Ancient Thessalonika.

British soldiers out at Salonika have little love to spare for the place. "They say out there," remarked a Welsh warrior home on leave, "that it dropped out of God's pocket." Yet 18 centuries ago it had a Christian church so important that St. Paul devoted to it two of his immortal epistles.

Decimating.

Originally, decimation was a military punishment of the Romans, who dealt with large bodies of rebels, prisoners or mutinous soldiers by executing one man in ten. In popular use today, decimation means the destruction of a large proportion of anything; as, "the epidemic has decimated the population," or "the Prussian guards were decimated at Verdun."

To Skin Beets.

An easy way to skin a beet without bleeding it and causing it to lose color is to put it in cold water as soon as it is cooked. Then draw the hand gently down the beet and the skin will drop off without trouble.

Most Wallflowers Peppery.

The mustard family contains more than two thousand species and includes cabbage, cauliflower, turnip, radish, horseradish and, in ornamentals, the stock, sweet alyssum and the wallflower.

Iron Rust.

Few stains are so obstinate as iron rust is. They may, however, be removed from delicate fabrics by covering the spot thickly with cream tartar, then twisting the cloth to get the tartar on the spot itself. Put that part into a pan of cold water, bring gradually to boiling point, and afterwards rinse in the usual way.—Exchange.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to bring out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "loggy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. 10c and 25c a box. All druggists.

Coal Miner Becomes General

When the war began in 1914 a man named Godfrey Jones, a coal miner in Wales, enlisted as a private. He soon became a non-commissioned officer, and a little later earned a commission. At Salonika he showed such conspicuous courage that he was awarded the distinguished order service. The other day Col. Jones, still serving with his countrymen and in command of Welsh soldiers, was promoted to the rank of brigadier general. The coal miner now outranks the heir to the British throne.

147 Acre Farm \$1800 With

Pair Horses, 3 Cows and Wagons, buggy, mowing machine, harrow, plow, cultivator, hay rake, all hay, corn, oats, potatoes, crops on place; on good road, short walk school, 2 miles town, stores, churches, mills, creamery, etc. 50 acres machine-worked fields, meadows cutting 50 tons hay, 18-cow brook-watered pasture, estimated 800 cords wood; timber, fruit, 10-room house, basement barn, running water house, barn, other buildings. CONCORD

Death of Herbert H. Hodge
Herbert Hayden Hodge, whose funeral was held from the Universalist church, Wednesday, Oct. 2, died Monday, Sept. 30, from double pneumonia following influenza, at Hanover, N. H. Mr. Hodge was 22 years old and only son of Charles K. and Isabel Hodge. He was called into service from Franconia, N. H., where he has been employed for the past three years. He was connected with the Training Department at Dartmouth. His mother died when he was seven years of age. He is survived by his father and step mother, one sister, Vivian Lesta Stone, of Springfield, Mass., one half brother, William P. Hodge of Franconia, a half sister, Ermira, of Portland Me. The interment was at Lancaster, N. H. A lieutenant escorted his remains to their resting place. Fred Woods and Charles McPherson, Mr. and Mrs. William Hodge of Franconia, Mr. and Mrs. Wallace Houghton and daughter, Ruth, of Lyndon were called here for the funeral.

BIRDS ARE VALUED

Carrier Pigeons Do Excellent Service for Army.

Many Now Being Trained at the University of Wisconsin Under the Direction of the Government—Made Splendid Record.

Carrier pigeons for the army are now being trained at the University of Wisconsin, and special experiments with the birds are being carried on under the direction of the government. This new war work has been taken up under the direction of Prof. L. J. Cole, head of the department of experimental breeding.

Twenty-five young pigeons have been received from the signal corps for use in flying investigations, and 14 old birds for breeding purposes have been donated by a Cleveland pigeon fancier.

Lieut. W. L. Butler of the central department of the signal corps at Chicago and Maj. Frank Griffin of the Washington office were at the university recently making arrangements for the work.

A warning not to shoot pigeons has been issued by the bureau of information at Washington on account of the large number of homing pigeons which are being trained in various parts of the country. Now that the training is also being carried on in Wisconsin, the people of that state are being warned not to shoot pigeons, and if any bird is found bearing the label "U. S. A. O. 18," the mark borne by all government pigeons, it should be reported to the chief signal officer at Washington.

In the present war homing pigeons play a large part in the carrying of important messages, because they can fly home when telephones, telegraph and wireless have been destroyed, and are rarely hit by gunfire.

The process of training a pigeon for military purposes consists in first taking it about 1,000 yards from home and loosing it so that it can fly back; then the distance is increased and the direction changed as the training progresses.

The average speed of a homing pigeon is from 1,400 to 1,700 yards a minute, although many make much higher speed than this. Important messages in the army are usually sent by two birds in order to insure safe delivery and but few messages are lost.

A small aluminum container is fastened to the birds' legs to carry messages, or else the bits of paper are tied directly on the legs.

