Two Armies—the Regular and Irregular!

To which would you prefer to belong? The regular, undoubtedly. The irregulars are, admittedly, the most numerous, but they are in a very undesirable state of discipline. Hostetter's Stomach Bitters will soon remedy this want in a disordered liver or bowels. Biliouness manifests itself in yellowness of the skin and eyeballs, sour breath, furred tongue, morning nausea, discomfort in the vicinity of the liver, vertigo and sick headache. Hosts of people suffer thus. These signs of insubordination to the governance of health, together with an irregular condition of the bowels, are soon regulated by the Bitters, which also overcomes malaria dyspepsia, rheumatism, neuralgia, nervousness and kidney trouble. As a means of checking premature decay, hastening convalescence, and mitigating the infirmities of age, the great tonic is without a parallel.

Colonel Snyder Making an Inspection at Mackinac Island.
 Mackinac Island, Mich., July 5.—Colonel Snyder, Nineteenth United States Infantry, stationed at Detroit, has been here a couple of days under orders from the war department inspecting the historic Fort Mackinac and making an estimate of what it will cost to renovate the fort and buildings to fit them for occupancy again by troops. This is a primary step looking toward the re-establishment of the fort by the United States government, in accordance with an offer of the legislature to return the fort for this purpose. The war department has the matter under consideration, and it cannot act until Colonel Snyder's report is received, as the first requisite for such action is an appropriation by congress.

It may be worth something to know that the very best medicine for restoring the tired out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centers in the stomach, directly stimulates the liver and kidneys, and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c or \$1.00 per bottle at W. MICHIGAN MELANGE.

NEWS OF GENERAL INTEREST TO OUR READERS.

Important Happenings in the State During the Past Few Days Reported by Telegraph—Matter Selected for the Benefit of Our Own People.

Manistee, Mich., July 5.—Lake Ann, a village of nearly 1,000 inhabitants, is almost isolated as the result of a disastrous fire that swept the town Saturday afternoon. All wire connections are cut off through the burning of the station. The fire started in Habler's stove mill, swept across the track to the south, taking the station and hotel. The business portion suffered and most of the residences are destroyed. The inhabitants had to flee for their lives.
 Mrs. Masters, aged 80, was cremated. She escaped once from her burning dwelling, but return for valuables, when the building collapsed. It is feared that others are burned, as some are missing. The losses amount to \$100,000, insurance not to exceed one-fourth of the damage.

Traverse City, Mich., July 6.—Reports from Lake Ann Sunday morning state that only sixteen buildings remain in the place. The grist mill, one saw-mill, just outside the town, and a hoop factory, which is the only business place in the village limits, are saved. While there are three or four persons unaccounted for it is thought that they are away attending the celebration. The people burned out are in desperate straits. Traverse City sent a relief train with several hundred loaves of bread, tea, coffee, etc., and 360 loaves of bread the next day.
 Other provisions, bedding and clothing are now being collected and will be sent with other supplies. Of the seventy-five families, all grown males were employed in the factories and stores destroyed. They are now absolutely without means of support and have nothing left in the world. There will be little if any building this summer, and the unfortunate will be forced to move. Several families found friends here. The total loss will reach \$125,000.

WANTS A NEW POLITICAL PARTY.

Michigan Man Who Cannot Find Any in Existence to Suit Him.
 Detroit, July 6.—Colonel E. H. Sellers, of this city, who has been a prominent member of the A. P. A. and an organizer in patriotic association movements, has mailed several thousand copies of an address urging the formation of a new political party and calling a convention for that purpose at St. Louis Aug. 25. Colonel Sellers says that the address is authorized by a committee consisting of a member from nearly every state. It declares that the people's government is being supplanted by a union of the old political parties with corporate power.
 The document urges "immediate action toward the formation of a new American party, embracing a national, individual, American republican form of government, with an autonomy of its own, and divested of all the primitive, barbarous conditions of the world that have conspired in the past to enslave the conscience and political life of mankind."

The fondest anticipation in a woman's life is when she is looking forward to the coming of the sweetest babe.

A little bundle of humanity that will some day call her mother. It is a pity that this joyous expectancy should ever be clouded with solicitude and dread of the physical ordeals that motherhood involves. There is no need of this excessive anxiety if the prospective mother will avail herself of the health-sustaining power of Dr. Pierce's Favorite Prescription taken early during the expectant period. The special organs and nerve-centers pertaining to maternity are directly fortified and reinforced by this wonderful "Prescription." It gives the mother genuine, permanent capacity and cheerfulness. It renders the ordeal of motherhood absolutely safe and comparatively easy; insures against subsequent relapse and prostration; promotes ample and healthful nourishment for the child and endows it with natural constitutional vigor.

