## The Dearest Watch to Own

Is one that you cannot depend upon. A person without a watch at all might be happy, but not a person with a now fast, now slow, now stopped watch.  
The point we wish to make is this: When you decide to buy a watch, first of all decide to buy it here.  
Then decide to pay at least a FAIR PRICE for it so that it will do you as long as you need a watch.  
It's by far the cheapest. Then we have any style or price you wish for a chain.
