CULLEOKA.

CULLEOKA, Oct. 20.—For several weeks our people have been wishing for rain—this morning a few drops fell and then quit. We expect it to-night though.

Rev. W. B. Patty left Tuesday for Nashville to attend the Annual Conference. Rev. W. H. Wilkes left earlier, Monday evening. Rev. Mr. Tidwell left Wednesday morning.

BLANTON'S CHAPEL.

BLANTON'S CHAPEL, Oct. 23.—All nature seems to have put on a wintry-like appearance, as we hear the chilly winds sweeping through the faded leaves that are falling thick and fast. The sparkling fire is quite an inviting prospect, as we quietly sit down by its warm and cheerful flames to pen a few happenings for the HERALD'S pages.
Last Monday morning our community was very much shocked to learn of the death of Mr. J. B. Holcomb, who was taken very suddenly ill last Sunday night about 12 o'clock and died at 4 o'clock Monday morning. Dr. Foster was called to see him and said he had heart failure. Although the messenger of death came, no doubt, unexpected to him, we have every reason to believe that he was ready to meet God, as he was a constant Bible reader for many years and a constant member of the Christian Church of Lanes for quite a long time.
Mr. Holcomb was a good neighbor and will be greatly missed, being highly esteemed by a large number of friends and relatives. Funeral services were conducted at Blanton's Chapel by Rev. Newt Derryberry to a large concourse of friends and relatives, where his remains were laid to rest in the cemetery.

Miss Lizzie McCormick, after a pleasant visit to relatives in Nashville, has returned home, much to the delight of her many friends.
Mr. J. H. Blate, the highly esteemed merchant of Kedron, has moved his family to Columbia, where he will make his future home. His many friends regret to see him go, as his place will be hard to fill.
Mr. Romeo Smith has been sick for several weeks with typhoid malarial fever, but we are pleased to know he is improving very fast.
We would like very much to attend the Democratic speaking at Columbia, the 27th. As we are a strong Democrat we hope it will prove a grand success. May the Star Spangled banner of Democracy shine with a brighter lustre than ever before, as its beautiful stripes wave majestically over Columbia's land.
Our farmers are quite busy gathering in their corn crops, and are much pleased to know that Providence has been so abundant upon them in giving them good crops.

MIRACULOUS HEALING.

Wonderful Cures Reported from Touching a Bone of St. Ann.

NEW HAVEN, Oct. 24.—No instance of alleged miraculous healing has aroused so much local excitement as that which, it is asserted, has taken place at the French Catholic church here in the last week.

About a fortnight ago there arrived at the church a holy relic—a bit of bone of the body of St. Ann.

It was exposed before the altar of the church a week ago, and Friday night Father Cartier, the priest in charge announced two wonderful cures.

One is that of Annie Higgins, a fourteen-year-old girl, who lives in Bradford, and who has been afflicted for a long time with hip disease so badly that she has been compelled to use crutches continually. She prayed before the altar and touched the relic and the disease left her, according to her own and the priest's statements. Her crutches were left at the church.

The other case is that of Mrs. Hannah J. Kent, of 429 Waller avenue, of this city. She has been subject to chronic rheumatism for years, and since the arrival of the relic has made daily visits to it. She stated Friday that every pain had disappeared.

"My brother's orders to his men were not to shoot at United States troops under any circumstances. I will say that the only resistance that the United States troops met with was in a brush one night with some Mexicans who were sent over by the Diaz government to shoot the troops and charge the crime on our party. I don't look for any more trouble on the Rio Grande unless the Mexican government sends over more such men to shoot and get the troops against us."

Grade Shultz and Peter Greisdorn came along by the well, and not thinking of the results, lighted a match and ignited the escaping gas, causing an explosion that shook the earth for some distance. The derrick and tools were destroyed by fire and the boys burned in a horrible manner. Greisdorn is swollen in a terrible way, and his head is swollen to twice its natural size. ATHENS, Oct. 24.—For several weeks past crowds of sight-seers have daily been attracted to the yard of the Hauling family, in this place, to witness the strange spectacle of rain from an apparently clear sky.

The phenomenon is confined to a small space—about two yards square—from over which minute particles of water have been falling for the past three weeks without cessation, the volume of the precipitation varying at different times.

Not only have the very large number of persons generally who have hourly witnessed the phenomenon been non-plussed as to its cause, but several of the professors of the university here who have investigated the singular occurrence with a scientific eye are equally at sea touching the solution of the mystery. The scene continues to be daily visited by crowds of local residents and strangers, many of whom suggest ingenious theories as to its cause.
