

A Great Truth.

How it has spread in Michigan—Muskegon Falls in LaSalle.

The trumpet notes of "The Little Conqueror" have sounded far and near in the triumphal march through Michigan. From the crowded city to the hamlet the echo is resounding, bringing words of hope and good cheer to thousands of sufferers. Public endorsement is its strength, and that is why success follows each advancing step. People are beginning to understand that there is no proof like home proof. Muskegon has produced several such cases as that of Mrs. Olin, Sleigh, and they like to read and know about them, for it means comfort to all.

Mrs. Sleigh is a citizen of Muskegon and resides at No. 260 Lake St. She says: "I could not speak words of praise that would be strong enough to tell what I feel for Doan's Kidney Pills. My trouble seemed to be the result of a severe attack of the grip which I had about four years ago, and it developed into a genuine kidney affliction. During these years I have suffered everything. At times the misery has made me wish I were dead. My back was in a terrible condition. I had spells of such severity that the pain would force me to walk bent over for a whole week. I could not stand up straight. The flesh on my back over the kidneys was sore to the touch, the bladder became affected as well, and I have suffered with it more than tongue can tell. The urine was scanty, and at times would not come at all. There was much inflammation, causing fever and an intense burning and stinging feeling. I was feeling badly when I commenced taking Doan's Kidney Pills, which I procured at Brundage's drug store. They have done great things for me. I now feel like another person. My terrible backache is better, the urine comes naturally, and my strength and nervous system are greatly improved. I shall continue taking Doan's Kidney Pills for some time yet. You can use my endorsement of them; I am glad to give it."

GALVESTON NOW HAS IT

Yellow Jack Appears in an Epidemic of the Mysterious "Dengue."

QUITERAS HUNTS DOWN FOUR CASES

And Finds a Few More That Have Recovered—New Orleans Reports Thirty-Seven New Cases and Five Deaths Yesterday.

Galveston, Tex., Oct. 11.—Before a meeting of the Galveston board of health yesterday Dr. Quitaras made the following statement: "I have reported to Surgeon General Wyman and communicated to Health Officer Fisher, County Physician Warfield and Acting Mayor Skinner, that there are five cases of yellow fever here and three cases that have recovered from the disease. There is no doubt in my mind as to the correctness of the diagnosis in four of these cases. I have been very careful, and have made no statement as to any cases without close personal examination. The cases are scattered, and seem to have no connection. They appear to have developed in a quite confusing way, and are mixed with dengue fever. There is one at the Sealy hospital. I have reported two at St. Mary's infirmary, but find that in one at the infirmary I was mistaken." The opinion of a majority of the physicians here is that there is no yellow fever at Galveston, but that a type of dengue fever has existed for the past sixty days, and that there have been 15,000 cases of dengue and not a single death.

CITIZENS SAY IT IS ALL ONE FEVER.

A meeting of citizens of Galveston has been called for the purpose of asking Dr. Wyman to keep Dr. Quitaras here until he has had time to report fully on all suspicious cases. Galveston was somewhat excited Saturday night, but yesterday the city was quiet. The Santa Fe is the only railroad open. All other roads were cut off Saturday night before any one could get out of town. The Santa Fe took out seventy-five persons Saturday night and its departure on yesterday's train. Forty-two people are booked for New York by steamer which sails today and forty people have left by boat for bay shore points. This constitutes the total emigration from here. The citizens claim that if these four cases are yellow fever, then thousands of citizens have it, as there have been thousands of cases similar to the cases pronounced by Dr. Quitaras to be yellow fever.

Official Report from New Orleans.

New Orleans, Oct. 11.—The fever situation here grew no better yesterday. Early in the evening there was a promise that Saturday's record would be equalled if it was not exceeded. New cases appeared in various portions of the city. There were several deaths, and in one case the fatality occurred not long after the report of the case was brought to the attention of the board. Two of the deaths were in Carrollton, which—relative to population—has furnished more fatal cases than any locality in the city. The official report of the board of health is as follows: New cases, 37; deaths, 5; total cases to date, 677; total deaths, 61; total cases under treatment, 276.

Four Physicians Are Down.

Among the new cases is that of Mrs. Sampson. Her husband, Dr. Sampson, and their son were taken ill two or three days ago, and the infection has spread in the premises. Another physician is on the list of cases reported yesterday Dr. Otto Lerch, but he is not reported to have a serious attack. Dr. Barnett and Dr. Howard Olliphant are both reported to be progressing favorably towards recovery.

At Edwards and Mobile.

Jackson, Miss., Oct. 11.—There are no new cases of yellow fever at Nitta Yuma. At Edwards there are nine new cases and one death.

Mobile, Ala., Oct. 11.—Seven cases of yellow fever, two deaths in the city and one at Magazine Point, three miles distant, and three recoveries, make the record for this city for yesterday.

Four Deaths at New Orleans.

New Orleans, Oct. 12.—Following is the daily yellow fever report: New cases, 38; deaths, 4; total cases to date, 616; total deaths to date, 65.

At Nitta Yuma there was one death, no new cases; at Mobile five new cases, no deaths; at Edwards, five new cases, two deaths.

