The Grandest Remedy

Mr R. B. Greeve, Merchant of Chilhowe, Va., certifies that he had consumption, was given up to die, sought all medical treatment that money could procure, tried all cough remedies he could hear of, but got no relief; spent many nights sitting up in a chair; was induced to try Dr. King's New Discovery, and was cured by using two bottles. For past three years has been attending to business, and says Dr. King's New Discovery is the grandest remedy ever made as it has done so much for him and also for others in his community. Dr. King's New Discovery is guaranteed for coughs, colds and consumption. It don't kill. Trial bottles free at W. E. Collins & Co.'s drug store.

Common Council.

Common Council Room, Owoosso, Mich., July 12, 1897. Minutes of last two meetings read and approved. Ald. Wiley presented following petition, which was referred to committee on abatement of nuisances.

To the Honorable Mayor and Common Council of the city of Owoosso, Mich.: Your petitioners who are residents and proprietors of this city respectfully represent that it is the custom of certain merchants and others to burn large quantities of paper, straw, excelsior, old barrels and boxes, together with garbage from the groceries, in the vacant spaces in the rear of the stores in the business blocks of this city, thus seriously endangering the safety of the buildings, property, and also to the great annoyance and serious detriment of the people who occupy the buildings as residences, offices, and other purposes. It is a well known fact that the city has several times very narrowly escaped disastrous conflagration from the burning of refuse as above stated. Therefore we respectfully request that you take means to prohibit the burning of such rubbish in the business blocks as above stated, and to compel the occupants of said business places to dispose of all such refuse in some other way. And your petitioners will ever pray. Josiah Thompson and 29 others.

Following claims and accounts were presented and referred to the committee on claims and accounts.

A Parisian Cafe. One of the most remarkable features of Paris is the cafe. There is nothing just like it in England nor America, nor, for that matter, anywhere else in the world.

The peculiarity of the Parisian cafe is that the guests sit and do their eating and drinking not within the building but out upon the sidewalk. During the day, when the patrons are few, they keep close to the building in the shade of the awning, but at night the chairs greatly increase in number and push far out upon the flags, and often beyond the curbstone into the roadway, and the pedestrian, as he passes along the boulevards, which for miles are thickly lined with these shades, is continually threading his way between and among the chairs and tables where the Parisians, with their wives and sweethearts, are eating, sipping their light drinks and enjoying life as apparently no other people in the world enjoy it.—The Chattanooga.

Health and strength carry us through dangers and make us safe in the presence of peril. A perfectly strong man with rich, pure blood has nothing to fear from germs. He may breath in the bacilli of consumption with impunity. If there is a weak spot where the germs may find an entrance to the tissues, then the trouble begins. Disease germs propagate with lightning-like rapidity. Once in the blood, the only way to get rid of them is to kill them. This is what Dr. Pierce's Golden Medical Discovery is for. It purifies the blood. That means that it kills the germs, but that is only part of what it does. It assists digestion by stimulating the secretion of digestive fluids, so promoting assimilation and nutrition; purifies and enriches the blood and so supplies the tissues with the food they need. It builds up strong, healthy flesh and puts the whole body into a disease-resisting state.

MICHIGAN MELANGE.

NEWS OF GENERAL INTEREST TO OUR READERS.

Important Happenings in the State During the Past Few Days Reported by Telegraph—Matter Selected for the Benefit of Our Own People.

Detroit, July 13.—George Van Ness Lothrop, who died in this city yesterday morning as the sequel of prostration a week ago by the heat, was one of the most distinguished men of Michigan and his career was in every way a credible one.

He first entered the Wolverine State when about 12 years of age and began life in the west on a farm owned by his brother in Kalamazoo county.

For years he did all the rough work, and laid the foundation of the sturdy constitution that had carried him through eighty years of hard intellectual labor. Graduating in law, he settled in Detroit in 1843 and rapidly rose to a high position in his profession.

He was never so very conspicuous or prominent in politics, preferring to devote his attention almost entirely to legal work. At one time he ran for congress, but was defeated, and in 1860 led the Michigan delegation to the Charleston national convention, in which he voted for Douglas. He was the principal American diplomat at St. Petersburg during the first Cleveland administration.

Mr. Lothrop retired from the practice of law in 1876 and since that time had lived in retirement. He leaves two sons and two daughters living. One of the latter is the wife of Baron Honus, and lives at St. Petersburg.

CROPS IN MICHIGAN. Harvest Will Be Two Weeks Later Than Last Year.

Lansing, Mich., July 10.—The average yield of wheat per acre in the state, as estimated July 1, is 12.36 bushels, in the southern counties 13.27 bushels, in the central 10.20 bushels, and in the northern 12.40 bushels. These estimates are based on nearly 1,100 reports, nearly 700 of which are from the southern counties, and 300 from the central counties. The estimate for the state is 8-100 of a bushel less, and for the southern counties 2.03 bushels more than the estimate of the 1896 crop made July 1 of that year.

The supervisors' returns of farm statistics, so far as footed, indicate practically the same acreage as harvested in 1896.

