Forty-Ninth Anniversary Party.—About fifty of the neighbors and friends of Mr. and Mrs. Samuel Eaton of Morristown Corners called at their home last Sunday evening to remind them that the day was the 49th anniversary of their marriage. The evening was pleasantly spent in visiting and refreshments of cake and coffee were served. "Silver Threads Among the Gold" was sung by request by Mrs. Ruth Day, who played her own accompaniment upon the organ. The many friends of Mr. and Mrs. Eaton wish them many happy returns of the day.

Special Town Meeting

A warning will be posted this week by the Selectmen for a special town meeting to be held for the purpose of having the action of the Morristown School Directors, in renting rooms outside the present school buildings, ratified by the voters. Although the crowded condition of the Academy and Graded School buildings made the action imperative, the approval of the town is necessary.

It is probable that the voters will also be given an opportunity at this time, to take steps to investigate the matter of school accommodations and possibly appoint a committee to investigate plans for enlarging the present school quarters. The seventh, eighth and ninth grades in the Tift Block now cost \$400 in rent beside the heating and other expense. The rent of the rooms over the Blair store for use of the domestic Science class costs \$144 in rent beside heat, etc.

The old buildings are now badly crowded, especially the Graded building: There are at present enrolled in Peoples Academy 164 students; (a) Grammar, 21; (b) Grammar, 37; First Intermediate, 51. Second Intermediate, 33; First Primary, 37; Second Primary, 52.

Woman's Club Opens Season

The year's work of the Woman's Club opened most auspiciously Monday evening when about 40 ladies gathered at the Library for the first meeting. Although no regular literary program was given, the occasion proved most enjoyable. The president, Mrs. Lizzie Fisher, welcomed the new members and extended a cordial invitation to any present, who had not already joined, to do so.

Miss Lou Slocum gave a very interesting account of the work of the State Federation with its 52 clubs and more than 5000 members as it was presented at the State Federation meeting held in St. Albans last June. Current events were read by Mrs. Isabelle Fisk after which several contributed their vacation experiences. Of special interest was Miss Mary Simpson's account of the trip to Portland, Oregon, which she took in the early summer.

During the business hour the Treasurer gave her report showing that the Club is in excellent condition financially. One new member was accepted and the name of a second proposed for action.

A social hour followed, during which the Social committee served punch and waters.

Bought It at Home

M. B. White & Co. have added a new and up-to-date delivery wagon to their business equipment. It was built for them by the Lilley Wagon Company, painted by Eli E. Cutler and lettered by A. M. Adams. It is a fine piece of work throughout, and Mr. White figures that he has an article fifty per cent better than he could have purchased had he made his selection from a beautifully illustrated Western catalogue, and at the same price. This applies to most any line of business. The "Bought at Home" slogan is getting more popular every day.

The hunting season is now on and sportsmen can find a fine assortment of guns and other equipment at Campbell's.

Miss Helen Durfee of Lutherville, Md., was a guest from Thursday until Monday of her sister, Mrs. C. D. Howe. Miss Durfee is teacher of Domestic Science in the Maryland Woman's College.

She enjoyed every minute while here and no doubt will be here bright and early next summer.

A bevy of handsome young ladies from the Johnson Normal School tramped to this village last Monday and took dinner at the Inn. There were a dozen of them and their ruddy cheeks and healthful glow indicated that the September morn had proven a good tonic for them. While at dinner the Hyde Park Inn Quartette rendered several selections, which were heartily applauded by the damsels. A camera with the party did good work and with affectionate good-byes to "Jim," the Inn mascot, they wended their way homeward.

BOSTON AND MAINE RAILROAD

Notice Concerning Change in Milk Rates

The Boston and Maine Railroad, subject to the approval of the public Authorities, plans to revise its charges for transporting milk. Some points have rates only by passenger train service, others only by freight service, and some points by both. Where a freight rate exists, it is three-fourths of the passenger train rate. There are also variations in the rates at different points similarly situated.

The result of all this is to give much lower rates from Maine and Northern New Hampshire than from Vermont on shipments to Boston. For example, Foxcroft, Maine, 256 miles from Boston, has a leased car freight rate of \$37 a day, while a similar shipment from Vergennes, Vermont, 213 miles from Boston, pays a passenger rate of \$62.96 a day.

The management of the Railroad believes the freight rate should be abolished, and that the passenger rates should be rearranged to give the same rate to localities similarly situated. With that end in view it has prepared a new tariff lowering rates in some cases, raising them in some others, and doing away with the freight rates in all.

IN CONSIDERING THE NEW RATES REMEMBER

1. The new rates are lower than those charged by other railroads entering Boston, and lower than those into New York or any other large city which obtains its milk from a distance.
2. No carload rate to any point within 165 miles of Boston is increased. Those between 75 and 150 miles are reduced to make the basis uniform.
3. The largest increase at any one point on the car rate to Boston, in baggage car service, is two cents for an eight and one-half quart can; less than a quarter of a cent a quart.
4. The longest journey of any leased car to-day is 284 miles. The largest increase to Boston on the leased car rate of the large shippers is less than one-third of a cent a quart. This is for a distance of 300 miles. For shorter distances this increase is smaller.

Cream retails at from three to six times the price of milk, this price being fixed on the amount of butter fat it contains. Cream is now carried at the milk rate. If it is damaged or spilled, the railroad must pay the owner the cream price. Because of this the new rate for cream has been made one and one-half times the milk rate.
