Reading Matter on Every Page.

DIFFERENT VARIETIES OF MONEY.—Most of us have seen bills of Confederate money and United States green-backs, the latter of which just now are in special demand.

ODD-FELLOWS' HALL.—We were present at the performance of the Campbell Minstrels on last Saturday night, and acknowledge that we were agreeably surprised at the mastery execution of several pieces.

KEEPING OPEN ON SUNDAY.—It is well known that under Confederate rule the Sabbath is not particularly regarded, at least experience will testify the same; but our business men should now realize the solid fact of the existence in our city of wholesome Federal authority, and yield obedience to the requirements of law.

NEW MEMPHIS THEATER.—Mr. Morningstar is meeting with quite a success, and his highly talented troupe perform to delighted audiences every evening.

FRANK LESLIE'S ILLUSTRATED NEWSPAPER.—This spirited Weekly Pictorial, which gives some magnificent and many life-like illustrations of the war in progress, and whose reading matter is clear, sensible and telling, may be had always at Bieleck & Co.'s, News Depot, 298 Main street.

DISGRACEFUL.—The names of Anthony and Margaret Barrett disgrace the returns of yesterday's police court. They were charged for abusing and beating a small child, unable to defend itself against such superior forces, and fined therefor \$11.

HENRY FOLSON.—Swords, pistols, sabers, officers' saddles, hats, caps, belts, valises, and whatever the soldier may need, on reasonable terms, at 329 Main street.

DISORDERLY HOUSES.—By glancing over yesterday's proceedings of the Recorder's court, it appears that disorderly houses are again becoming in vogue in our city, which has recently won the reputation of peace and quietude.

Mrs. MORGAN'S SCHOOL.—In another column will be found the advertisement of Mrs. M. A. E. Morgan. We have known the lady for years, and can truly say that, as an educated and accomplished lady, she has few equals in this country.

ARREST OF A FUGITIVE.—Day before yesterday, policeman D. Ryan succeeded in arresting a man named John Williams, who, it is said, has lately made his escape from St. Louis. A gold watch was found upon his person, and the valuable article can be produced by application at the station-house, but it must be satisfactorily described and proved.

FORSTALLING THE MARKET.—It should be remembered by those who sell in market that it is against an ordinance of the city to buy in market for the purpose of selling in that market the articles purchased.

NEGLECTANCE.—A person sometimes has to pay for negligence, whether it be criminal neglect or more carelessness. Pat Glinnin, a hack-driver, was yesterday required by the Recorder to pay a fine of \$6 for not having the legal rates of charges posted up in his hack.

WOMAN WHIPPING.—It is certainly demerit in man to raise a belligerent hand against those whom he should protect. A man known as James Bodin was required to make his appearance yesterday morning before the Recorder, who fined him \$11 for having whipped a woman. Shame!

SELLING GOODS WITHOUT LICENSE.—When will every body in this city learn the necessity of procuring a license for transacting business? Mr. John Brogan was yesterday fined in the police court for not having a license for selling goods.

POSTMASTER GENERAL.—Medary's Crisis has the following notice of the Postmaster General:

We have watched with great care all the acts and doings of Postmaster General Blair, since these troubles commenced, not only for the facts of the history of men and the times, but because of the old friendships existing between us in times gone by, and we say it with pleasure that we believe no department of the Government has steered clearer of all necessary complaint than his, and few men now in public life have fewer sins to answer for.

RIVER AND STEAMBOAT NEWS.

ARRIVALS YESTERDAY. Belle Memphis, Capt. Souley, St. Louis. City of Alton, Capt. Barnes, St. Louis.

DEPARTURES YESTERDAY. Belle Memphis, Capt. Souley, St. Louis. Commodore, Capt. Archer, Louisville.

The river is rising slowly at this point. Business was quite brisk on the levee yesterday. There is a fleet of boats in port reminding one of the good old times of '60, when twenty, thirty, and even forty steamers could be counted from the bluff; probably the activity witnessed yesterday will help restore those good old times—we hope so.

The Ohio is falling at Pittsburg, with only 2 feet in the channel.

The Kanawha is falling, with 2 feet from the Salines to the mouth.

