

The Woman Who Uses

GOLD DUST

Washing Powder
finishes her work as
fresh and bright as
her house is clean.

Largest package—greatest economy.
The N. K. Fairbank Company,
Chicago, St. Louis, New York,
Boston, Philadelphia.

Warren Stuart, of Toledo, was greeting friends in the city last Friday and Saturday.

Poisoned by Eating Cheese.

About thirty persons in this city and vicinity, as near as can be ascertained, have during the past week been made violently sick by eating cheese purchased from dealers here. Upon being isolated by Dr. Thompson, a slice from the cheese sold to the victims showed toxic crystals, which, viewed through a microscope, are objects of interesting study. The persons who were poisoned in this locality have all fully recovered. The cheese which contained poison was manufactured at the Byron branch of the Elsie cheese factory, and from other localities in Michigan have been reported cases of recent cheese poisoning. September 25th, last, is the date given when the unfortunate poisoned cheese was made at the factory.—*Cadillac News and Express.*

A case similar to the above is reported from Kalamazoo. The cheese manufactured both at Byron and Elsie has always been in great demand, being regarded as a superior article. It is unfortunate that a thing of this kind should occur.

A Whole Man.

A whole man is another name for a healthy man. One of the prime essentials of health is cleanliness. The first step in this direction is a clean skin. This fact is well known. Not only should the outside of the body be perfectly clean, but the interior of the body as well. Clean teeth, clean mouth, clean throat, clean nasal passages, are all requisites of perfect health. The whole body, as well as every organ in the body, is lined with mucous membrane, which is even more liable than the skin to become very dirty. The most frequent cause of unclean mucous membrane is catarrh. Catarrh creates unnatural secretions, even though the catarrh is very slight. In this condition good health is impossible.

Dr. Hartman has made a speciality of treating chronic catarrh for nearly 40 years. His great remedy (Pe-ru-na) has become known throughout the United States and Canada. It is certainly the best, and probably the only effective internal remedy for chronic catarrh. Its cures are permanent. The Doctor is also the author of many books on chronic catarrh. His latest book on the subject will be sent free for a short time by The Pe-ru-na Drug Mfg. Co., Columbus, O.

Ask your druggists for a free Pe-ru-na Almanac for 1898.

The Ann Arbor railroad company have let the contract for a \$1,200 ice house to be built at Whitmore lake. James Turnbull, of this city, has the job.

What do the Children Drink?

Don't give them tea or coffee. Have you tried the new food drink called GRAIN-O? It is delicious and nourishing and takes the place of coffee. The more Grain-O you give the children the more health you distribute through their systems. Grain-O is made of pure grains, and when properly prepared tastes like the choice grades of coffee but costs about 1/4 as much. All grocers sell. 15c and 35c.

Anyone who suffers from that terrible plague, Itching Piles, will appreciate the immediate relief and permanent cure that comes through the use of Doan's Ointment. It never fails.

Signs of a Wreck in the Lake.

Benton Harbor, Mich., Nov. 13.—Last evening wreckage was found two miles south of St. Joseph which looked like that from a boat that had fared badly from the recent storm. The name Sidney O. Neff was indicated on the painted logs. Cedar posts made up the cargo.

Why Not Abolish Deer Hunting?

Iron Mountain, Mich., Nov. 15.—Fred Cawling, 26 years old, manager of Wright Bros. extensive cedar business, was shot dead yesterday four miles from Channing. He was mistaken for a deer by an old hunter named Walmesley and shot in the back, the bullet passing through his heart. This makes the fifth fatality since the deer season opened a week ago.

The Century Magazine for the Coming Year.

The Century Magazine, with its November number, enters upon its twenty-seventh year. During its long existence, by reason of its many notable successes, it has won an assured and commanding position. During the coming year The Century will maintain its exceptional position as a magazine of entertainment and as a leader in art and thought.

Its pictorial features will be notable, and it will command the services of the foremost artists, illustrators and engravers of this country and of Europe.

Nothing like a complete announcement of its literary features can be attempted now. Dr. Weir Mitchell, whose novel of the American Revolution, "Hugh Wynne," is the great success of the year, has written a new story for the present volume. It bears the piquant title: "The Adventures of Francois; Foundling, Adventurer, Juggler and Fencing-Master during the French Revolution." The tale is full of romance and adventure. Mrs. Burton Harrison contributes a new novel of New York life, called "Good Americans," in which contemporary social types and tendencies are brightly mirrored and described.