Harvest will not be general even in the southern counties before the 15th. This is more than two weeks later than last year, when harvesting was begun in the extreme southern part of the state as early as June 16, and the cutting was about completed throughout the southern counties by July 4.

The number of bushels of wheat reported marketed in June is 490,278, as compared with 549,883 reported marketed in June, 1896, and the amount marketed in the eleven months, August-June, is 9,456,582 bushels, as compared with 8,669,482 bushels in the same months last year.

The area planted to corn is estimated at 4 per cent. less in the state and 5 per cent. less in the southern counties than in average years. In condition the crop averages in the state, southern and northern counties 75, and in the central 76.

The average condition of oats is 88. The acreage planted to potatoes is estimated at 18 per cent. less than in average years in the southern counties and the state, 19 less in the central and 16 less in the northern counties. The average condition of the crop is now 88.

Apples are estimated to yield less than one-half and peaches less than one-fourth of an average crop.

His Wife Has Elopel with a Boy. Terre Haute, Ind., July 13.—George Flagler, a farmer near Vincennes, has notified the authorities that his wife has eloped with Fred Huffman, an 18-year-old youth. Mrs. Flagler is old enough to be the boy's mother. Flagler was away from home at the time of the elopement and when he returned found that his wife had left two children in the house alone, not knowing how soon her husband would return from his trip.

Feb. 15, when Stiles' six years of service expired. The governor has, therefore, appointed Harmon T. Holmes of Chelsea to fill the alleged vacancy. Two attempts to fill it when the legislature was in session having failed because of the rejection of T. C. Brooks of Jackson, and the ineligibility of William Jackson of Ann Arbor. It is not improbable that the question raised by Holmes' appointment will find its way into the courts.

Governor Pingree also made the following additional appointments Thursday: Member of state board of law examiners, Floyd E. Mechem of Ann Arbor; member of the state live stock sanitary commission, J. H. Brown of Climax; members of the board of control of the northern asylum for the insane at Traverse City, Harry C. Davis of Traverse City and John Haywood of Bad Axe.

UNIVERSALISTS IN CONVENTION. Dr. Schweitzer Councils Harmony in Settlement of Church Dispute.

Detroit, July 12.—The Universalist Young People opened their national convention with a devotional meeting on the topic, "Confidence in Victory," led by Rev. Leslie Moore of New Hampshire. Dr. Schweitzer of Philadelphia addressed the convention, counseling harmony in settlement of the dispute between the union and the general convention of the church on account of the

absorption by the union of the functions of what was formerly the Young People's Missionary society. Action on this question will be taken later.

The remainder of the morning session was taken up in the raising of a \$100 deficit in the treasury of the union. Dr. George L. Perin of Boston took charge of this and succeeded in raising over \$1,000. Congresses of local committees were held in the afternoon and the delegates took an excursion to Palmer park, where they were received and entertained by ex-Senator Thomas W. Palmer.

GROSS NEGLIGENCE. No Apparent Excuse for the Recent Accident at Bay City.

Lansing, Mich., July 14.—Mechanical Engineer Moore, by direction of Railroad Commissioner Wessellus, has made an exhaustive investigation of the accident on the Inter Urban railway at Bay City last week, which resulted in the loss of seven lives. In his report made to the commissioner, he says that it is patent that the company had in force no rules requiring that cars be brought to a standstill on approaching the draw bridge, and that it was a common custom to proceed without stopping unless upon a clear signal from the bridge tender. He expresses the opinion that the accident must have occurred through gross negligence or a lapse of human faculties on the part of the motorman and conductor, for the reason that there was a clear view of the bridge and draw for more than half a mile.

The construction of a derailing and signaling system was ordered and agreed to by the company, the only reliable and sure safeguard against such accidents being derailleurs constructed and interlocked in such a manner as to compel the cars to be stopped before the danger point is approached. The report calls attention to the fact that there are three draw bridges in Saginaw and one in Bay City where similar provisions against accidents should be made.

No Style About This Wedding. Mason, Mich., July 14.—W. H. Dixon, Auditor General, and Miss Maud Haynes, of Dundee, were married Monday in this city. They drove from Lansing in the sweltering heat, and asked all whom they met to keep the wedding quiet. County Clerk Gunn said the couple were dressed in every-day summer apparel and that the groom needed a shave. He promised not to publish the license, and directed the couple to the house of a Baptist minister, who performed the ceremony. After the sun went down they drove back to Lansing.

Strike of Miners of Gold. Ishpeming, Mich., July 14.—The miners at Ropes' gold mine, forty in number, have struck for back wages. Clarence R. Ely, secretary of the company, disappeared mysteriously two months ago, and though his accounts are correct the men grew suspicious of the ability of the company to pay. The mine has been running continuously for thirteen years, and has produced nearly \$1,000,000 in bullion.

Fill a bottle or common glass with urine and let it stand twenty-four hours; a sediment of settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

What to do. There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain in passing it, or bad effect following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists; price fifty cents and one dollar. For a sample bottle and pamphlet, both sent free by mail, mention The Times and send your full post-office address to Dr. Kilmer & Co., Binghamton, N. Y.
