

# She Was Pale as Death

Miss Cordelia Moore, of Malone, N. Y., until recently, has been a life-long invalid from palpitation of the heart and weakness of the blood.

Physicians were puzzled over her case, their most skillful efforts were baffled. Various remedies were tried without avail. The proverbial "change of climate" was advised, but the constant change wore upon her until, to quote her mother's words, "she became a living ghost." Miss Moore said: "Upon advice of a friend I began taking Dr. Williams' Pink Pills for Pale People and before the first box was used I noticed a great change. I began to regain my appetite and felt better generally. After finishing the first box I took six more. The effect was wonderful. I grew strong and gained in flesh. I never felt better in my life than I do now. I weigh more than ever before and I consider myself cured."

*From the Gazette, Malone, N. Y.*

Dr. Williams' Pink Pills for Pale People contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, neuritis, rheumatism, nervous headache, the after-effects of the grip, palpitation of the heart, pale and sallow complexion, and all forms of weakness either in male or female.

Dr. Williams' Pink Pills for Pale People are never sold by the dozen or hundred, but always in packages. At all druggists, or direct from the Dr. Williams' Medicine Company, Schenectady, N. Y., 50 cents per box, 6 boxes \$2.50.

**Suitable to the Subject.**

"George!" exclaimed Mrs. Frangle.

"Don't bother me," replied Frangle.

"I'm reading an absorbing article."

"What is it about?"

"Sponges."

Man is incorrigible. He swears he will give up a bad habit—and then keeps on swearing.

**Beauty Is Blood Deep.**

Clean blood means a clean skin. No beauty without it. Cascarets, Candy Cathartic clear your blood and keep it clean, by stirring up the lazy liver and driving all impurities from the body. Begin today to banish pimples, boils, blotches, blackheads, and that sickly bilious complexion by taking Cascarets—beauty for ten cents. All drug-gists, satisfaction guaranteed, 10c, 25c, 50c.

**Helen Gould's Income Is the Largest of Any Unmarried Woman in the Country.** She does not spend much on herself. On churches and charities she spends \$100,000 a year.

**Try Allen's Foot-Ease.**

A powder to be shaken into the shoes. Your feet feel swollen, nervous and hot, and get tired easily. If you have smarting feet or tight shoes, try Allen's Foot-Ease. It cools the feet and makes walking easy. Cures swollen, sweating feet, in-growing nails, blisters and callous spots. Relieves corns and bunions of all pain and gives rest and comfort. Try it to-day. Sold by all druggists and shoe stores for 25c. Trial packages free. Address, Allen S. Olmsted, Le Roy, N. Y.

**Plausible.**

Tommy—Paw what do you put water in stock for?

Mr. Figg—To soak the investors with, my son.

When a man is beside himself, he should never place much confidence in his companion.

**CASTORIA.**

Bears the Signature of *Chas. H. Plitcher*

Thomas Edison keeps his shop with everything an inventor could possibly want, a fact in which he takes considerable pride. The other day he offered a prize of \$10 to any of his assistants who would need in their work an article not in the shop. The man who took the prize wanted a clothes-pin.

**A Frightful Blunder**

Will often cause a horrible Burn, Scald, Cut or Bruise. Bucklen's Arnica Salve the best in the world, will kill the pain and promptly heal it. Cures Old Sores, Fever Sores, Ulcers, Boils, Felons, Corns, all Skin Eruptions. Best Pile cure on earth. Only 25c a box. Care guaranteed. Sold at W. E. Collins & Co. Drug Store.

**Chauncey Depew was recently asked**

"How the deuce do you escape indigestion while attending so many public dinners?"

The senator replied: "I never drink more than one kind of wine, I smoke only two cigars. I don't eat sweets, and confine myself to the plain dishes and eat sparingly of those. My breakfast is a boiled egg, a glass of hot water, some dry toast and a cup of tea."

**That Throbbing Headache.**

Would quickly leave you if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure blood and strong nerves and build up your health. Easy to take. Try them. Only 25 cents. Money back if not cured. Sold by W. E. Collins & Co. Druggist.

**Only a Few Then.**

A lady teacher told a schoolboy to name the presidents, and when he replied that he couldn't, she said: "When I was as old as you I could name all the Presidents in their order."

The boy replied, with more candor than politeness: "There were only a few presidents then."

A drunkard is a man who commits suicide on the installment plan.

**ALGER MAKES A STATEMENT.**

Secretary of War Settles All Resignation Rumors.

**NO INTENTION OF RETIRING:**

He Condemns the Repeated Reports as "Baseless and Annoying"—Defies Critics to Point Out Mistakes in His Official Career.

Washington, July 13.—Secretary Alger to-day made to a representative of the Associated Press his first personal statement concerning the reports that he is about to resign from the cabinet. When asked as to the truth of the rumors the secretary said:

"What do you mean, exactly?"

"I mean to ask whether or not the stories that you are to retire from the cabinet in the near future are true."

"There is nothing in these reports but air," replied the secretary. "I shall not retire this year, certainly, and can not say as to the future. My private business and the state of my health will govern my future course."

