

The Lamoille County Savings Bank & Trust Co., Hyde Park, - - Vermont

The recent Vermont Bank Examiner's report, predicated upon the condition of Vermont Savings Banks on the 30th day of June, 1921 is full of very interesting Banking facts and we are pleased to draw therefrom certain conclusions of interest to the prospective depositor.

Every banker knows that there are certain "ear marks" which point unmistakably and unerringly to a Strong and Safe Savings Bank and the thrifty depositor is quick to draw his conclusions when these facts are brought to his attention. If he can ascertain which is the Safest and Strongest he accepts no other. His motto is, "The Best is none too good, the Safest none too Safe."

The following six "high points" in banking tell their own story and are interesting reading to the thrifty man or woman, boy or girl who is looking for a Conservative, Strong, Solid, Safe Bank.

1st: The Hyde Park Bank carries more than a half million dollars of Government Bonds. No other Savings Bank in Vermont carries as many in proportion to its size.

2nd: The most severe test of a Bank's strength is its ability to respond to emergency calls. During the Liberty Loan Drives this Bank invested in Government securities more than one million dollars, or nearly 40 per cent of its entire deposits. We think no other Bank in Vermont matched this record. In response to calls from the United States Treasury the Hyde Park Bank subscribed for and took \$750,000 of United States Certificates. No other bank in Vermont, large or small, State or National, subscribed as much by \$200,000. Indeed, the combined subscriptions of 32 Vermont banks at that time was less than that of the Hyde Park Bank alone.

3rd: The Hyde Park Bank carried June 30, 1921, in cash, bonds and municipal securities, \$946,215—being more than 38 per cent of the Bank's deposits. Less than one in eight of the Savings Banks of Vermont carried this percentage.

4th: Less than one in ten of the Savings Banks of Vermont carried as large a percentage of their deposits in actual cash as the Hyde Park Bank as shown by the last Bank Examiner's report.

5th: Of the thirty-three Savings Banks in Vermont, organized since 1889, when the Hyde Park Bank was organized, there is only one whose surplus equals that of the Hyde Park Bank.

6th: The fact is now well established that the Lamoille County Savings Bank & Trust Co. is the largest Bank in the World in a Country Village. No other Bank in a village of its size has equal assets or deposits. No fact speaks louder as to the confidence of the people of Vermont in the Hyde Park Bank.

If you believe in the old adage—"Don't put all your eggs in one basket" and if the foregoing six points are conclusive in your mind as to the Superiority, Solidity, Strength and Safety of the Hyde Park Bank, we should be pleased to number you among our depositors and receive a share of your deposits. Your account will be appreciated.

The Hyde Park Bank deems it a pleasure as well as a duty to deal generously as well as equitably with its depositors. It therefore, pays interest on deposits from the day they are made for each thirty day period the money remains in the Bank and withdrawals may be made at any time without loss of interest, except for fractional parts of thirty day periods.

It is quite safe to send deposits either by postal or express money order, check or registered letter. In this Bank's thirty-two years experience no depositor has ever lost a dollar so sent.

If you would like to know more about the Hyde Park Bank, with a detailed statement of its assets, address a postal card to Carroll S. Page President, Hyde Park, Vt., writing thereon the words, "We would like further information concerning the Hyde Park Bank," and a prompt reply will be forthcoming.

Hardwick Won the Game

The last game of base ball to be played here this season was Hardwick vs Morrisville Thursday and resulted in a score of 9 to 3 in favor of Hardwick. There was a good crowd, especially of Hardwick folks, who were delighted with the result—even if it did take a number of outside players to win. Oh, boy, that was a live bunch of Hardwick "fans!"

Home Demonstration in Lamoille County

May Truman, the Home Demonstration Agent of Lamoille County will be at the State Fair the 3rd, 4th, and 5th, of October, therefore, the meetings which should come at Waterville the 4th, and at Belvidere the 5th, will not be held until 6th, and the 8th, of October.

