Constipation, if Neglected, Causes Serious Illness

Constipation, if neglected, leads to almost innumerable complications affecting the general health. Many cases of typhoid fever, appendicitis and other severe diseases are traceable to prolonged clogging of the bowels. Regard the effects of constipation, C. E. Ayers, 6 Sabin St., Montpelier, Vt., says: "I was afflicted with constipation and biliousness for years, and at times became so bad I would become unconscious. I have been found in that condition many times. Physicians did not seem to be able to do me any good. I would become weak and for days at a time could do no work. Not long ago I got a box of Dr. Miles' Laxative Tablets, and after using them found I had never anything that acted in such a mild and effective manner. I believe I have at last found the remedy that suits my case."
