Smith Bros. are busy seeding.

## REGISTER NOLAN RESIGNS

While there is much discussion among business men and politicians here today over the published report of the resignation of Michael T. Nolan, register of The Dalles Land Office, but little could be learned of the matter more than has already been printed. Mr. Nolan is out of town today and an expression of opinion could not be had from him. When asked about the matter, Malcolm Moody said: "Nolan is the author of any animosity between us if there be any, I know nothing about it." Further he refused to discuss the subject.

Miss Lang, receiver of the land office, when questioned, said: "This is news to me, I know nothing about it and have nothing to say."

Notwithstanding these denials and seemingly apparent surprise when questioned, the fact remains that Mr. Nolan has resigned. It is understood that his resignation has been accepted, and that it will take effect as soon as his successor is appointed and confirmed. Mr. Nolan did not follow the established custom of allowing his resignation to take its course through what is termed the "proper channel" in such instances and send it through the General Land Office, but sent it direct to President Roosevelt, where, instead of being turned over to the Land Office, where it properly belonged, it is said to have been sidetracked and is now locked up in Secretary Hitchcock's office.

Accompanying Mr. Nolan's resignation, it is said were charges of official misconduct against Miss Anne M. Lang, Receiver of The Dalles Land Office, in which it is alleged that Miss Lang has kept Mr. Moody informed about the business of the office and has frequently supplied him with advance information about land that was to be opened and other information, that should, as he alleges, have been kept secret. This condition of affairs Mr. Nolan is said to have alleged made his position a burden, in view of the fact that he had refused to become a party to the scheme, and he concluded to resign.—Telegram.

## RANGE IN BAD CONDITION

The range in this section of the county is in worse condition than for years past, says the Shaniko Republican, and sheep and cattlemen are certainly having a hard time of it trying to find grass sufficient to keep their stock alive until the snow falls when feeding time will begin. Heretofore the dry falls have been partly set off by an abundance of dry feed left over from the spring season but this year is different, as there is hardly a spire of grass on the outside range, and the hope for rain has almost vanished, for it is now so late in the season that rain would practically do more harm than good. We understand that T. H. McCreer and others, who range their sheep on the John Day river have already commenced feeding their sheep, as that portion of the country is shorter on grass than the Shaniko section.

## BIG SHIPMENTS OF CATTLE

Approximately \$8,000 worth of beef cows left the valley surrounding Prairie City this week, says the Miner. Joe Combs of John Day was busy about three days buying and gathering them. The \$8,000 represents about 400 head. The price received ranged from \$18 to \$21, which is an advance over last year. The valley is now just about cleaned up, everything having been sold. The cattle sales here this year have been heavier than for several years past. The price received is not of course what the growers think they are entitled to. There has been a heavy demand for two-year-old steers and one offer \$25.50 was refused as it seems to be the opinion of some of the growers that there will be a steady rise in the price of cattle and by next year the grower will begin to realize something near what the stock is worth.

Dick—"I wonder what the Noahs did with themselves all day long in the ark?"

Mabel—"Fished, I should think."

Bobbie—"They didn't fish for long."

Dick and Mabel—"why not?"

Bobbie—"Well, you see there were only two worms."

## MAYVILLE CRANCE MEETS

The visit of Mrs. Clara H. Waldo, State Grange Lecturer, to Mayville Grange was a red letter day in its history. The meeting was held Tuesday and was called to order by Overseer Morgan. The morning was spent in an informal heart to heart talk by Sister Waldo and the assembled patrons. The afternoon session was taken up by an able address by Mrs. Waldo who spoke on several topics of interest and was listened to by an audience who appreciated her efforts. After some remarks by those present the meeting was brought to a close.

Sac.

## MRS. DUNN ENTERTAINS

A card party at the home of Mr. and Mrs. Edward Dunn Wednesday evening, in honor of Mrs. Kavanaugh of Michigan, was the social event of the week. About twenty guests were present and progressive pedro was the evening's diversion. William Wehrli had the distinction of winning the first prize, which was a beautiful stein. Miss Smith was a close second however and was rewarded with a box of bon bons and Miss Fitzmaurice won the consolation prize. The guests were favored, during the evening, with several vocal and instrumental selections by the Misses Gibbons. After the scores were counted and prizes awarded Mrs. Dunn served dainty refreshments. At a late hour the guests reluctantly departed but not without voting Mr. and Mrs. Dunn royal entertainers.

## A CLOSE CALL

A fire burning out in the Bowerman building which is occupied by Dr. Mann, the Condon Milling Parlors and the office of the Kerr Gifford Company, was the occasion for the fire alarm during the heavy wind storm Wednesday evening. By the prompt action of the fire company a heavy stream of water was soon wetting down the roofs of the buildings on main street upon which the sparks were alighting and a destructive fire was averted. Condon has a good fire company and the boys deserve much credit for the promptness in answering the call of the fire bell.

## CAVEY-OATMAN

Dr. W. W. Gavey and Miss Oatman were married at the home of the bride's parents at Sacramento, California, on Saturday, November 3rd. About twenty-four of the immediate relatives and friends of the contracting parties were present to witness the ceremony. Dr. and Mrs. Gavey left the same evening on their wedding tour during which they visited Berkeley, San Francisco and other California points, arriving at Condon Monday evening. The bride is an estimable and attractive young woman. The groom located in Condon a few months ago and has already worked into a large practice. The doctor recently purchased the cozy Jarvis cottage in the north end of town where the newly wedded couple will be at home to their many friends.

## REFLECTIONS OF A BACHELOR

New York Press.

A girl has a peculiar habit of being very fond of a fellow when no others are around.

A woman thinks she would have a much better figure if she didn't have such dainty feet.

A woman has such a lively imagination that she thinks going to a charity fair that has patronesses is being in society.

It makes a nice girl awful indignant to smile at a man she doesn't know.

The only way to make your cigars taste better is to pay more for them.

What does a woman who paints her face do when she pretends she wants to blush?

The damages of a breach of promise case are never as heavy as if you had married her.

The reason misery loves company is so as to be able to tell about it.

Men value character, women reputation.

THE PLACE TO BUY ANYTHING  
Is where you can get the best value for the least money
