## POLITICAL.

Non-Partisan Dispatches from the United Press.

In a Very Few Days the Suspense Will Be Over.

By That Time We Will Know Which of the Great Parties Will Participate in a Great National Banquet at Which the Principal Dish on the Menu Will Be Crow Served in Every Conceivable Form.

NEW YORK, Nov. 7.—A special to The Herald from Washington, says that a soldier—a Democrat soldier, at that—will be at the head of the war department on election day. General Schofield will become acting secretary of war, when the present acting secretary, General Grant, leaves Washington to cast his vote in Minnesota.

The correspondent asked Acting Secretary of War Grant Friday if any consideration had yet been given to the employment of United States troops at the polls in case of conflict between federal and state authorities.

"No," said he, "it has not appeared necessary, as yet, to consider the question."

"Suppose Lieutenant Governor Sheehan, of New York, carries out his plan of opposing the federal marshals, will the federal authorities take any steps to uphold the marshals?"

"I do not think Mr. Sheehan will go that far. I credit him with being too wise to put into practice any 'force bill' opposition to the federal authorities."

"Is there any law which the war department could employ troops at the polls in case of emergency?"

"The law provides that the federal officers are to be sustained in executing their duties."

"This is as far as General Grant would go."

General Schofield, who will be acting secretary of war on election day, and who is probably the best posted authority on the use of troops at the polls that there is in the country, when asked to what extent the present law authorized the use of the militia at the polls, replied:

"I do not know what the law is, but if a question arose which called for an interpretation of the law, I will know what it is in five minutes."

### SOUTH CAROLINA.

Illegal Tickets—Remors of Combinations, Fusion, Kufing, Etc.

CHARLESTON, Nov. 7.—The discovery of the printing of illegal Democratic ballots by the state executive committee has caused much comment all through the state and charges of dickerling have been freely made by some against the state executive committee, which is suspected of leaning towards the People's party.

Chairman Irby explains the matter by saying that the discrepancy in the tickets printed was very slight and only confined to a few counties. The discovery was made, however, in time to put the county chairman on guard, and the mistake will probably be rectified in time to avoid serious complications.

The latest news in political circles is that a combination has been effected between the administration Democrats and the Republicans of the coast counties, whereby the former will stay away from the polls in the general election and the latter will carry the day. It was reported all over Charleston Saturday that the deal had been made and that the various bosses had received their instructions. The idea is to knife Meise, for congress from the Seventh, by making the "Tillmanites" stay away from the polls and let the election go by default.

In Beaufort the fusion ticket (composed of straightout Democrats and Republicans) is to be cut, leaving only the Republican candidates. Senator Verclier will be elected, but the other Democrats knifed. In the other counties where negroes predominate, things will be allowed to take their own course at this election, but in 1894 the Tillmanites and Republicans are to combine and put in Republican representatives in the legislature to insure Governor Tillman's elevation to the United States Senate.

This, together with the illegal ticket episode, would seem to indicate that the state administration Democrats are determined to knife Mr. Cleveland and allow the alleged 15,000 "peewees" in South Carolina to carry the day.

### DEPUTY MARSHALS.

They Will Be at the Polls in the Principal Cities of Indiana.

INDIANAPOLIS, Nov. 7.—About one hundred special deputy marshals have been sworn in by United States Marshal Dunlap for election day. In addition to these, two marshals will be appointed for each of the 139 voting precincts in Indianapolis. Two marshals have also been appointed for each of the eighty-six precincts of Fort Wayne, the thirty-six precincts of Terre Haute and the thirty-two of New Albany. South Bend and Evansville have not indicated thus far that they desire the appointment of marshals. None of the other cities of the state, under the 20,000 population provision, can demand marshals.

### Betting in New York.

NEW YORK, Nov. 7.—There seemed to be a lull in the betting on the result of the election Friday night. Either the plungers became surfeited or the opposite waves of confidence met and expended their force upon each other.

Although an interdict was placed on any further betting at the Hoffman House, the only wagers of importance made Friday night were recorded there. John Mahoney placed two bets of \$5,000 each on Cleveland on even terms, a Mr. Low taking one bet, and a gentleman from Philadelphia taking the other. Mahoney is the Democratic Achilles, and has waged more money on Cleveland than any other person, although it is under-

stood that he simply represented a syndicate.

The bets on general result remained even, but few bets being made.

M. F. Dwyer made one bet Friday night with Sol Lichensty of \$4,000 against \$1,800 that Cleveland would carry New York. "Circular Joe" Veuding placed the money for Mr. Dwyer.

### Ten Thousand Deputies.

The Democrats are making preparations to prevent these marshals from interfering with the voters at the polls. Sheriff Gorman received 10,000 ballots Saturday morning for special deputy marshals, all of which he proposes to use on election day. Men will be sworn in as fast as they apply. They will be placed at every polling place to be ready for any trouble that may break out.