WHACK AT THE INJUNCTION

Taken by the Court of Appeals of Colorado in a Commercial Case.

Denver, Oct. 12.—Judge Wilson, of the court of appeals, with Judges Thompson and Bissell concurring, handed down an opinion yesterday in which he makes a vigorous attack on "government by injunction." In the case of H. Schradzick vs. the Appel Clothing company, wherein the plaintiff was given a perpetual injunction by the lower court restraining the defendant from advertising a certain stock of goods as bankrupt stock, the court of appeals reverses the decree and remands the case to the trial court with instructions to dissolve and dismiss the bill. "We cannot approve a practice," said Judge Wilson, "nor subscribe to doctrine which permits the exercise by the courts of the extraordinary power of injunctive relief for every wrong or infringement upon the rights of another. Such a course of procedure, if carried to its ultimate natural conclusion, would tend to entirely subvert the fundamental principles upon which our system of laws is founded."

Dr. Bolton Exonerated.

Chicago, Oct. 11.—At the Rock River conference of the Methodist church the committee appointed to investigate the charges against Dr. Bolton declared him guiltless, wholly exonerated him and his character was "passed" to his new conference. This was unanimously indorsed by the conference without comment. It was agreed that the demands of the laymen for equal representation in church government should be taken up today.

City Dads Legally Declared Corrupt.

Des Moines, Ia., Oct. 9.—The supreme court yesterday adjudged guilty of willful and corrupt misconduct in office the board of aldermen of Dubuque who passed a resolution raising their salaries, in 1895. The lower court erroneously sustained the demurrer which claimed that the councilmen were not guilty because they had to pass on the doubtful meaning of the special charter under which the city was operating.

TALKING IN THE LUETGERT CASE.

Small Amount of Sur-Rebuttal Evidence Offered and Arguments Resumed.

Chicago, Oct. 12.—The defense in the Luetgert case closed its sur-rebuttal in an hour yesterday, except a few witnesses it reserved the right to introduce later. Several business men rehabilitated the reputation of William Charles for truth and integrity, which had been impeached by two to whom he is in debt or has been. Two other witnesses swore there were hundreds of pounds of grease in the factory on May 1; another swore that Odorofsky had testified to Justice Kersten that he was not in the factory on May 1.

Odorofsky explained that when he testified by saying that he could not properly understand the Kersten examination because it was in German instead of Polish. He knew enough of German, however, to get along with Luetgert, who cannot talk Polish. The last witness and probably the most important was not permitted to testify by the court. Mrs. Feldt had sworn that Mrs. Charles wanted her to swear the rings found in the vat were not Mrs. Luetgert's.

Mrs. Charles had denied this. On cross-examination the defense asked Mrs. Feldt several questions evidently intended for impeachment purposes on sur-rebuttal. By the witness introduced yesterday the defense proposed to prove that Mrs. Feldt had sworn falsely regarding these facts, and the judge ruled the testimony out. McGewen began the argument for the state and occupied the balance of the day.

FATAL TROLLEY CAR DISASTER.

One Person Killed, One Mortally Hurt and Fourteen Injured.

Des Moines, Ia., Oct. 12.—A dispatch from Cedar Falls, Ia., says: A trolley car loaded with passengers on the Waterloo and Cedar Falls Rapid Transit line was precipitated over a thirty-foot embankment three miles from this city. One Myers, a traveling man, was killed outright and ten others hurt severely. Sixteen people were in the car at the time and all were more or less injured. Those severely injured are: A. Rethling, Cedar Falls, scalp wound; Alice Crotty, Waterloo, internal injuries; Miss Flickinger, Cedar Falls, face cut; Frank Foulk, State Normal school, rib broken.

Others hurt are: D. B. Morrison, Winona, Minn.; J. O. Waldron, with Marshall Field, Chicago; Charles Cunningham, Clara Sine, and Kittle Townsend, students, State Normal school; Henry Flint, Cedar Falls; E. B. Tibbets, motorman, Cedar Falls; Franklin La Tier, conductor, Cedar Falls; Claude Cass, and Clara A. Hunt, students, State Normal school; Lulu Bovee, Cedar Falls.

W. H. Morton, of Chicago, lies unconscious in the Tremont hotel, and will probably die. The boiler at the power house was being repaired and the summer cars provided for city use were being used instead of the regular coaches.

DIVIDES HONORS WITH BOSTON.

Baltimore Wins the Temple Cup from the Pennant Winners.

Baltimore, Oct. 12.—The Temple cup will stay in Baltimore another year. It has been won twice in succession for the first time in its history, and if the Orioles take it again it is theirs absolutely. The former champions also take 60 per cent of the money paid at the gates during the three games in Boston and the two played here, while the winners of the pennant will get but 40 per cent, unless—as is generally believed—the players have agreed among themselves to divide the spoils equally. Yesterday's game, like all the others of the series save the first one, was an easy proposition for the Baltimoreans, who won much as they pleased, by the score of 9 to 3.

INDIANAPOLIS ELECTS TAGGART.

Also the Rest of the Democratic City Ticket—Gains in Republican Wards.