There will be a Home Demonstration meeting at Waterville Thursday, October 6th, at two o'clock when lunches will be demonstrated.

Friday, October 7th, the Home Demonstration agent will be at Eden Mills all day for a dress form demonstration.

Saturday, October 8th, there will be an all day meeting at Belvidere for sewing and millinery.

No Weather Really "Bad."

It was a wise man who contended that there is no such thing as bad weather—there are only different kinds of good weather. The hot days and the stormy days, the rains, the winds, the snows all have their purpose, and it is always a good purpose.—Exchange.

TWICE-TOLD TESTIMONY

Morrisville People Are Doing All They Can for Fellow Sufferers

Morrisville testimony has been published to prove the merit of Doan's Kidney Pills to others in Morrisville who suffer from bad backs and kidney ills. Let any sufferer doubt this evidence of merit, we produce confirmed proof—statements from Morrisville people who again endorse Doan's Kidney Pills—confirm their former testimony. Here's a Morrisville case:

Mrs. F. A. Wilkins, cor. Bridge and Brooklyn Sts., says: "On different occasions my kidneys have been disordered and I would be troubled with swelling of my hands and feet. Whenever I am bothered this way I use a few Doan's Kidney Pills which I get at Cheney's Drug Store and they give the very best of results." (Statement given November 1, 1916.)

On May 22, 1920, Mrs. Wilkins added: "I still think Doan's Kidney Pills are very good. I use them whenever the occasion requires and always get excellent results from them. I surely think there is nothing better for the kidneys than Doan's Kidney Pills and I am glad to recommend them."

Price 60c, at all dealers. Don't simply ask for kidney remedy—get Doan's Kidney Pills—the same that Mrs. Wilkins had. Foster-Milburn Co., Mfrs., Buffalo, N.Y. —advertisement.

STOWE

Mrs. L. N. Miner have returned from a visit with relatives in Orange.

Mrs. Lena B. Reed has returned to her home in Berlin after several weeks in town.

W. L. Bennett has several pullets not quite five months old that have begun to lay.

A. P. Smith is attending a fair and visiting his brother, O. M. Smith, at Contoocook, N. H.

Mrs. G. W. Clark of Morrisville recently called on her aunts, Mrs. Eunice Pottle and Mrs. Abbie Pike.

S. A. Stebbins, C. D. Bruce, E. L. Barrows and Sanborn attended the fair at Northfield last week Wednesday.

Canned goods, preserves and jams for the Mary Fletcher hospital drive may be left at any time with Mrs. H. E. Shaw.

Mrs. Eva Bently Fletcher has moved her household goods to her home in Cambridge from W. F. Harris' house at the lower village.

Mrs. Helen Almy Butler and daughter, Miss Katherine Butler of Boston, are guests at E. B. Gale's, expecting to remain several weeks.

The members of Sickie Chapter, O. E. S., will present the western comedy, "The Arizona Cowboy," at the Akeley Memorial building Friday evening, October 7.

E. F. Cleveland went Wednesday to attend the Northfield fair. Before returning home Mr. Cleveland will visit his brother, George Cleveland, and sister, Mrs. Green, in Roxbury.

Miss Mary Bailey gave a "bacon bat" Tuesday evening of last week at her home to twelve of her young friends, serving the bacon and accompaniments on the river bank. Miss Bailey left last Monday to enter a school in Boston.

Seventeen of his friends gave Lyle Spaulding a surprise party at his home last Tuesday evening in honor of his 17th birthday anniversary. Games were played refreshments were served and gifts were left as reminders of the occasion.

Harry McMahon, who has visited his parents, Mr. and Mrs. H. W. McMahon at Moscow, returned one day recently to Bristol, Conn. His aunt, Mrs. C. T. Hayes of Waterbury Center, accompanied Mr. McMahon to Plainville, Conn.

