

Our County Correspondents.

BEN.

BEN, Aug. 29.—The revival meeting began at Concord Sunday, August 28, at 11 a. m., conducted by Rev. T. E. Hudson, the regular pastor. We trust that much good may be accomplished by his preaching.

PANDORA.

BEN, Aug. 30.—There is a series of meetings in progress at Concord this week, conducted by Rev. T. E. Hudson. Miss Hattie Hill will leave in a few days for Mt. Pleasant, where she will enter Bostick and Dinning's school.

GODWIN.

GODWIN, Aug. 30.—Quite a number of your city folks paid a visit to T. G. Hughes' cave near here. Among them were Miss Lillian Allen and Mr. C. P. Snell, and Mr. Walter Adkisson.

WEST POINT.

WEST POINT, Aug. 30.—After viewing "city sights with country eyes" for a little more than a week, "Zula" is back at the old home again.

STIVERSVILLE.

STIVERSVILLE, Aug. 30.—Miss Willie Barnett has returned to her home after two weeks' visit to her sister, Mr. Mary Dugger, in Colleoka.

SOUTHPORT.

SOUTHPORT, Aug. 27.—The dry weather still continues and every thing is becoming very much in this part of the county.

CUBAN RELIEF.

Planters C. H. Neberg and Toothache in five minutes. Sour Stomach and Summer Complaints. Price, 25 Cents. Sold by A. B. RAINS, Columbia, Tenn.

GO WHERE YOUR SHOE MONEY GETS THE GREATEST SHOE VALUE.

This is a good rule to follow, and any reasonable man or woman knows that a regular

SHOE STORE

We are confident that we have the best Man's shoes in Columbia, in tan or box calf, on any last.

We are selling a Man's Tan Willow calf Shoe, lined throughout with calf for \$3.00 sold in most stores for \$4.00.

Two-thirds of a man's life is spent in his shoes; surely they ought to be carefully made, so he can have comfort. Come to us and we will take pleasure in fitting your foot. We carry in stock everything from a C last to a 9 wide. Our English last is especially comfortable and easy wearing; it is the most stylish last for fall; be sure to see our stock before you buy your fall shoes.

T. N. FIGUERS.

CAMP BRANCH.

CAMP BRANCH, Aug. 30.—Mrs. Bettie Potts had the misfortune of getting her arm broken on Aug. 22 by a horse falling over her while she was returning from Dry Fork Church.

WEST POINT.

WEST POINT, Aug. 30.—After viewing "city sights with country eyes" for a little more than a week, "Zula" is back at the old home again.

Planters C. H. Neberg and Toothache in five minutes. Sour Stomach and Summer Complaints. Price, 25 Cents. Sold by A. B. RAINS, Columbia, Tenn.

MOORE'S INSTITUTE.

CULLEOKA, TENN., Aug. 29.—Moore's Institute opened Monday August 22nd. The number of pupils enrolled at present is seventy-one. The community is to be congratulated upon having such a building and grounds in which to conduct the public school, and as a feeble testimony of their gratitude it has been named for Mr. Frank J. Moore, through whose big-hearted generosity every poor child in this district is put on equal footing with those of means, and prepared by an education for usefulness in life.

Another vote of thanks is due Mr. Joe Ballantyne, without whose untiring efforts Moore's Institute would never have been a reality. This is the first time in the history of our village that we have ever had a hall which the public could command at any time.

Garwood's Sarsaparilla—for the blood guaranteed to cure A. B. RAINS.

Don't Neglect Your Liver. Liver troubles quickly result in serious complications, and the man who neglects his liver has little regard for health. A bottle of Garwood's Iron Bitters taken now and then will keep the liver in perfect order.

HOSPITAL MANAGEMENT.

Chicago Daily News: Secretary Alger, as the head of the department of war, will justly be held responsible by the people, unless impartial investigation places the blame elsewhere.

New York Evening Post: The scandal in the treatment of the wounded and feeble soldiers at Montauk Point grew worse day by day, and the righteous indignation of the public becomes constantly more intense.

