

Republicans to Vote "Regular"

Offers of Position Said to Have Been Made in Effort to Break Ranks

Nashville, Tenn.—That the regular democrats have despaired of controlling the legislature through their own strength is indicated by reported efforts of the regulars to break into the republican phalanx by seductive offers of position and personal preferment.

If the reported offers are correct, it is the intention of the regulars to secure enough republican votes to control, it added to their own strength, by disrupting the republicans ranks. It is extremely doubtful, however, considering the number of votes that would be required to bring this about and the temper of the constituents of the legislature affected whether the plan can be carried.

Among the propositions reported to have been made to republicans are the speakership of the house for one of their number, with intimations that even the United States senatorship might go to a republican of the anti-administration persuasion.

However, from the attitude of the republican legislators, it seems that they are determined to stand firm in the ranks and not lose their present strong position for the sake of the possibility of securing the offices which have been proposed to them.

News-Scimitar at Public Auction

Owner Says Roosevelt's Defeat the Greatest Calamity of the Age

Memphis, Tenn., Nov. 10.—Following his statement to friends that the "greatest calamity" of the age happened when the American people failed to elect Theodore Roosevelt President of the United States, Gilbert D. Rain, editor, publisher and practically sole owner of the Memphis News-Scimitar, makes announcement that the paper will be sold "within two months at public auction."

A downtown street corner is named as the place where the bids will be heard, Editor Rain announcing that the highest bidder will be awarded the entire holdings of the News-Scimitar, which includes an Associated Press franchise.

The News Scimitar has always supported the democratic party until the recent campaign, when it made a strong fight for the bull moose faction.

Report has already reached here that William Randolph Hearst will try to purchase the News-Scimitar when bidding time arrives.

Hearken! Hungry Husbands!

In the November Womans Home Companion appear a number of recipes of good things to eat which wives say are their husbands' favorite dishes. One follows:

"How dear to the palates of men are choice viands,

As fond wives or daughters present them to view;

But best of them all are the golden baked sweetbreads,

And here's the receipt—I will give it to you,

For just fifteen minutes you soak them in water,

Then drain, and put on, in salt water, with haste,

And boil one half hour, till you find they are tender,

Then take off and skin, saying liquor to taste;

Have cracker-crumbs ready, and put just a pinch in

Of thyme, summer savory, sweet marjoram and sage,

Of pepper a little too, then you are ready

To dip your good sweetbreads in a well beaten egg;

Next, cover with crackers and put in a baker—

A piece of good butter on top, just for fun—

Baste often with liquor, and in twenty minutes

You open the door, and behold, they are done!

Those big golden sweetbreads, Those luscious good sweetbreads—

Those savory sweetbreads—you never do shun!"

We are increasing daily our line of groceries, all fresh and clean and will not fail to please; GARRETT & BOYETT

Bill for Drink is Immense.

The United States drink bill is \$2,256,324,447 yearly. This sum would give a \$2,000 home to each of 1,128,162 families with a few dollars left. Or it would pay \$40,000 to the family of every white man who died in our country last year. Or it would run the government a year and give a \$10 gold piece to every man, woman and child in the land. Or it would build 50,000 \$1,000 churches, put a \$2,000 pastor in each, build 10,000 \$50,000 schools, put 10 \$2,000 teachers in each; build 100 colleges at \$100,000 each, endow each with \$1,000,000; send 200,000 missionaries at \$1,000 each build 2,000 Y. M. C. A.'s at \$100,000 each, pay secretary for each \$1500; and there would still be left \$90,324,447, or a dollar apiece for every man, woman and child in the United States.

Eighteen Tests of Progress for Our County

1 Is every country boy and girl in our county getting a six-months school term?

2 Have we a county superintendent of education giving his whole time to the work?

3 Have we voted road bonds or a road tax?

4 Have we a county superintendent of health employed for all his time?

5 Does a farmers' organization thoroughly cover our county?

6 Do we select for our county officials the men who will help the county forward fastest instead of the men who serve the party machine best?

7 Are our churches gaining in strength and influence and the people in temperance and morality?

8 Have we properly supported farmer's institutes, and are there institutes for farm women as well as men?

9 Have we Corn Clubs for the boys and Tomato Clubs for the girls?

10 Have we shown sufficient interest in the Farmers' Cooperative Demonstration Work to get its advantages for our farmers?

11 Have we rural free delivery everywhere we might have it?

12 Has every school in our county a good library?

13 Can our boys and girls get the advantages of a good high school near them, without leaving their home communities?

14 Are we cooperating with the state in the fight to exterminate hookworm disease?

15 Is our telephone system covering the county as it should?

16 Are we supporting a wide-awake county paper—one that is more interested in the progress of the county than in partisan politics—and are our farmers taking the best farm papers?

17 Have we abandoned the old fee system of paying county officials? If not, why not?

18 Are our citizens and our band of public officials willing to go down into their jeans and produce the necessary money, economically administered, to secure these profitable forms of progress?

As you grow old you should use Dr. Miles' Laxative Tablets.
