Public Health Department

BY DR. J. C. MAHR, STATE COMMISSIONER OF HEALTH

During the past ten days many inquiries have been made as to the number of cases of typhoid fever existing in certain towns in the State of Oklahoma, showing a decided uneasiness on the part of the public and a general belief that it is more prevalent in Oklahoma than heretofore. Readers will probably be interested in knowing that in the month of July, 1911, there was five hundred and twenty-five cases of typhoid fever reported and eighty-three deaths. In the month of July, 1912, three hundred and eight cases and forty-four deaths, and in the month of July, 1913, there was three hundred and sixty-three cases and forty-one deaths. This proves that typhoid fever has not prevailed to such an extent this year as in previous years.

Typhoid fever is a preventable disease and is due primarily to filth. This disease can only be contracted when you have taken into the mouth the germs that have passed from some typhoid fever patient's bowels. The germs can be carried by flies, filth and dirty fingers, as well as contaminated water and milk.

I am of the opinion that of the number of cases of typhoid reported that only about fifty percent is really typhoid fever. This opinion is formed from the laboratory reports made from blood specimens that have been sent to the laboratory for examination, where only about forty percent are found positive. This year the State is furnishing anti-typhoid fever vaccine free of cost to those who are unable to pay for the same. If everyone

in Oklahoma was vaccinated against typhoid fever the disease would soon be stamped out.

J. F. H., Superintendent of Schools in Oklahoma, writes under date of August 15th, requesting that he be put on the mailing list for the Board of Health Bulletin. We regret that we were required to discontinue the monthly publication, but the Legislature neglected to make a sufficient appropriation to continue this publication and we have to impose on the newspapers of the State to carry our Public Health Educational Campaign.

Mrs. Jos. H., Osage County, writes:

"Do you advise the use of madstone in case hydrophobia?"

Answer: Alleged madstones are hoax pure and simple. They have no more effect in treatment of hydrophobia than an ordinary grindstone. We recommend the Pasteur treatment. Notify your County Health Officer and call your family physician. If you have been attacked by a suspected rabid animal, secure its head, pack it in ice and express it to the Public Health Laboratory at the State University at Norman, Oklahoma.

S. T. K., Majors County, asks: "Is there any relief to be had from the unsanitary open closet? What steps can a town take to abate such nuisance?"

Answer: Your town council is the local board of health. Have it declare all such public nuisance and order their abatement; pass an ordinance requiring everyone to install a sanitary toilet—one that is fly proof and that will prevent soil pollution.

of the plaintiff on said property was foreclosed and said property charged with the payment of said judgment and cost and ordered sold for the payment thereof.

COMING TO DURANT

DR. SELWAY, NOTED SPECIALIST, WILL BE AT THE ATWOOD HOTEL ONE DAY ONLY, THURSDAY, SEPTEMBER 4TH.

Remarkable Success of this Talented Specialist in the Treatment of Chronic and Rectal Diseases

Offers His Services FREE of Charge

Dr. Selway, licensed by the state for the treatment of all nervous and chronic diseases of men and women, offers to all who call on this trip, consultation, examination and advice free; making no charge whatever except the cost of medicine to you. All that is asked in return for these valuable services, is that every person treated will state the result obtained to their friends and thus prove to the sick and afflicted in every city and locality that at last treatments have been discovered that are reasonably sure and certain in their effect.

This doctor is considered by many former patients among America's leading stomach and nerve specialists and is an expert in the treatment of chronic diseases, and so great and wonderful have been the results that in many cases it is hard indeed to find the dividing line between skill and miracle.

Diseases of the stomach, intestines, tape worm, liver, blood, skin, nerves, heart, spleen, kidneys, or bladder, rheumatism, sciatica, diabetes, bed-wetting, leg ulcers, weak lungs and those afflicted with long-standing deep seated chronic diseases, weak eyes, ears, nose, throat and catarrh, that have baffled the skill of the family physicians should not fail to call. Cross eyes made straight. No pain, no knife.

If you are troubled with piles you should be sure to call; no knife nor chloroform used. Do not wait for the dangers of this disease, act now. Dr. Selway has cured cases where doctors and even operations have utterly failed. A cure in the most severe case is practically certain.

According to his system no more operation for appendicitis, gall stones, tumors, goitre or certain forms of cancer. He was among the first in America to earn the name of "Bloodless Surgeon" by doing away with the knife, with blood, and all pain in the successful treatment of these dangerous diseases.

If you have kidney or bladder troubles bring a two ounce bottle of your urine for chemical analysis and microscopic examination. Deafness often has been cured in sixty days. No matter what your ailment may be, no matter what others may have told you, no matter what experience you may have had with other specialists, it will be to your advantage to see him at once. Have it forever settled in your mind. If your case is incurable he will give you such advice as may relieve and stay the disease.

Do not put off this duty you owe yourself or friends or relatives who are suffering because of your sickness, as a visit to this free offer is for one day only.

Remember, this free offer is for one day only. Married ladies must come with their husbands and minors with their parents.

He advertises in his own name and address and not some fake institute that does not exist and who claim to have a laboratory in another state and who are represented by hired doctors who are not specialists, and who copy his advertising. He is in no way connected with them.