"These constant assaults and repeated baseless reports are, of course, very annoying to me and extremely distressing to my family, but I have never retired under fire yet, and do not propose to do so now."

"Nothing that I have ever heard of or known of has been so cruel as these attacks upon me. If my critics can point to one thing in my official career that I have done that I ought not to have done, or that I have not done that I should have done, I shall be very glad to surrender my present official duties."

Secretary and Mrs. Alger will leave Washington next Friday to spend Saturday and Sunday at Long Branch with Vice-President Hobart. The secretary was a guest of the vice-president last summer for a day or two, and was so well pleased with his entertainment by the vice-president, who is his intimate friend, that he will repeat the trip.

**To Probe Miners' Troubles.**

Denver, July 13.—Chairman James B. Grant of the operating committee of the American Smelting and Refining company and the officers of the Smelter Men's Union, which he has refused to recognize, was summoned before the subcommittee of the national industrial commission, which meets today to investigate mining conditions in the west, and will be required to testify in open session in regard to the relations of the capital to labor in the smelters which are now closed on account of the differences between the managers and the workmen arising under the new eight-hour law. The committee will hold daily sessions in Denver probably for a week. It will then go to Salt Lake City and after the sessions there are concluded will proceed to Wardner, Idaho, to inquire into the labor troubles there.

**Educators Begin Work.**

Los Angeles, Cal., July 13.—Today the National Educational association convention has settled down to steady, hard work, there being eleven departments holding sessions in the afternoon, in addition to general sessions both morning and evening. Miss Helen Grenfell, state superintendent of public instruction of Colorado, read a paper in the general session bearing the suggestive title of "Quo Vadimus," which bore upon relations existing and which ought to exist between the school and the home.

**President Postpones Trip.**

Washington, July 13.—The president has decided to postpone his trip to St. Paul until October, if Mrs. McKinley's health will not permit to go earlier, and he does not desire to go without her. In October he has made a positive engagement to attend the Chicago celebration, and if his St. Paul trip is postponed until that time he will extend his journey from Chicago to the Twin Cities.

**Won't Replace Jamont.**

Paris, July 13.—It is semi-officially denied that there is any intention of replacing Gen. Jamont, commander in chief and vice president of the supreme council of war, who, it is added, retains the full confidence of the government. It was said that Gen. Jamont was to be succeeded by Gen. Brugere, who last week succeeded Gen. Zurlinden as military governor of Paris.

**Ordinance to South Africa.**

London, July 13.—The Seventy-third battery of artillery has been ordered to South Africa, making the fifth battery of field artillery now under orders for the Cape.

**GOOD CROPS ARE IN SIGHT.**

Encouraging Reports Received from Western States.

**ENORMOUS YIELDS OF GRAIN.**

Iowa, Nebraska and South Dakota Are Said to Be Almost Ready for the Harvest—Michigan Has Little Wheat—In Indiana.

Sioux City, Iowa, July 13.—Reports received here from station agents of railroads at points in South Dakota, Nebraska and northwestern Iowa without exception declare that the crops in those states are magnificent. Last week's weather continued favorable for all crops, but in the growth of corn there was the most marked improvement. This is true of every section traversed by the two railway lines. Only here and there does corn continue to be backward, and it will receive its final cultivation this week. Barley is fully headed out and is beginning to turn ripe. Wheat and oats have all commenced to head, and as a rule there is a fine stand. Some rust has made its appearance, but not enough yet to do any damage. In some sections there is danger of small grain lodging on bottom land because of the heavy straw. From one or two localities in Nebraska come reports of need of rain. Already railroads are being crowded for cars to meet the coming requirements.

**Michigan Small Wheat Crop.**

Lansing, Mich., July 13.—The crop report issued by the department of state is of more than ordinary importance, inasmuch as it gives an estimate of Michigan's wheat and fruit crops for this year. The number of acres of wheat on the ground as reported by the supervisors this spring was 1,906,947, this total being based on actual reports. It is evident, however, that the number of acres actually harvested will be considerably smaller than this, as a careful estimate shows that at least 18 per cent of the total acreage has been plowed up or cut for hay, the wheat having been winter-killed. The report states that the estimated total yield of the state this year, which is 15,250,000, will be found to be very nearly correct. This total makes the average yield per acre only eight bushels.

**Some Harvesting in Indiana.**

Indianapolis, Ind., July 13.—The weekly crop bulletin for Indiana says weather favorable for growing crops continued during the week. In many localities thrashing and harvesting were interrupted by rains. The rains were widely distributed. The oat harvest began in the southern half of the state, and in the northern portion oats are nearly ripe. The yield promises to be good. Wheat thrashing continues, with various results. The hay crop so far secured is heavy. Timothy haying is in progress. Pasturage and live stock continue in good condition.

**Tried to Kill "Gen." Booth.**

Stockholm, July 13.—The Rev. William Booth, head of the Salvation army, arrived Tuesday from England to assist in the Salvation army revival which is being held in Soederholm, a suburb of Stockholm. As he was driving to the meeting an unknown man burst from the crowd that lined the street, and, jumping up on the step of the carriage, tried to kill him with a heavy piece of iron gas pipe. The blow was warded off by an officer, but in the interval of general commotion the man escaped. Gen. Booth sustained no injury.