Plains are being arranged for school week which is to begin Sunday, October 22. The programs are being made out by the Seniors. Special invitations will be sent out by the school to those who do not have children attending school here.

The Misses Alice Nutting and Gertude Clark returned recently from Sugar Hill, N. H., where they have been employed at the Look-Off Hotel. They were accompanied home by Miss Lydia Hollenbeck, who is the guest of Miss Nutting.

Mr. and Mrs. Walter Buker of St. Albans visited Mr. Buker's brother and wife, Mr. and Mrs. F. D. Buker, last Tuesday and with them had a delightful trip to Smuggler's Notch Tuesday afternoon. They returned to St. Albans Wednesday by way of the Notch.

At a hearing on the case of Thomas McCall, charged with operating a still. McCall pleaded guilty and was sentenced to not less than six months or more than one year at Windsor. On account of his wife and five children the sentence was suspended and McCall was placed in the hands of the probation officer.

A son was born on Sept. 22nd to Mr. and Mrs. Mathew Thatcher of Norwood Mass. Mrs. Thatcher was formerly Miss Harriet Adams and is a daughter of Mr. and Mrs. Erwin Adams. Mrs. Adams, who is with her daughter has had X-ray examination for a long standing trouble which is pronounced as gallstones.

W. W. Thomas of Morrisville was a visitor in Stowe last Wednesday and Thursday. District Superintendent W. B. Davenport and the Rev. W. T. Best of Morrisville were here last week Tuesday in consultation with trustees of the M. E. Church property which according to the law of the denomination belongs to the Methodist conference. Another meeting will be called in the future for a decision in the matter.

Auto Matches Jewels.

For the benefit of your wife, you might tell her that, if she wants it, many of the automobile manufacturers will have her 1921 car match her jewels. This is a fad in many sections of the East, where amethyst, garnet, topaz, sapphire and other colors are used in the upholstery, tops and the body made to correspond. In this way your wife will know that her jewels harmonize with the car. Of course, if she hasn't the jewels, she can order the car as she wants it, and then buy the jewels to match.—Chicago Tribune.

Playing Safe.

The firm of Hansen & Fransen was started in war-time and did very well for a couple of years. But last year things were on the downward grade, and the other day, when the two partners had finished making up their none too good record for the year, Hansen said, "This would make anyone thoughtful. Now that the good times are over, how about a little honest business?"

"No, thanks," said Fransen. "I never indulge in experiments." —Houston Post.

When a Bushel Isn't.

"Thirty-two quarts make one bushel," recites Young America glibly and positively. But the housewife who has purchased family supplies for years is not at all sure that this is not one of the many rules that have exceptions. Specialists of the bureau of markets, United States Department of Agriculture, say that the heaped bushel varies with the price of the product and the weight bushel varies widely in different states. A bushel of sweet potatoes is 46 pounds in the Dakotas and 60 pounds in Maryland. A bushel of tomatoes is 45 pounds in Oklahoma and 60 pounds in Virginia. A bushel of unshelled green peas is 28 pounds in Massachusetts and 53 pounds in Pennsylvania.

America and England.

My hold of the colonies is in the close affection which grows from common names, from kindred blood, from similar privileges and equal protection. These are ties which, though light as air, are as strong as links of iron.—Edmund Burke in Parliament, March 22, 1775.

Vacuum Plays Havoc With Boiler.

The usually imperceptible force of atmospheric pressure often reveals itself by some unexpected and peculiar tricks. One of the latest of its pranks was to crumple the shell of a heavy steel boiler in use near Okmulgee, Okla. The steam within the boiler had been allowed to cool, and in cooling condensed. All of the boiler fittings were so tight that no air could get into the boiler to take the place of the steam, which was now very much reduced in volume, and a vacuum was thus created in the shell. The result was that the pressure of the outside air crushed the boiler shell.—Popular Mechanics Magazine.