### Registration in Maryland.

BALTIMORE, Nov. 7.—Judge Morris, of the United States court, recently decided that a medical student from another state has not a right to register and vote in that city. The decision affects the right to vote of seventy-nine students in St. Mary's seminary, and opinions were obtained from Attorney General P. Poe and Bernard Carter, both of whom say that upon the facts as stated the seminarians from other states are legally entitled to register and vote. The same view was also held in the decision of a contested case in the house of representatives of the Fifty-first congress.

### Milwaukee.

MILWAUKEE, Nov. 7.—E. C. Wall, chairman of the Democratic state central committee, when asked by a United Press reporter Saturday morning his opinion as to the result in Wisconsin Tuesday, replied: "It is my judgment that the state of Wisconsin will go Democratic this fall by at least 15,000, that there will not be any great differences between the votes of Mr. Cleveland and Governor Peck. The legislature will be Democratic in both branches, the senate by a large majority and the assembly by a good working majority. This prediction is not mere guess work, but is the result of careful examination and computation."

### "The Era of Good Feeling."

NEW YORK, Nov. 7.—The presidential campaign of 1892 practically ended Saturday. The managers sent out their final instructions, the subordinates at the various headquarters started for home to vote, and if any work is done at the political headquarters within the next few days it will be done behind closed doors, and the public is not likely to hear of it. Political observers say that as far as personalities are concerned this has been the cleanest campaign since the days of Monroe and "The Era of Good Feeling."

### Minnesota.

MINNEAPOLIS, Nov. 7.—The registration for St. Paul and Minneapolis, which taken together cast one-fourth of the vote of the state, foots up 70,404. Of these, 43,044 are registered in Minneapolis, and 27,400 in St. Paul. The Republicans claim that their poll shows that the Democrats will carry St. Paul by 500, and the Republicans Minneapolis by 8,000. Upon this basis the Republican state central committee claims that the state will give Harrison a plurality of 22,000 on five electors, and Nelson a plurality for governor of 18,000.

### Marshals in Arkansas.

LITTLE ROCK, Nov. 7.—United States marshals will be appointed in Arkansas. Judge N. M. Rose, Arkansas member of the Democratic national committee, J. W. House, chairman of the Democratic state committee, and John M. Moore, ex-chairman of the state committee, have issued an address fully explaining the federal statutes and declaring that deputy marshals can be lawfully appointed only in cities of 20,000 inhabitants or upward, which would confine them to Little Rock.

### Georgia Registration Laws.

ATLANTA, Nov. 7.—Judge Speers, of the United States district court, acting for Judge Don Pardee, at Macon, Ga., rendered a decision declaring all registration laws in Georgia inoperative. He asserts that the law, in order to be constitutional, must be uniform. As at present laws are all local, they are, therefore, unconstitutional. The effect of this decision is to make every man in the state eligible upon taking oath that he has paid his taxes.

### South Dakota Democrats.

SIOUX CITY, Ia., Nov. 7.—The Democrats of South Dakota, having failed to fuse with the People's party, withdrew their ticket from the field Friday. The Democratic state central committee mailed circulars to all known Democratic voters in the state urging them to vote for the Populist electors and prevent the electoral vote of the state going to Harrison.

### Will Have Marshals, Too.

DETROIT, Nov. 7.—The supreme court of Michigan denied the mandamus asked for by D. J. Campan, chairman of the Democratic state committee, to compel the Detroit common council to rescind its appointment of election inspectors in that city. The court holds that the council had full power.

### Will Close on Election Day.

POTTSVILLE, Pa., Nov. 7.—The collieries and shops of the Philadelphia and Reading Coal and Iron company will close on Tuesday to allow the workmen "sufficient time to vote intelligently."

### Received a Light Sentence.

GENOA, Nov. 7.—Baravalle, the waiter, who so brutally murdered Frank Reilly, one of the crew of the United States steamer Newark while the war ship was in this port taking part in the Columbus fetes, was Friday found guilty of manslaughter and sentenced to twelve years and six months imprisonment. He was also condemned to pay an indemnity of costs. The sentence is regarded as a peculiarly light one in view of the offence.

## SMALLPOX.

Situation at Seattle, Wash., Really Alarming.

The Facts in the Case Have Been Suppressed.

And Unsuspecting People are Liable to Contract and Spread the Terrible Disease—Sixteen Cases Within the City Limits and Prospects of More Being Reported at Any Time.

SEATTLE, Wash., Nov. 7.—Seattle has sixteen cases of smallpox in the city limits, with prospects that more will be reported. The facts have not been given to the public and the result is that the unsuspecting people are liable to contract and spread the terrible disease. One lodging house on the principal business thoroughfare, with thirty inmates, has been quarantined.

An extra number of physicians were hired Friday by the health board, which is empowered by the mayor to spend all required sums to overcome the disease.