For nearly thirty years Dr. Pierce has been chief consulting physician to the Invalids' Hotel and Surgical Institute of Buffalo, N. Y. Any woman may consult him either personally or by letter free of charge, and with absolute assurance. He will receive a paper-bound copy of Dr. Pierce's thousand-page illustrated book, "The People's Common Sense Medical Adviser," or a handsome cloth-bound copy, for thirty-one stamps.

Mrs. Fred Hunt, of Burnt Hills, Saratoga Co., N. Y., says: "I read about Dr. Pierce's Favorite Prescription being so good for a woman with child, so I got two bottles last September, and December 13th, I had a twelve-pound baby girl. When I was confined I was not sick in any way, I did not suffer any pain, and when the child was born I walked into another room and went to bed. I never had an after-pain or any other pain. This is the eighth child and the largest of them all."

Dr. Pierce's Favorite Prescription is a health-sustaining power for the expectant mother. It gives the mother genuine, permanent capacity and cheerfulness. It renders the ordeal of motherhood absolutely safe and comparatively easy; insures against subsequent relapse and prostration; promotes ample and healthful nourishment for the child and endows it with natural constitutional vigor.

 Turn to your Webster—it reads "an ignorant practitioner."
 Ask yourself the question: Can a man be ignorant who cures after multitudes of others fail? Is he not superior to the mass? Does not such ability denote intelligence of a superior—of the highest order? Isn't the cry of "quack" oft times the cloak under which the really ignorant ones hide? You can come to but one conclusion. That is evident to all thinking ones alike. It is far better, it is the best method possible to consult one who shows, not by claims, but by actual deeds performed, that he merits confidence. Dr. Otman, the specialist of Columbus, O., is such a one. Training has made him what he is. Patient research so fully equipped him to battle successfully with disease in all its multitude of forms. Years of toil have given him the insight which he possesses, and which aids him in his success. Is it any wonder then that he is always beset with alling ones anxious to find relief from their sufferings.

 The dyspeptic carries a dreadful load on his back. It seems as if he were really made up of two men. One of them ambitious, brainy and energetic; the other sick, listless, peevish and without force. The weak man weighs the other one down. The dyspeptic may be able to do pretty good work one day, and the next day because of some little indiscretion in eating, he may be able to do nothing at all. Most cases of dyspepsia start with constipation. Constipation is the cause of nine-tenths of all human sickness. Some of its symptoms are sick and bilious headache, dizziness, sour stomach, loss of appetite, foul breath, windy belchings, heartburn, pain and distress after eating. All these are indicative of derangements of the liver, stomach and bowels, all are caused by constipation. Dr. Pierce's Pleasant Pellets are the quickest, easiest and most certain cure for this condition. They are not violent in action. Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1085 page Common Sense Medical Adviser, illustrated.

The young woman is enthusiastic over the coming trip to the frozen zone.

Waiters and "Why Not?"

I have been preaching for years that it is stupidly academical and pedantic to exclude such truly inspired pieces as Strauss' waltzes from the programmes of our symphony concerts, but against stupidity, as Schiller has remarked, the gods themselves fight in vain. A symphony is considered all right though it be the veriest trash, but a waltz that is a product of pure genius is tabooed unless it is smuggled into a symphony, as by Tschaiakowsky. What makes the situation the more peculiar is that pianists of the highest caliber never hesitate to insert waltzes by Chopin or Strauss on their programmes. But, then, pianists are their own bosses; they have no academic board of directors.
 The taboo placed on the Strauss waltzes by the minor professional musicians who regulate orchestral concert affairs is seen in its full blooded asininity when we bear in mind how the greatest composers of our century have honored and admired Johann Strauss. To begin with the two anti-podes, Brahms wrote on Mme. Strauss' fan the first bars of the "Blue Danube Waltz," with the words, "Not by Brahms, I regret to say." And Richard Wagner wrote in 1863 that "a single Strauss waltz surpasses in charm, refinement and genuine musical value most of the imported and often laboriously manufactured products of foreign musicians." It is often said that Wagner undervalued his contemporaries, but Liszt, Franz and Strauss are decided exceptions. Moszkowski relates that once at a dinner Wagner proposed a toast "to all musical geniuses from Bach to Johann Strauss," and it is known that he often played his waltzes at Baireuth with more animation than skill. Liszt's admiration for Strauss was equally genuine, and his greatest pupil, Tausig, arranged some of these waltzes for piano, con amore.—Henry B. Fink in Looker On.

HOW TO FIND OUT.
 Fill a bottle or common glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

What To do.
 There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain in passing it, or bad effect following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists; price fifty cents and one dollar. For a sample bottle and pamphlet, both sent free by mail, mention The Times and send your full post-office address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.