We have no change to note in the Tennessee river—there is only 18 inches on Colbert's shoals.

The Cumberland is rising—there is now 30 inches on Harpeth shoals, which will allow the fleet of small boats to go up to Nashville that have been detained below the shoals so long on account of low water.

The Lower Ohio is falling all the way down, and the bars are becoming very troublesome.

We did not receive any papers from St. Louis yesterday, and in consequence, cannot report the condition of the upper streams.

FOR LOUISVILLE AND CINCINNATI.—The Lady Pike is up for Louisville and Cincinnati to-day, at 5 o'clock. Passengers and shippers take notice. Be on hand early, for the Pike will leave punctually.

The demand for U. S. Treasury notes, generally called "green-backs," is very lively, and the supply limited.

A Reconnoitering Expedition Up the Ogechee River.

United States Gunboat PAUL JONES, of Savannah Harbor, July 29, 1862. Blockading duty, has been a sinecure here, so far as indolence is concerned, for some time past. On the 27th, however, we had orders of a business-like character, and all hands went to work clearing decks for action, none of us knowing exactly what was to be done, but highly anxious to get to work at whatever was the design of our commander.

We started accordingly, entering Sapelo Sound, thence proceeded into St. Catharine's Sound, and thence up the Ogechee river, which we entered at thirty-five minutes after nine A. M. We kept our course steadily up the Ogechee until we arrived near Fort James, a rebel work on James Point, nineteen miles southwesterly from Savannah.

The fort is a low earthwork, built on a point in the channel of the Lower Ogechee. A breast of the work the river is only seventy yards wide, so that it required great skill in our officers to avoid the shot which were at one time rained on us by the rebels. The guns of the fort are trained so as to command the channel for three miles below, so that the approaches to it are by no means safe.

Anticipated Trouble with the Mormons. The Omaha Nebraska states that the military authorities have been notified that the Mormon trains for Salt Lake will be the conveyance between the Saints and the Government should be adjusted.

GENERAL ORDERS NO. 67.

HEADQUARTERS FIFTH DIVISION, ARMY OF THE TENNESSEE, MEMPHIS, August 8, 1862.

Inasmuch as by law of Congress, recently enacted, the President of the United States is authorized to receive and employ the labor of slaves and fugitives from slavery; and such fugitives on coming to our camps seeking protection, the following rules will be observed at and near Memphis until the President proclaims otherwise, when these will necessarily be superseded and made to conform to the pleasure of the President.

I. All able bodied negroes who apply for work at Fort Pickens will be received and put to work by the Engineer in charge, Captain Hooper; the names of owners and slaves registered, with date of commencement of work, and a general description by which the negroes can be known.

II. The Post Quartermaster, Captain Pish, will in like manner employ a force of about one hundred negroes out of those who apply to him for work, or he may, on occasions, take by force when he thinks it absolutely necessary to have an increased force work on the levee, loading and unloading steamboats, coal boats, and such like labor; a list of whom, similar to that referred to in paragraph I, will be kept by the Quartermaster, and a copy sent to the Engineer for reference.

III. The Quartermasters may employ fugitives to drive teams and attend to horses, mules and cattle, keeping accurate accounts under the rules of their department applicable to "persons and articles employed and hired," and subject to the condition of paragraph I of this order; this list of persons so employed to be sent to headquarters for reference.

IV. The commanders of regiments may cause to be employed as cooks and company teamsters, not to exceed five per company and ten per regiment for extra wages, and five for stand wagons; in all, sixty-six per regiment, which negroes shall be borne on the muster rolls, and supplied with provisions and clothing as soldiers, but in no case will they bear arms or wear the uniform.

V. The Commanding General here thinks proper to make known to the people of Memphis the principles by which, in the absence of instructions from his superior officers, he will be governed in all cases arising under these complicated questions. It is not his duty nor his pleasure to disturb the relation of master and slave—that is for the courts, which, having been destroyed here by our enemy, are impotent for the present, but in the case of a slave who has been sold to a third party, established here that will judge and decide in cases which have already arisen or may arise, under the laws and Constitution of the United States.