There will be a group of clever stories about horses, and people who like horses, under the general title of "Gallops." "A Woman's Reminiscences of the French Intervention in Mexico" will be given in a series of graphic and highly picturesque papers by Mrs. Cornelius Stevenson. Further contributions to the interesting series of "Heroes of Peace" will be made by Jacob A. Riis, Gustave Kobbe, Elizabeth Stuart Phelps Ward, and others.

For the benefit of readers of The Century an unusual combination offer is made for this year. There has been issued "The Century Gallery of One Hundred Portraits," made up of the finest engravings that have appeared in the magazine, and representing a total expenditure of nearly \$30,000. These are printed on heavy plate-paper, with wide margin, like proofs. The retail price of the gallery is \$7.50, but this year it will be sold only in connection with a subscription to The Century, the price of the two together being \$6.50.

English Spavin Liniment removes all Hard, Soft or Calloused Lumps and Blisters from horses, Blood Spavins, Curbs, Splints, Sweeney, Ring-Bone, Sprains, Siftles, all Swollen Throats, Coughs, etc. Save \$50 by use of one bottle. Warranted the most wonderful Blemish Cure ever known. Sold by Johnson & Henderson, druggists, Owosso. 6-30-'98

The New Volume of St. Nicholas.

St. Nicholas, conducted by Mrs. Mary Mapes Dodge, enters upon the twenty-fifth year of its successful career as a leading magazine for boys and girls with its November issue. A remarkably varied and attractive list of features has been secured for the coming year, including contributions by several of the foremost writers of the day.

Rudyard Kipling's first "Jungle stories" were written for St. Nicholas, and this year he will contribute a new series of stories to the magazine, called "The Just-So Stories," written in a new vein—fantastic stories. Some stories, Mr. Kipling says, are meant to be read quietly, and some are meant to be told aloud. Some are for rainy mornings and some for long, hot afternoons, and some are for bedtime. These stories of Mr. Kipling's are meant to be told "just so," and one must not alter one single little word. They are stories about animals, queer, very queer animals.

Mr. Frank R. Stockton will contribute "The Buccaneers of Our Coast." This is a series of narrative sketches in which will be treated the origin, characteristics, adventures, and exploits of that wild body of sea-rovers, calling themselves "The Brethren of the Coast," who during the greater part of the seventeenth century ravaged and almost ruled the waters and shores of the West Indies.

Mr. T. T. Trowbridge has written a serial, "Two Biddicut Boys, and Their adventures With a Wonderful Trick Dog." This is marked by his best qualities and is full of effective interest. A lively story of track and field is "The Lakerim Athletic Club," by Rupert Hughes, which will tell of a year of sports carried out by a party of "real boys." Mr. W. O. Stoddard writes a stirring romance of chivalry, "With the Black Prince," telling of the fortunes and adventures of an English lad who fights at the battle of Crecy. A fairy tale of science "Through the Earth," by Clement Fezanide, is a serial of the Jules Verne order. It tells of the daring conception of a scientist of the next century, who by the enormously increased power of electricity succeeds in boring a hole through the earth and sending a boy in a cigar-shaped car through the tunnel.

There will be the usual number of articles of instruction and entertainment, short stories, poems and jingles, as well as hundreds of pictures by leading artists. The price of St. Nicholas is 25 cents a copy, or \$3.00 a year.

The soothing, healing effects of Dr. Wood's Norway Pine Syrup is felt almost instantly. There is no other cough medicine that combines so many virtues. Sold by all dealers.

CRITICISES AN ATTORNEY.

Judge Barabam Causes a Stir in Novak Murder Trial.

Vinton, Ia., Nov. 17.—The state has rested its case in the Novak murder trial. During the morning session Judge Burnham criticised Counsel Miller and Witness Perrin for making improper remarks, and cautioned them against such work in the future. The counsel for the defense devoted a large part of the forenoon to an effort to impeach the evidence of Witness Perrin by his cross-examination.

In the afternoon Drs. C. C. Griffen and P. P. Whitney of Vinton, who made an examination of the skull of Edward Murray after the body was exhumed and the head severed, testified that on the right side of the head there was evidence of a fracture. They also testified there was a blood clot to the right and back of the brain. They expressed the opinion that this blood clot could not have been produced except by an injury before death. They also said that heat could not have caused a breaking down of the blood vessels, and thus caused the blood clot, believing that the blood would first have coagulated in the arteries and veins.

The defense sought to have the testimony of these witnesses stricken out of the evidence before the jury, for the reason that Dr. Ruml, the expert physician who made the autopsy before the coroner's jury, was the only competent person to testify in regard to this. The court overruled the motion and allowed the testimony to go in. The introduction of evidence will probably end this week.

