**Smiles Irradiate the Countenance**

When those atrocious bodily troubles, chills and fever, dyspepsia, kidney or rheumatic disorders, yield, as they invariably do, to the benign action of Hostetter's Stomach Bitters, a remedy of comprehensive use, pure in composition, unobjectionable to a delicate palate, and thorough in effects. Sick headache, loss of appetite, flesh and sleep, nausea, heartburn, are among the physical annoyances obviated by the Bitters. They are in the nature of signals of distress displayed by a disordered stomach, liver and bowels, and disappear with the cause that produced them. But these signals should be heeded at once. Then the woe begone look of chronic ill health will speedily disappear, and vigor and comfort restore a cheerful aspect to the face. That faithful index to the condition of the system never fails to wear a look of sunshine when the Bitters is used to dispel the cloud.

The old story of Prometheus is a parable. Prometheus was on terms of intimacy with the gods. From them he stole fire, and gave it to men. For this sin he was bound to the rocks of Mount Caucasus, and vultures were set upon him. They only ate his liver. This grew again as fast as it was pecked away. Are his sufferings to be imagined?

Take a modern interpretation of the parable. There is no cooking without fire. In cooking and eating the mischief lies. The stomach is overtasked, the bowels become clogged, they cannot dispose of the food that is given them. The impurities back up on the liver. Then come the vultures—the torments of a diseased liver. Dr. Pierce's Golden Medical Discovery is more than equal to the vultures of dyspepsia and its kindred diseases. There is no more need of suffering from dyspepsia than there is of hanging one's self. Sold by all medicine dealers the world over.

"Going into a decline." How often do we hear this expression. What does it mean? It means that people are losing flesh, growing thin, wasting.

The way to correct this condition is to improve the digestion. The condition arises from an inability to eat and digest food. In fact food does more harm than good because it ferments and putrifies in the stomach, developing poisonous substances which when absorbed cause various disorders.

What is required is that the stomach be made to perform its duties. The Shaker Digestive Cordial is a food already digested and a digester of foods as well. It will make the stomach healthy. Get a book from the druggist and read about it.

**HOLOCAUST AT PARIS**

TWO HUNDRED OF THE CITY'S ARISTOCRACY DEAD.

Caught While Attending a Bazaar for Charity and Roasted to Death by the Dozen—Bloodcurdling Scenes During and After the Conflagration.

Paris, May 5.—All Paris is in a state of great excitement over the terrible disaster at the charitable bazaar in the Rue Jean Goujon. How many are dead is not positively known. The building caught fire while it was crowded with the nobility, wealth and fashion of Paris and before all got out the roof fell in. The first report was that thirty-five were killed. The bazaar is given annually for the benefit of the poor of Paris and its managers are leaders in the fore front of high society. The managers of the bazaar had arranged the stalls so as to represent a street of old Paris, and it was opened Monday. The proceeds of the sales at each stall were devoted to a separate charity.

Many of the Noblesse Are Victims.

Enormous crowds of people gathered around the scene of the fire. Among them were a large number of liveried servants inquiring for their mistresses, and the indications were that among the dead would be a number of the French aristocracy, although it was hoped that the missing ones might be found among the injured who are at the hotels, hospitals or other places. Twenty corpses and a number of the most seriously injured were taken to the right wing of the Palais D'Industrie. Before the firemen could arrive the roof of the bazaar crushed in, burying numbers of those who had been unable to make their egress from the building. Very soon after the alarm was given assistance was hurried to the burning bazaar and effective help was rapidly organized between the firemen and the police.

Roof Collapses on the People.

Although an alarm was sent out with reasonable promptness the whole wooden structure was blazing before the firemen could approach the bazaar, the roof and almost the whole building collapsed, falling upon the unfortunate people, many of whom are supposed to have previously succumbed to the stifling smoke. In spite of the efforts of the firemen some time elapsed before the charred bodies could be pulled from the smoking and burning mass of debris covering the spot which but a short before had been the scene of so much gaiety. In the meanwhile the pumps played on the burning ruins. As the work progressed and the inquiries became more numerous and pressing it was seen that the death rate would be much higher than at first estimated. The police officials say they believe it to be certain that the number of deaths will exceed 100, recalling the terrible fire at the Opera Comique.

**DEATH STRIKES IN HIGH PLACES.**

Names of a Few of the Lost—Many Children Have Perished.

