New Dri-Kure Process The Only Success

Because we use the same process for building tires, that the manufacturers use in manufacturing tires, does not add excess weight. Doubles mileage.

Give this process a trial. Mohawk Quality Tires pay dividends.

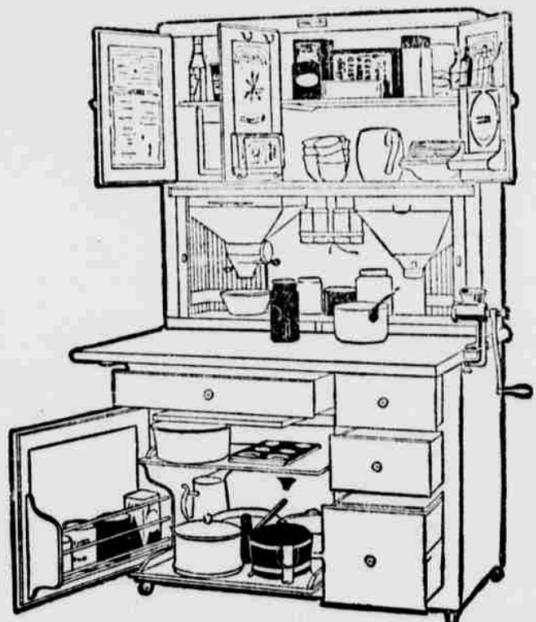

Mohawk Quality Tires are designed and built, not for good roads and fair weather, but eighty five per cent of Mohawk buyers became permanent Mohawk users. A "fair weather" good road tire could never show such a record. We are exclusive agents.

Don't forget that we do all kinds of tire repairing, such as section work, blow-outs, tube splicing and repairing Full line repair accessories in stock.

If better tires were made we would sell them—