**IN OUR GREAT STATE.**

**THE HAPPENINGS IN MICHIGAN BRIEFLY RELATED.**

**One of Pontiac's Largest and Busiest Factories Has Been Completely Destroyed by Fire—A Bank at Niles Forced to Close Its Doors.**

**Crop Report.**

The Michigan crop report for July gives the number of acres of wheat on the ground, as reported by supervisors this spring, at 1,906,947, 95 per cent of this total acreage being based on actual reports, and five per cent being a careful estimate taken from the farm statistics of 1908. The average estimated yield is eight bushels per acre in the southern counties, where three-fourths of the crop is raised, eight in the central counties, 11 in the northern counties and eight for the state. The total number of bushels reported marketed by farmers in June is \$20,442 bushels, and the total for the 11 months August-June, 15,857,151, or 765,510 less than for the same month last year. The condition of corn in the southern counties is 89; in the central, 83; in the northern, 87; and for the state, 87. The condition of oats in the southern counties is 93; in the central, 96; in the northern, 97; and for the state, 93. The acreage of beans planted, as compared with 1908, is 84 per cent, and the condition is 91. The condition of potatoes is 86 in the southern counties, 94 in the central, 102 in the northern, and 90 for the state. The prospect for an average crop of the various kinds of fruit in the state is: Apples, 51 per cent; peaches, 6; pears, 28; plums, 42; grapes, 76. Thirty-seven per cent of the orchards in the state are cultivated, and the condition of trees of last year's setting is 76 per cent.

**Will be Obligated to Wait.**

Inquiries having been received from so many state institutions as to the ability of the state to meet the immediate effect appropriations for buildings and other special purposes during the present year that Auditor-General Dix has found it necessary to make a statement to all interested of the condition of the state treasury. He says that as soon as the bills were deposited with the secretary of state, a careful examination was made of them, and the conclusion was reached that the situation will not permit of the payment of the larger appropriations for buildings and special purposes until the levy therefor can be collected and turned into the state treasury, which will be in the early months of 1909.

**Disastrous Fire at Pontiac.**

The most disastrous fire which has ever visited Pontiac occurred shortly after 9 o'clock on the evening of the 10th in the factory of the Pontiac spring and wagon works. The fire started in the engine room and was discovered by the watchman while on his rounds. The local fire department responded promptly to an alarm, but were entirely unable to cope with a fire of such magnitude. The building which was valued at \$20,000 and the stock at between \$30,000 and \$40,000 was entirely destroyed. The insurance was less than \$10,000. The works was one of the busiest of the Pontiac factories and its loss is a blow to the city as well as the owners, and 75 men are thrown out of employment.

**Had to Close Its Doors.**

The doors of the Citizens' National bank of Niles, were closed on the 8th by National Bank Examiner Joseph W. Selden, who was appointed temporary receiver of the bank by the comptroller of the currency. The cause of the failure of the bank is poor loans which have been made, to meet which the comptroller levied an assessment upon the capital stock of the bank. The stockholders failed to meet this assessment, and the receiver was appointed in consequence. The last statement of the Citizens' National bank showed loans and discounts amounting to \$169,509; surplus, \$10,000; capital, \$50,000. An effort will be made to reopen shortly.

**Took Five Bullets to Kill Him.**

An examination of the body of Porter Avery, who, it is supposed, shot and killed himself at Coldwater, shows that the unfortunate man fired five shots before he succeeded in taking his own life. He was undoubtedly insane. Recently he tried to interest parties in the building of a flying machine. His wife's refusal to live with him preyed upon his mind. A few years ago his only brother, a Chicago policeman, was shot and killed while trying to arrest a man.

**Valuable Marl Beds.**

The marl beds recently discovered in Wilmot township, five miles from Wolverine, covers 160 acres of land and there is a uniform thickness of 10 feet to the deposit. Competent authority places the amount of the deposit at 16,000,000 barrels, or over \$13,000,000 worth when put upon the market. The deposit is easily accessible, being on the line of the new railroad from Cadillac to Wolverine, and a spur could be put in from the latter place at small expense.

A street car fight is on at Kalamazoo. Three Rivers will make an effort to get free mail delivery.

In some parts of Berrien county, the wheat yield will not be two bushels per acre. Farmers are naturally discouraged.

David B. Brightbill, a farmer, aged 27, living four miles southeast of Belleville, was struck and killed by lightning on the 6th.

It is now stated that the axle factory which several Michigan towns have been endeavoring to secure, will locate at Pontiac.

**THE SECRETS**

of easy and almost painless childbirth are all told in a handsomely illustrated book entitled "Before Baby is Born," a copy of which will be sent free on request to every expectant mother. The book also tells about that truly great liniment known as **MOTHER'S FRIEND** which modifies all the distress, pain and danger of the period of pregnancy and insures rapid recovery.