Springfield Republican: The government stands condemned, which, notwithstanding it has \$20,000,000 cash balance in the treasury, its sick soldiers are kept alive mainly through the energy and assistance of private associations like the Red Cross and the initiative of individual citizens.

New York Herald: If only one-half the authentic statement made are made were true there would be imperative reason for prompt investigation and the condign punishment of those responsible for this shameful and cruel treatment of men who imperiled their lives in their country's service.

Boston Advertiser: Cases have been reported in abundance where soldiers have been starving or dying for want of proper supplies which lay but a few miles away. The secretary admits that there may have been some "carelessness and negligence," and in that a mission he touched upon the chief cause for complaint against his department.

Philadelphia Public Ledger: The war department will order a report to be made on the conduct of the war in advance of the meeting of congress, so that the facts history may be set forth. That is a good scheme as far as it goes, but the war department itself is also charged with incompetency, duplicity and worse offenses, the real investigation will have to be made by congress. In the meantime there will be no objection to the collection of data by the war department.

Philadelphia Inquirer: When the sufferers from fevers are forced to lie upon the floor because of a lack of coats; when there is salt pork for the afflicted; when there is insufficient shelter; when the hardships of the battlefield are imposed upon men in a hospital camp almost within shooting distance of New York city, then something is radically wrong.

Little Pimples Turn to Cancer. Cancer often results from an impurity in the blood, inherited from generations back. Few people are entirely free from some taint in the blood, and it is impossible to tell when it will break out in the form of dreaded cancer. What has appeared to be a mere pimple or scratch has developed into the most malignant cancer.

"I had a severe cancer which was at first only a few blotches, that I thought would soon pass away. I was treated by several able physicians, but in spite of their efforts the cancer spread until my condition became alarming. After many months of treatment and growing steadily worse, I decided to try S. S. S., which was so strongly recommended. The first bottle produced an improvement, I continued the medicine, and in four months the last little seed dropped off. Ten years have elapsed, and not a sign of the disease has returned." R. F. WILSON, Miss. S. S. S. Co., Atlanta, Ga.

It is dangerous to experiment with cancer. The disease is beyond the skill of physicians. S. S. S. is the only cure, because it is the only remedy which goes deep enough to reach cancer.

S. S. S. For the Blood. (Swift's Specific) is the only blood remedy guaranteed Purely Vegetable. All others contain potash and mercury, the most dangerous of minerals. Books on Cancer and blood diseases mailed free by Swift Specific Company, Atlanta, Georgia.

Wheeler For President. He is not the kind of man who can be ignored. They are talking now about putting him in the senate, and, possibly, I should not object if they were to nominate him for the presidency some day. There is probably not another country on earth where a man would be sought against the ruling powers of his nation and inflicted as much damage as Wheeler did in the civil war, could six years afterward, stand a fair chance of being himself a ruling power. But then, there are not many places where such men as Wheeler can be found.—Washington Capital.

According to Science. There is a man in our town (this name my memory slips) who kissed ten thousand microbes off his sweetheart's ruby lips. And when he found what he had done, with all his might and main, he rushed up there another night and kissed them on again.—Up-to-Date.

FEED CUTTERS.

"Jo Dick's" Feed Cutters have long since been accepted by all mule feeders, as the best, strongest and most durable Cutter made, and they are now seeking the indorsement of cattle feeders through the

"BLIZZARD."

which fills a silo easier and cheaper than was ever done before. We have these in stock and will be pleased to have you inspect them.

Here is the old reliable "Superior,"

which has proven itself worthy the name

"SUPERIOR."

A grain drill with an inefficient FEED is worse than the old "by hand" way. The SUPERIOR has the only feed that will plant the diversity of crops planted to-day with grain drills; noticeably, peas and oats. In addition to this, it is a stronger, and better made, consequently more durable machine.

The Rotary Dutchman and Hancock Disc Plows

are always found in the front furrow on all lands.

We are to-day offering better buggies for the money than were ever sold before in this market.