VICTIM OF FOOTBALL.

Seven-Year-Old Pennsylvania Boy Dies from Injuries.

Greensburg, Pa., Nov. 17.—Seven-year-old Francis Blair, son of Lem Blair, a fireman on the Pennsylvania railroad, living at Penn Station, is dead. Young Blair and some companions found a football and started to play a make-believe game. They had seen football played by their elders and were trying to go through the different plays of the game. Blair seized the ball and while running with it was tackled and brought down. Then five or six boys jumped on him. He was seriously bruised and internally hurt. This is said to be the third death from football in western Pennsylvania this season.

Government Awards a Contract.

Washington, Nov. 17.—The war department has awarded to C. I. McDonald of Pittsburg, the lowest bidder, the contract for building six locks on the Monongahela river, numbering from 10 to 15, inclusive. As in the case of the Ohio river locks a number of protests had been lodged against the award in this fashion, but the department officers found that they were required by the law to act as they did. The total amount of the bids is about \$600,000.

How News is Made Sometimes.

St. Joseph, Mich., Nov. 16.—The report of a probable marine disaster off this port during the recent northwest gale grew out of the fact that Robert Pooler found the stern of a yawl which had belonged to the barge Sidney O. Neff two miles south of the harbor Friday. It turns out that the yawl had been crushed by conflict with a dock and cast adrift.

Prominent Capitalist Dead.

St. Johns, Mich., Nov. 17.—Robert M. Steele, the well known capitalist and railroad promoter, died at his home here aged 65. Mr. Steele was the father of State Treasurer George A. Steele and was considered one of the wealthiest men in central Michigan until two years ago, when his affairs became involved and he was forced to make an assignment.

Strike Makes 450 Idle.

Houghton, Mich., Nov. 16.—Four hundred and fifty miners were thrown out of work yesterday by a strike of trammers at the Atlantic mine. The strike was started by Finns under the leadership of a labor agitator from Hancock. Agent Stanton refused to treat but his own men. It is hoped a may be arranged today.

Making It Clear.

To confuse a witness is generally an easy task, and lawyers know no easier way than to make a witness explain the meaning of his words, knowing that very few people can do so without getting excited. Occasionally a victim resorts to this nagging and answers in a spirited and unexpected manner. A lawyer was cross examining a young girl of rather haughty temper. She had testified that she had seen the defendant "shy" a book at the plaintiff, and the lawyer had seized on the word.

"Shy—shy a book? What do you mean by that? Will you explain to the court what the word 'shy' means?" The girl leaned over the desk beneath the witness box, picked up a lawbook and threw it at the lawyer's head, who dodged just in time.

"I think the court now understands the meaning of the word 'shy,'" said the judge gravely, and the girl was allowed to finish her testimony without further interruption.—*Strand Magazine.*

Good Blood

Is essential to health. Every nook and corner of the system is reached by the blood, and on its quality the condition of every organ depends. Good blood means strong nerves, good digestion, robust health. Impure blood means scrofula, dyspepsia, rheumatism, catarrh or other diseases. The surest way to have good blood is to take Hood's Sarsaparilla. This medicine purifies, vitalizes, and enriches the blood, and sends the elements of health and strength to every nerve, organ and tissue. It creates a good appetite, gives refreshing sleep and cures that tired feeling. Remember,

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier. Hood's Pills cure Liver Ills; easy to take, easy to operate. 25c.

Direct From Distiller

To Consumer

Saving Middlemen's Profits,
Preventing Possibility of Adulteration.

We are distillers with a wide reputation of 30 years standing. Our whole enormous product is sold to consumers direct. We sell direct so that our whiskey may be pure when it reaches you. For medicinal purposes adulterated whiskey is dangerous. For sideboard purposes it is abominable, yet it is almost impossible to get pure whiskey from dealers. We have tens of thousands of customers who never buy elsewhere. A customer who once tries our whiskey is a customer always. We want more of them, and we make the following offer to get them:

We will send four full quart bottles of Hayner's Seven Year Old Double Copper Distilled Rye for \$3.20, Express Prepaid. We ship in plain packages—no marks to indicate contents (which will avoid possible comment). When you get it and test it, if it is satisfactory return it at our expense and we will return your \$3.20. Such whiskey can not be purchased elsewhere for less than \$5.00.

We are the only distillers selling to consumers direct. Others who claim to be dealers, buying and selling. Our whiskey has our reputation behind it.
