The Bennington Maccabees have established a reputation for doing things in a most thorough sort of a way as all Owosso Knights who attended the lawn fete at the home of J. W. Hibbard in Bennington Friday night will testify. The Owosso Junior Band rode out to the place and furnished good music for the evening. No expense had been spared which might be of assistance in adding to the pleasure of the attending crowd, and as the attractions of the Hibbard farm are well known in every direction, the fact that the event was well advertised ensured a large crowd in spite of the weather which had been somewhat stormy. The event was a financial as well as a fraternal and social success.

Dr. Harry A. Cossitt resigned his position as mail carrier and left for New York City Sunday evening in response to a message from the city hospital on Blackwell's Island where he is house physician. The position, as has been mentioned before, is one of the finest in the world for a young doctor to secure and was won by Dr. Cossitt by a competitive examination. The experience to be gained in a single year at this hospital will be far greater and more varied than ordinary physicians obtain in years of practice. Mr. Cossitt has been employed in the Owosso postoffice much of the time for the last ten years, at first as mailing clerk and later as mail carrier, where he has served to the entire satisfaction of patrons of the office. He has many friends in the city who unite in wishing him the best of success in his new field.

The Rood house just north of A. L. Northway's residence on Adams street and now owned by Foster Bihlmer, was badly damaged by fire Tuesday evening, the fire being of a very mysterious and probably incendiary origin. No one was living in the house at the time, which was just about to be fixed up by its owner. This is the same house in which Mrs. Allen Rood lost her life from fire over a year ago.

A very disagreeable surprise came to the people in the neighborhood of the old coal mine shaft on River street, just west of Shiawassee street, Monday morning when the earth with which the top of the old shaft was filled sank down a number of feet below the surface of the surrounding ground leaving a yawning hole in the back yard of A. E. Kane's residence. Fortunately it was discovered before any one walked into it.

Mr. Charles V. Lemon has received the appointment of second substitute mail carrier to succeed Will Priest who is now first substitute. Mr. Lemon stood the highest of all contestants in his examination, is an active, energetic and intelligent worker who has the fullest confidence of all Owosso business men. A better appointment could not have been made and Mr. Lemon, Postmaster Lawrence and the public in general are to be congratulated on it.

The lecture given in the Congregational church Tuesday evening by Mr. Chas. H. Gould was one of the most instructive and interesting lectures which has ever been given in this city. Its value in bringing to people's minds the often overlooked fact that it is possible even today to see the exact places where the great Washington had his thrilling experiences, and to see even the most of the buildings where he lived and where he had his headquarters during the revolutionary war, is far greater than many might suppose, and awakens an interest in the true method of historical work—the going straight to the sources. Not only was the lecture of unusual interest in itself but its style and diction were scholarly and pleasing. Of the many colored views with which the lecture was illustrated too much praise cannot be given. Coloring, shading and every artistic effect were as perfect as have ever been seen in Owosso. Of high interest to any historical society, the lecture is equally entertaining to any audience, and cannot fail to create and strengthen intelligent patriotism before any audience.