Stories are recorded daily in the war of life-saving feats accomplished by homing pigeons. A crew of a vessel struck by a submarine recently had just time to free a homing pigeon before the ship sunk. Although the bird was wounded by shots from the German submarine, it flew to another craft 12 miles away and saved the lives of the men floundering about in the water.

Men are in great demand in the homing pigeon operator branch of the signal service. No man of draft age can be inducted into this service, but there is a call for men below twenty-one and over thirty years of age for this work.

Not Charlie Chaplin but Lloyd George. After a meeting which Lloyd George had attended a cheering band of admirers escorted the prime minister to his car. There, in the freedom of her rags and tatters, stood a typical cockney girl. She gazed at the enthusiasts with astonishment and then her eyes glistened as they fell on the features of Lloyd George. "It's Charlie," she cried. "Charlie Chaplin. Give another three cheers." "No, my girl," explained one of the crowd; "it is not Charlie Chaplin. It is the prime minister." "Lloyd George? Good old Lloyd George. Give him six cheers." Admiration could go no further.

Launching Seaplanes. When a big seaplane is to be launched from the deck of a ship it is first "tuned up" on the launching stage. Then the ship is swung into the teeth of the wind and put at full speed. At a signal the pilot starts his engine full speed, while two mechanics braced against cleats on the deck, hold back the tugging seaplane. When the "tone" of the engine is right, the wing commander brings down his flag with a sharp jerk, falls on his face to avoid a collision, and the machine freed from the grip of the men holding it, jumps away into space from the launching stage.

Ribbons Substituted for Iron Crosses. In Germany iron is so scarce that enough cannot be spared to make all the Iron Crosses needed to carry out the government's policy of wholesale distribution of war honors. At least, such a condition is strongly indicated by a souvenir from a battlefield that has been received in this country. It is a black and white ribbon which the sender, a medical officer, asserts is one of many that have been awarded in lieu of crosses. The ribbon was found on the body of a dead enemy.—Popular Mechanics Magazine.

Cannon Balls Are Round. Artists—There's one good feature about this war; there won't be any cannon balls to stack up in ugly piles in our parks. These old cannon balls are absolutely inappropriate for our public squares.

Cholly—Still, you know, you can't get square cannon balls, can you?—Cartoons Magazine.

THE WAR GAME

Huns See Chance of Victory in Toss of Dice

Amsterdam, Oct. 10—Switzerland in the last week has been swarming with German, Austrian and Turkish peace pioneers sent from their capitals to try to get in touch with diplomatists of the allied countries. The watchword of the emissaries of the Central Powers is an immediate armistice in order to avoid further bloodshed.

In an article appearing up the present diplomatic situation the Democrat says the Entente countries never have been in such great danger—not militarily but diplomatically—since 1914.

"If the belligerents met now round a green table," the newspaper says, "the Austro-Germans will employ loaded dice and win the game, which will result in another war within 12 years."

WOULD SELL CHILDREN

German Morality? a Low Ebb

Amsterdam, Oct. 10—To what extremes the morality of the Germans has descended is shown in this advertisement in the Magdeburger Zeitung: "Single man desires to dispose of his five children, girls, ages 5, 7, 10, 12 and 13; what offers?—G. R., 111, office of this paper."

Thomas J. Gochie, a former resident, but now residing in Greensboro passed away at his father's home, Wednesday, at 1 o'clock p. m. He had been sick about two weeks with Spanish influenza and seemed so weak and down-spirited that he was removed Sunday from his room at Mr. Gray's where he had been working for some time, but not till pneumonia had set in, and the end came easily and quickly. He was 20 years old and one of our finest young men. He leaves a father and mother, Mr. and Mrs. William and Sarah Brown Gochie of Greensboro and two brothers, Lee and Ted. The interment will be at Lower Stannard.

Miss Mildred Fuller, daughter of Fred and Mattie Drew Fuller, passed into the great beyond, Wednesday, October 9, at Walter King's in Greensboro. Her mother was able to be with her to the end. She leaves a father and mother, two brothers and two sisters, a grandfather and grandmother, Mr. and Mrs. Hiram Drew, also uncle and aunts and a host of friends to mourn her loss. She will be buried at Lower Stannard.

Mr. Ransome, an aged resident, passed quietly away Wednesday at his home in upper Stannard. Interment was in Stannard.

L. D. Leavitt and entire family are sick with the prevailing influenza.

Mrs. Lucindy Dow and Aggie McLellan are caring for the sick.

Mrs. Myrtle Gray's sister and husband and three little children have come to care for Mr. and Mrs. Gray as the entire family are sick with the Spanish influenza. Also her sister's daughter, Emma, and sons, Guy and Harold, were taken sick with the influenza at Mr. Gray's the next day after arriving from St. Johnsbury for a short visit.

Mrs. Fossie Leavitt Smith is seriously sick at her father's, L. D. Leavitt's.

Miss Ruth and Kate Bartlett are able to be out after having the Spanish influenza.

For literally shooting trees to death a pistol has been invented by an Englishman that fires steel bolts into their limbs to tear out the living cores.
