Prince Albert is such friendly tobacco

that it just makes a man sorry he didn't get wind of this pipe and cigarette smoke long ago. He counts it lost time, quick as the goodness of Prince Albert gets firm set in his life!

PRINCE ALBERT the national joy smoke

It stands to reason, doesn't it, that if men all over the nation, all over the world, prefer P. A. that it must have all the qualities to satisfy your fondest desires?

Watch your step! It's easy to change the shape and color of unsalable brands to imitate the Prince Albert tidy red tin, but it is impossible to imitate the flavor of Prince Albert tobacco!

Men, get us right on Prince Albert! We tell you this tobacco will prove better than you can figure out, it's so chummy and fragrant and inviting all the time. Can't cost you more than 5c or 10c to get your bearings!

Buy Prince Albert everywhere tobacco is sold—in toppy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidors—and in that classy crystal-glass pound humidor with sponge-moistener top that keeps the tobacco in such great trim!

STATE BUYS FOREST TRACT

Mansfield Forest is Second Largest State Reserve in New England

The state forestry department has just concluded the purchase of a tract of about 2000 acres lying on the east side of Mount Mansfield. This property, added to the one acquired a year ago on the west side of the range, makes the total area about 5000 acres.

It is understood that the state of New Hampshire paid \$100,000 for the Crawford Notch property of 6000 acres while the Mansfield forest will cost Vermont about \$13,500. However, in the former case the timber was included in the purchase whereas funds were not available for the Vermont Forestry department to purchase the merchantable timber.

A fairly satisfactory arrangement has been made by the state forester with the grantors whereby they agree not to cut spruce and fir trees which are less than 10 inches in diameter; and hemlock and hardwood, less than 15 inches, (all trees to be measured at breast height). On certain areas no cuttings are to be made and the time limit will make it impossible to cut close.

Gov. Gates, who has been in favor of this purchase since it was first called to his attention, is particularly interested because of its scenic aspect. On the north the tract crosses the Smuggler's Notch road, which the governor hopes to develop as one of the chief attractions of the state. It is unsurpassed for beauty by anything in New England.

WARSAW CENTER OF TRAGEDY

Polish Capital Might Almost Be Said to Be the Playground of the Nations.

Ground between the millstones of war, and without any feeling of genuine allegiance to either side, the situation of the Polish people in the present struggle is peculiarly unhappy. True, both Germany and Russia have made promises, but Poland has little cause to believe in the good faith of nations.

Warsaw, in Russian Poland, recently captured by the Germans, is the center of all that is left of Polish nationalism. Here Russia, of which Warsaw has long been a part, is always referred to as a foreign land, and the Cossack with his knouted whip has a perpetual irritation to the Polish citizen.

But Warsaw is by no means a melancholy city, despite the prevailing devotion to a cause long lost. It is a cosmopolitan city, dominated by the Latin temperament, belonging wholly to the west—a city where there is much music and dancing and love of the arts and graces of life.

Dr. Kilmer's Swamp-Root sells well with us because it invariably produces good results in Kidney, Liver and Bladder troubles. He states that he obtained wonderful relief from the use of Swamp-Root.