Indianapolis, Oct. 12.—At 10 o'clock last night the Republicans had conceded the election of Mayor Taggart, Democrat, by 5,000, and the rest of the Democratic ticket by from 3,000 to 4,000. It is hard to figure gains and losses on account of recent changes in precinct boundaries. Ex-President Harrison's precinct shows a large Democratic gain; in fact, the Democrats made heavy gains in Republican strongholds.

Sherman and Salisbury.

Washington, Oct. 12.—Secretary Sherman has written a reply to the note of Lord Salisbury expressing great Britain's declination to take part in a Behring sea conference in which Russia and Japan are to participate. The essential features of Sherman's reply have been sent by cable to the British government, and the reply in full is now on its way to the British authorities. Lord Salisbury's note of declination, it can now be stated, bore date of Oct. 6, last Wednesday, so that the response is made with promptness. The answer states that the United States government views with astonishment the determination of Great Britain not to participate in a conference including Russia and Japan, and the statement is made that up to the 23d of last month the United States authorities had fully expected that the conference would proceed with Russia and Japan, as well as Great Britain, present.

Council of Railway Union Chiefs.

Peoria, Ill., Oct. 13.—The conference of grand chiefs of the railway brotherhoods, called to consider the plan of an international federation for mutual co-operation and assistance, transacted no business pending the arrival of Grand Chief Arthur, of the engineers. It is plain that the sentiment is strongly in favor of federation, the plan having been indorsed by the conventions of the firemen, the trainmen, the railroad telegraphers and the conductors.

Iowa Soldiers' Home Trouble.

Marshalltown, Ia., Oct. 13.—The Iowa Soldiers' Home commissioners met yesterday, and after an all day session selected Colonel C. C. Horton, of Muscatine, as commander of the home, to succeed Colonel J. R. Ratekin, who was recently practically forced to resign on account of the opposition of certain members of the board.

Debs' Colonization Plan.

New York, Oct. 11.—Eugene V. Debs spoke to an audience of 1,000 men and women. Colonel Richard Hinton, a member of the colonization commission of the Social Democracy, outlined the plan of the commission and said that within a month they would be able to colonize 5,000 families in one of the great western states.

Inherited Blood Taint.

Here is a case of inherited blood taint which resulted in what threatened to be a complete wreck of an innocent young life. The most serious feature of being afflicted with a blood disease is the fact that innocent posterity must suffer. The man or woman with the slightest taint in the blood forces the undesirable legacy of impurity upon their children whose veins flow with the impure inheritance which handicaps them in the race of life.

No child who has a trace of bad blood can be healthy or strong, and those predisposed to Scrofula are liable to a great deal of sickness, because their constitutions are weak and cannot withstand the many dangers which beset the path of childhood. Medical statistics show that a majority of lung troubles result directly from Scrofula, so that a child afflicted with this disease is likely to fall a victim to dreaded consumption.

Mr. W. A. Clayton, of Addie, N. C., believes S.S.S. is the only blood remedy which can have any effect whatever upon obstinate cases. He says: "My three-year-old boy had the worst case of Scrofula I ever heard of. He

was given many blood remedies without relief, and treated by the best doctors. He seemed to get worse all the while, however, and the disease finally resulted in curvature of the spine, making him utterly helpless.

"The bad sores on his neck increased in size, and were a source of constant pain. He was in this pitiful condition for two years, when some one recommended S.S.S., stating that it had cured some of the worst cases of blood diseases. As soon as his system was under the effect of the medicine, the sores began to get better, and in eight days were completely healed. Before long he could walk on crutches, and was improving every day. In three months he threw aside his crutches, for he had no further use for them; the dreadful disease had been eliminated entirely from his system, and he was restored to perfect health, so no sign of the disease has returned for ten years."

S.S.S. is a real blood remedy, and promptly reaches all deep-seated and obstinate blood diseases, it matters not what other treatment has failed. It is the only remedy which acts on the correct principle of forcing the disease from the system and getting rid of it permanently.

S. S. S. is a sure cure for Scrofula, Cancer, Catarrh, Eczema, Rheumatism, Tetter, and all other blood diseases. It is

Purely Vegetable

and is the only remedy guaranteed to contain no poisons, mercury or other harmful mineral.

Books on blood and skin diseases will be mailed free to any address by the Swift Specific Company, Atlanta, Georgia.

There is no word so full of meaning and about which such tender and holy recollections cluster as that of "MOTHER"—she who watched over our helpless infancy and guided our first tottering step. Yet the life of every Expectant Mother is beset with danger and all effort should be made to avoid it, so assists nature in the chancetaking place that the Expectant Mother is enabled to look forward without dread, suffering or gloomy forebodings, to the hour when she experiences the joy of Motherhood. Its use insures safety to the lives of both Mother and Child, and she is found stronger after than before confinement—in short, it "makes Childbirth natural and easy," as so many have said. Don't be persuaded to use anything but

"My wife suffered more in ten minutes with either of her other two children than she did altogether with her last, having previously used four bottles of 'Mother's Friend.' It is a blessing to any one expecting to become a MOTHER," says a customer. HENDERSON DALE, Carrai, Illinois.