The People's party started a report Friday that the quarantine had been put on by Republicans to prevent them from voting, but this is not true. The health board will at once erect a suspect house. The situation is really alarming.

### Case of Smallpox in New York.

NEW YORK, Nov. 7.—Lawrence Walsh, thirty-five years old, was removed from 808 Ninth avenue Saturday morning suffering from smallpox.

### ABOUT A WOMAN.

Shoots His Victim, Defies Arrest and is Then Shot Himself.

CYNTHIANA, Ky., Nov. 7.—Jerry Dicks shot Bill Newell on Main street with an old musket loaded with shot, shattering Newell's right arm so badly that it was amputated above the elbow. Dicks, after the shooting, used his gun as a club, and defied the marshal to arrest him. The marshal, not wishing to kill Dicks, stepped back and Dicks ran. When the marshal called him to halt Dicks continued running, when the marshal shot him twice, in the leg and thigh, both flesh wounds. Dicks was finally knocked down by being hit with rocks and then overpowered and lodged in jail. The cause of the shooting is said to be about a woman. Both parties are colored.

### Course of a Needle.

OXFORD, O., Nov. 7.—Nine years ago last August Mrs. Aaron Doty, who is engaged in the millinery business here, ran a large sewing needle in the palm of her hand. She neglected going to a doctor at once, but suffered terribly. When she did go, about two weeks later, it could not be found. It went through the muscles of her arm to her shoulder, then back to her elbow during the nine years. At times her arm would become useless, and the pain almost unbearable. She consulted several doctors in Cincinnati, but to no purpose, as they could not find it. About two weeks ago a small lump raised on her arm between the shoulder and elbow, and Friday morning, with the aid of a pair of scissors she dug out the needle.

### Homesteaders Asked to Raise \$500,000.

HOMESTEAD, Pa., Nov. 7.—There is considerable discussion going on here over the proposed co-operative steel plant. Mr. Sands, of London, England, who came here to confer with the advisory board regarding the scheme, stated that he had an option on a tract of 90,000 acres of land located in Erie and Allegheny counties, Virginia. This tract was rich in coal and iron, and was undeveloped. According to Mr. Sands' proposition, the Homestead men are to raise \$500,000, and the syndicate agrees to invest \$4,000,000 in the co-operative plant. How much each share will cost, and what kind of a plant will be built, is to be settled at a future conference.

### A Floating Island.

NEW ORLEANS, Nov. 7.—The hydrostatic officers have called attention to the peculiar fact that a mass of forest growth resembling a large island, and supposed to have drifted from some portion of the American continent, had been sighted Sept. 25, between the twentieth and thirtieth meridian. The island travels at an estimate of over a mile an hour, going in a northeasterly direction. It is suspected that unless the plot is broken up by a storm it will drift to the routes taken by steamships, and will eventually bring up on the American coast.

### Novel Election Bet.

WHEELING, Nov. 7.—The well known machinists at the Riverside mill made a peculiar bet on the election. They signed a written contract to the effect that the man who loses the bet should carry the lucky one on his back from the dividing line of Marshall and Ohio counties to the Belleaire bridge and return. The distance in question is something like one and one-half miles. But this is not the difficult part of the wager. The beaten man is not to stop on the journey, and each time he does stop to rest he forfeits \$25.

Dorantes and Lieutenant Garcia were shot through the head and instantly killed. The troops were attacked first, but soon gave battle. After several soldiers were wounded, the Indians escaped into the mountains. The bodies of the dead were taken to Chihuahua. News of the battle was at once sent to the City of Mexico and 500 additional troops are now in pursuit of the murderers. The battle was on Tuesday and was about 100 miles southwest of here.

### THE POPE CRITICALLY ILL.

Efforts Being Made to Conceal His True Condition.

LONDON, Nov. 7.—A dispatch from Rome to The Pall Mall Gazette says that the pope is very ill. The clerical papers, The Gazette's correspondent adds, make every effort to conceal the fact of his illness. A few days since his holiness was found motionless in his room and his condition caused a panic in the Vatican. Physicians were hastily summoned, and they succeeded in restoring him to consciousness. His holiness is very feeble. He has been forbidden to do any work.

### DEATH OF AN OLD VETERAN.

He Took a Part in Some of the Great Battles of the War.

PHILADELPHIA, Nov. 7.—General Sam Wylie Crawford died at the Colonade hotel Friday of apoplexy, which had largely been superinduced by an old wound received during the civil war. General Crawford was a native of this city, was fifty-seven years of age and unmarried.

At the outbreak of the war he was at Fort Sumter, where he was serving as a surgeon in the regular army. For gallant conduct President Lincoln appointed him major of a Pennsylvania regiment, from which rank he was soon promoted to that of major general of volunteers. At Gettysburg he commanded the Pennsylvania reserves and won much credit for himself and soldiers. After the war, in order to preserve the historic features of that great scene of carnage, General Crawford purchased the ground occupied by his command.

### Stabbed to Death.