The following are among the identified dead: Comtesse Mirimel, Comtesse Brodeville, M. Victor Casselin, Sister Leonie Guillaume, Mesdames Hausmann and Schlumberger, Comtesse Humelstein, Marquise des Maisons, Mme. Ventimille, Mme. Hosker (wife of the well-known Russian banker), Mme. Potevin, Mme. Jacques Hausmann, the daughter of M. Sheville, and Mlle. Mandat-Grancey. Among the badly injured are: Duchess de la Tor, Comtesse Roncey, Count Montclair, Count Devlin, Mesdames Macedo, Reucamier, de Laume, Hyster, Edouard Andre, De la Tour Dupin, Malezieux and M. Lefebvre.

The whole of the highest society in Paris is in a horrible pell-mell, a prey to the deepest despair, husbands seeking and calling for wives and fathers seeking and calling for daughters. One young woman, still wearing on her breast the badge of a stall attendant, was seen rushing about in her petticoat, her dress having been torn off to be thrown over a lady who was in flames. Her own anxiety was to find her parents and tell them of her safety. Words would fall to describe the horror of the scene at the Palais de L'Industrie, where the bodies are exposed on the side next to the Avenue Babouin, in a portion of the building now in course of demolition. Here in a large room rudely covered with rough planks, and on sheets spread over planks, the bodies as they arrive from the ambulances are being placed in three long rows.

Here is exemplified death by fire with all its horrors, bodies completely nude, limbs twisted in the writhings of agony, some still having shreds of clothing which assist recognition in spite of horrible disfigurement, bones visible through fire-eaten flesh, some merely skeletons or grinning skulls blackened with smoke. Many Americans and English were among the stall-holders, but it is impossible as yet to give the names of all the lost. The flames licked most of those who escaped, and dressings were burned from the backs of their wearers, who tore off their blazing hats as they rushed from the building, their heads singed to the roots of their hair. The clothing not burned off was literally torn off. No painter ever imagined a Last Judgment so appalling. The girl who ran through the streets skiffless to tell her mother of her safety had charge of the wooden horses in the bazaar. It is impossible to say how many children were on them at the time, or how many perished.

Civil Service Reform at Chicago. Chicago, May 4.—Mayor Harrison has removed John M. Clark and Christopher Holtz, the Republican members of the civil service commission, on a charge of incompetency and neglect of duty. Adolph Kraus, Democrat, was appointed to succeed Clark, and ex-Mayor Hempstead Washburne, Republican, to succeed Holtz. Mayor Harrison endeavored to secure the resignations of the two commissioners, but they refused as a matter of principle, and the mayor then directed their removal.

**BICKFORD AND COLE TO SUE.**

Montana Commissioners Will Ask Damages for Libel.

Helena, Mont., May 5.—Judge Walter M. Bickford and Dr. C. K. Cole, late members of the state capitol building commission, who were removed by Governor Smith, have determined to bring suit against Representative Fred White-side for damages for alleged defamatory statements. The statements were made in a report to the legislature as the minority of a committee appointed to investigate the affairs of the commission, in which the representative said that the commissioners had been guilty of collusion in selecting the plans and in letting contracts for the work. White-side, it was supposed, had the privilege, as a member of the legislature, of making the report without being liable, but it will be contended in the action that in giving out copies of the report to the newspapers prior to its presentation to the house, when it became a record, he has no right to claim his privilege. White-side also made a statement for publication the night the legislature adjourned, and it will be claimed that the statement was given out after 12 o'clock, when the legislature had adjourned, and that in fact he was no longer a member then and not entitled to the benefit of his privilege. The commissioners will ask for \$10,000 each.

**Found an Alleged Gold Mine.**

Ann Arbor, Mich., May 1.—There was considerable excitement in this city over the discovery of an alleged gold mine. Laborers have been working for the past few days on the farm of Dr. Willard B. Smith, just outside the city, boring a well. A quantity of yellow metal was thrown up which had all the appearance of gold. Dr. Smith has taken several specimens to the university and has also sent some to the United States mint at Philadelphia. Several mining experts were on the ground and claim that the source of this metal is a vein, it being at first expected that perhaps it was only a pocket. The metal does not have the amount of sulphur and iron which is usual with ore of similar assay, if it were not gold.

**HOW TO FIND OUT.**

Fill a bottle or common glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys.
