To CORRESPONDENTS.—We publish on our first page, this week, a very nice little piece of poetry by "Fred" on the condition that the true name be given next time, although it is positively against our rules to publish anything without the name of the contributor.

"R. S."—Your article is rather long for us to publish, unless it were more interesting. Time is lost in reading it.

"AN OBSERVER."—Let our Agricultural columns have another communication from you soon.

We are very happy to see that the number of our correspondents is increasing, and some of them are good writers, to whom we say do not longer keep your light under a bushel.

EDITORS ARE GRATEFUL FELOWS.—We know this from experience. The other morning while feeling a disposition to complain at the world's rather an uncomfortable place to be in with the thermometer at zero, an out door cold and cheerless, our feelings underwent a sudden reaction on being presented with a large box of nicely cooked hominy from our fair friend Miss Marr. We at once thought this world as pleasant as any. We thought of every body, especially our friends, and assure her that we never forget those who think of us.

There are many intelligent farmers in our county who could impart much valuable information to the readers of the Journal if they would. We know of several in the neighborhood of Salem who would add interest to our columns by occasional contributions to the agricultural page of our paper.

John Vaughan has a lot of nice stoves on hand, suitable for coal and wood, and he will sell them cheap.

Slackers.—We have seen several enjoying themselves in the cold weather by "bobbing around" in their sleighs. Nice fun, but, though the fall of snow is rather light in this region.

He's Almanac for 1857 can be found at the store of Wm. Stewart. Go and buy one. Price 10 cents per copy.

Wonder if any of our Franklin County people will avail themselves of the present opportunity for putting up this very necessary article? Those who have no ice-houses will find plan for building them published in the first number of the Journal. Last summer a great amount of ice was exported by our citizens. Let us this coming summer avoid the consequent waste of importation by storing ice at home.

Godey's Lady's Book for February has come to hand. This is the best number that we have ever seen, decidedly better than his last, which was said to be his best. Godey never fails in improving his appearance.

Last Sunday night, 18th, was the coldest time that we have known many years, the thermometer indicating the temperature at 13° below 0.

We have just received Gram's Magazine for February, and it is quite a desirable number.

The three magazines, Harper, Graham, and Godey's are excellent and interesting as repeats, and the immediately after him. Now, at times through the week, we hope to describe to our Home Journal, the glorious sense of our mag's this exercise. It lies and in the measure of whose increased by this means a number of inches during as many of the make a girl love you, coax somebody else. If there be a road, but women relishes, it is a miles to

EXCELSIOR CORN & COB MILL, NEW ORLEANS ST.
 THE FARMING COMMUNITY, having become generally convinced of the great advantage of grinding Corn and Cob for Stock, the only question to be considered is which is the best Mill for the purpose? In all the best iron Mills heretofore offered, a very serious objection has existed, a want of durability, or liability soon to wear out. In the "Excelsior" that objection is removed: The grinding surface, which is the only part liable to wear out, consists of rings and castings separate from the mill, and when worn out can be removed and replaced at a cost of three dollars. This mill is strong, simple in construction, easily put up, and can be moved from place to place without difficulty, and will crush 15 bushels per hour of corn and cob for stock, and grind meal for family use. The "Excelsior" was awarded the highest premium at the great trial of Agricultural Implements in Nashville on the 4th, 5th and 6th of June, 1856, and in a contest with the Improved "Little Giant" in Nashville, August 30th, 1856, the "Excelsior" was awarded a silver cup. This Mill is furnished all complete with two pairs of grinding rings which makes it equal to two mills, at the low price of fifty dollars. This Mill stands upon legs, is put up in a short time by any ordinary farm hand, and unlike all other Corn Crushers discharges the meal from one point directly into a half bushel. Persons wanting the above Mill, or wishing to purchase County Rights will please address the undersigned, and obtain a circular with full information.

To those persons whose beards are light and wiry it recommends itself. A few applications will render it soft, thick and pliable. Frenchmen are noted for their beautiful whiskers and mustaches, which many of them attribute to the excellence of La Salle's Whiskerando.
