

The Hot Springs Star.

HOT SPINGS, DAKOTA, FRIDAY, MAY 13, 1887.

NO. 1.

THE WEEKLY ROUND-UP.

Mr. N. Henton called at the Star office on Wednesday.
The Cheyenne river was running bank-full for several days last week, stopping all travel.
A millinery establishment has been opened on Chicago avenue by Mrs. Kane, of Iowa.
Hon. A. S. Stewart has got his residence and out-buildings painted which adds greatly to their appearance.
At the American House from Hot Springs are H. A. Godard and J. C. Jackson.—Rapid City Republican.
Mr. James Orr has returned from his trip to Bear Lodge and reports the condition of the roads thus:—(d-n)
The trial of the case of Thomas vs. Lee, at Custer, resulted in binding Lee over. Cause, too many notes and mortgages.
Tom Moore and S. A. Drower, of Chadron, spread their signatures over a page of the Minnekahta House register this week.
Rev. Father Mahoney will deliver a lecture at the school House on Thursday, May 20th 1887, at 8 o'clock P. M. A general attendance is solicited.
Mr. O. Ferguson has opened up his bath house below town and everything is in good running order. Bathers can have the water at any temperature desired.
Crane Bros. have opened up a fine stock of groceries and provisions in the building formerly occupied by J. J. Robinson, on Chicago avenue. See new advertisement.
Wm. U. Germond can be seen regularly each morning with a load of congealed water, done up in nice and appropriate chunks to suit customers. It is certainly the finest article in the market.
Many improvements are in rapid progress in Hot Springs, and the outlook for the future is very pleasing. The influx of pleasure seekers is daily increasing, and soon the streets of Hot Springs will be thronged with travelers.
Count Anziar Turenne, of the Fleur de Lys ranch, registered at the Minnekahta Monday. The count intends to visit the place of his nativity, in the south of France, in the early autumn and it is intimated that he will be accompanied by the Countess Turenne on his return.
Col. A. V. Kaut and Maj. Thos. Wilhelm, of Fort Niobrara, are rusticated at the Springs with headquarters at the Minnekahta. Maj. Wilhelm has taken several fine photographic views of the picturesque scenery in the vicinity of Hot Springs.
The dance at the Minnekahta Hotel on Saturday evening was well attended and highly enjoyed by all who participated. The proprietor of this elegant hostelry spares no pains or expense to promote the comfort and enjoyment of his guests.
Now is the most appropriate time to visit Hot Springs. Nature is adorning herself with a mantle of green and fragrant flowers, and fall river is decked in her festal robes. Those who are tired of the mud, dust, and turmoil of city life can here repose in umbrageous shade, upon velvet moss, beside the gurgling, limpid stream.
From a reliable source we are informed that it is the intention of the B. & M. company to push their line into the Hills as fast as possible. What point is aimed at it is difficult to determine, but that it will strike the southeast portion of the Hills and traverse Fall River county we have no doubt. We feel inclined to the belief that the B. & M. will sooner or later run a line to Hot Springs. They cannot fail to see the advantages derived from a direct connection with the best water resort in the west, together with the finest ledges of jasper, marble and gypsum ever produced. The natural resources alone, would create a commercial interest of immense profit.
And still we wonder at the increase of crime while Hon. A. S. Stewart, the Don Quixote of the legislature, misrepresents us. No houses have gone down Whitewood since the flood of '83, and no snow is visible in Deadwood.—No near.
We are very sorry that a misrepresentation should go out in the columns of the Star to the injury of Deadwood, the article got its way into the columns of this paper through one of the compositors who gleaned the information, he says, from a party just from the Hills. Dr. Stewart is innocent of this charge, whatever may be his Quixotic proclivities in the legislature. One thing you should look to, and that is to investigate the accuracy of truth and veracity of parties who come from that locality, to the very fair fields of Fall River.

