The lecture at the Town Hall Monday evening, by Capt. Thomas, under the auspices of the G. A. R., was a success and well worth listening to, and drew a crowded house.

The lecturer was introduced in a few well chosen remarks by Capt. Kenfield, Commander of J. M. Warner Post.

Fires are getting to be rather too common for comfort. Hardly a day passes but that we hear of some disastrous conflagration.

The thrifty village of Lebanon, N. H., by the recent fire met with almost irreparable loss. The amount by detailed computation is \$369,565.

Every little while some village without proper protection goes into ashes. It is just as likely to be ours next as any other.

A committee ought to be appointed to go into the subject and devise some plan, which if adopted, would put us in fair shape to meet a hot fire. If this is a wise and prudent thing to do, and who will say it isn't, why not act.

On Friday last the dwelling house occupied by William M. Alexander at Morrismont Corners was destroyed by fire. Mr. Alexander had just returned home, and after putting his horse in the barn, went in to dinner.

While eating, he heard an unusual noise outside, and stepping to the door found that the barn was completely enveloped in flames.

The fire spread quickly to the house and every thing was soon consumed. Mr. Alexander's horse, cow and pig went with the rest. The post-office records with stamps and stationery were lost.

There was no insurance on buildings or personal property, and the loss therefore, falls heavily on Mr. Alexander.

A CARD.—Since the burning of my house the people of the Corners and vicinity have been very kind to Mrs. Alexander and myself.

They have not only extended their sympathy, but have also contributed substantially to our wants. We both feel deeply grateful to our friends and wish publicly to express our thanks to all.

A. Deering of the Vt. University, was in town a short time Tuesday and visited the Academy.—A very acceptable rain.