A long felt want at Hot Springs—a bank.
There seems to be a scarcity of rentable buildings in the town.
Mr. O. Ferguson has nearly completed another neat dwelling house which will be occupied as soon as finished.
The Petty Bro.'s have painted and varnished their concord coach which makes it a "thing of beauty" and a joy to the weary railroad-traveler.
Mr. Martin of Martin's Valley gave the Star office a pleasant call one day last week and is exuberant over the prospect of the crops this spring.
The Ladies Aid Society will meet with Mrs. P. O. Lancaster Wednesday, May 18th for work and 5 o'clock "T" All are cordially invited to attend.
Mrs. LAFLICHE, Secy.
In conversing with a gentleman employed on the E. H. & M. V. R. R., we were informed that up to the middle of last week they had to use the snow plows on the line east of Douglas.
Those desiring to insert advertisements or local notices, will please hand them in as early as Wednesday of each week, to insure publication, and don't you forget to hand them in either.
The Byronic features of our worthy townsman, Wm. Morgan is again presented at the delivery in the post-office. Mr. Morgan has been rusticated for the last few weeks upon the banks of historic Belle Fourche.
Mexico is having a terrible seismic epoch. Earthquakes and volcanic eruptions are shaking up the whole country. Hundreds of lives are lost and millions of dollars worth of property destroyed.
George C. Holand on last Saturday brought us in some samples of coal taken from a ten-inch vein discovered within six miles of this city. While we are not a judge of the article, it is said, by those who are, to be a good quality of bituminous coal.—Buffalo Gap News.
Other countries are taking steps to stop the expense of renting buildings for the county, let us follow the example and show our good sense. If you wish to stop the increase on taxation, vote for the bonds, or forever after hold your peace.
Mr. Walter Scott of Cascade gave the Star office a pleasant call on Tuesday and gave a very cheering account of the outlook in that section of the Co. He has in a crop of 35 acres which is indicative of an unusual yield. These reports are coming in from all quarters.
Mr. Martin Peterson of Horse-head, gave the Star office a pleasant call on Tuesday and informs us that he has 45 acres of grain sowed, which in condition and thrift cannot be excelled.—The grain on his farm stands six inches high on May 4th, what's the matter with that?
Mr. Frank Duellin of Council Bluffs, and engineer on the Northwestern R. R. has been visiting the Springs during the past week, investigating for himself the truth of the reports in reference to the virtues of the water and the congeniality of the climate, and he says that the half has not been told in regard to its beauty and attractiveness.
"Wild Curley", of Chadron, is at the Springs recuperating his system preparatory to his departure for Europe to join the "Wild West Show." From what information we are able to glean he is familiarly conversant with the pre-historic condition of the Black Hills and many other things of an anti-diluvian character.
To explain the reason of the delay of publication of the Star until Friday it is our purpose in future to make that our day of issue, in order to give the readers the latest news of the week and also that those who are in the habit of taking Sunday naps during the heated term can lay a copy over their faces to keep the flies off.
We are requested to announce that in absence of preaching on Sunday next there will be held a "Service of Song" at the school house at 4 o'clock P. M. to which all are invited. It is hoped that ere many weeks we shall be favored with a resident minister to officiate at least once in two weeks, and in the meantime we see no reason why public worship may not be kept up to the edification and interest of all who feel at all interested in such matters.

THE STAR WOULD LIKE TO SEE
A few residences for rent in this place.
Every resident of Fall River county subscribe for the Star.
A pleasant place for a permanent residence than Hot Springs.
Mineral water stronger in medicinal properties than that at this place.
Grand and more picturesque scenery than that in the vicinity of the Springs.
A more favorable region for general farming and the raising of stock than Fall River county.
All the vacant land in this county occupied by a thrifty, progressive, industrious class of farmers.
Any postoffice presided over by a more obliging and gentlemanly postmaster than Frank Callahan.
A better water-power and a more desirable location for a flouring mill than there is here in Hot Springs.
A place where a person can pass a pleasanter or more beneficial vacation than at the Hot Springs of Dakota.
Two or three substantial bridges across the Cheyenne river in this county. (The county dads should stick a pin here.)
Better building stone, a finer quality of marble and jasper and larger deposits of gypsum than are found in the vicinity of Hot Springs.
L. Kossuth Church kicked out of the gubernatorial chair and a soldier's home located at the Hot Springs. (These two items bear a very intimate relationship. For further particulars see Dr. Stewart.)

GOOD ACCOMMODATIONS, REASONABLE RATES

THE CITY HOTEL.

W. M. Martin, Proprietor

The House is newly and Neatly Furnished. YOUR PATRONAGE SOLICITED.
