the sum of \$75,000 appropriated by the people of
said county therefore, and it also appearing that
the said county of Shiawassee has not sufficient
money in the contingent fund of said county to

principal, when so paid by the county treasur-

presented to the board of supervisors of Shi-
awassee County for allowance shall be duly ad-
judged and allowed.

and affixed the seal of the County Clerk, this 20th
day of February, A. D. 1906.

MUTINY AND MASSACRE

Reported Sebastopol Sailors Recent
Execution of Lieut. Schmidt.

TURN CANNON ON THE CITY

Cipher Dispatches Reach Revolution-
ists in St. Petersburg—The Liberal
Papers Dare Not Publish the Story
—Moscow Mourns Schmidt's Death.

St. Petersburg, March 21.—Most
sensational reports are current that
the execution of Former Lieutenant
Schmidt, which has made a deep im-
pression throughout Russia, has been
followed by an extensive mutiny of
sailors at Sebastopol, the massacre of
their officers, and firing by the fortresses
upon the city. The truth of the story
is doubted, this being "the psychologi-
cal moment," for the appearance of
such wild reports. No press dispatches
confirming the story have been re-
ceived, but if the report should prove
to be true the absence of these might
be accounted for by the imposition of
a censorship.

The alleged news came in the form
of two cipher telegrams to a promi-
nent member of the social revolution-
ary party, such as the revolutionaries
have sometimes been able to transmit
through accomplices in the telegram
offices, when the public, and even the
government has been unable to com-
municate.

As translated and displayed at the
offices of radical newspapers here, the
telegrams say briefly that the sailors,
inflamed by the refusal of Emperor
Nicholas to pardon Lieut. Schmidt and
their fellow sailors, rose in their bar-
acks and seized and imprisoned the
majority of their officers. The dis-
patches add that the city of Sebastopol
is almost entirely in flames.

It is stated that a student at the
Technological Institute has received a
similar telegram.

The admiralty affects ignorance as
to the occurrence of any such affair.
The papers, in view of the menace of
the new press law, which provides
that they may be closed up for spread-
ing false reports affecting the army
and navy, are afraid to take chances
by publishing the story.

Moscow, March 21.—The social dem-
ocrats and revolutionaries of this city
are mourning over the death of Lieut.
Schmidt. Thousands of workmen wear
earrings on their arms, and funeral
services are being held in the chapels
of many factories. The population
generally is also deeply affected. Re-
quiem masses have been said in sev-
eral of the churches.

Double Tragedy in New York.

New York, March 21.—Joseph By-
land, a bartender, and his wife, Mary,
Tuesday were found dead in their
apartments in East 15th street. By-
land had been shot twice through the
body and a revolver lay by his side.
The body of the woman showed marks
of violence. The couple, who had
only been married for a year, had
quarreled frequently, and Mrs. Byland
yesterday determined to return to the
home of her parents. The discovery
of the bodies was made by her brother,
who called to assist her in moving her
effects. The police believe that By-
land, finding his wife about to leave
him, killed her by choking her to
death and then shot himself.

President's Family to Go on Cruise.

Washington, March 21.—Mrs. Roose-
velt, accompanied by her sons, Archie
and Quentin, and her daughter, Miss
Ethel and possibly by her son Kermel,
who is at school at Groton, Mass., will
leave Washington the latter part of
next week for Florida. At some con-
venient port there, possibly Fernan-
dina, they will go aboard the Presi-
dent's yacht Mayflower, and make a
cruise to the West Indies. They will
visit Cuba and Porto Rico, stopping
at both Havana and San Juan. It is
expected the party will be absent ten
days or two weeks. The Mayflower
left Washington yesterday for Fernan-
dina.

Blocked Miners Face Famine.

Denver, Col., March 21.—Owing to
the fear of snowslides, all mines in
the neighborhood of Silverton have
been closed, and 3,000 miners have
fled to Silverton for safety. Sixteen
men have been crushed or suffocated
to death by the avalanches in this dis-
trict in the last three days. The prop-
erty loss is now estimated at \$500,000.
The railroad between Silverton and
Durango is blocked and Silver-
ton is now facing a famine.

Nineteen Persons Perished.

Mexico City, March 21.—Nineteen
persons perished in a terrific norther,
which swept the coast of Vera Cruz
Monday. Two of the storm victims
were pleasure seekers from this city,
B. Strittmatter, nephew of J. C.
Strittmatter, president of the Ameri-
can club, and Francisco Pena, a mem-
ber of a prominent family here. The
other seventeen were fishermen.

Rescued From Stranded Ship.

West Dennis, Mass., March 21.—For
12 hours, Capt. Hamford Whippley
and his four sailors clung to the rig-
ging of their two-masted lumber
schooner, Winnie Lawry, which was
driven upon a sandbar. They were
rescued Tuesday, almost helpless from
exhaustion. The schooner is full of
water, but may be saved.

STATE NEWS NOTES

Quoted From the Latest Michigan
Happenings.

The purchase of supplies for the
state prison, exclusively in Michigan,
is favored by Warden Allen N. Arrin-
strong. Chicago houses have the bulk
of the trade for many state institu-
tions.

William A. Arnold, ex-congressman
and millionaire, and one of the bright-
est legal minds in the country, died
suddenly at Hackley hospital in Mus-
kegon, Tuesday.

"I have a pain," gasped Mrs. Will-
iam F. Stevenson, wife of a local cus-
toms officer, at the hospital of Port
Huron. She sank back dead. A blood
clot in the heart is believed to have
been the cause. She was talking with
her husband at the time.

The employees of the Buffalo house,
a 500 hotel, found Charles Quick,
whose home is supposed to be in
Grand Rapids, Mich., dead in bed
Tuesday. Papers found on the body
indicate that he was connected with
the Imperial Paper Co., of Webbwood,
Ont.

Two notable building improvements
have been announced in Battle Creek.
The American Cereal Co. will erect a
large plant near Postum Cereal fac-
tory as a branch of the Chicago fac-
tory. An out-of-town syndicate will
build a vaudeville theatre a few rods
north of the Post theatre.

Abandoned by her husband, whom
she claims eloped some months ago
with Miss Gertrude Wolsey, Mrs. Wal-
ter Gough, of Port Huron, finds her-
self and her two children in destitute
circumstances. Neighbors have club-
bed together to pay the rent, now
overdue, and save the family from
eviction.

At a meeting of the stockholders
and bondholders of the Marine City
Sugar Co. Monday afternoon, the
bondholders voted to turn all their in-
terests over to A. C. Dustin, of Cleve-
land, who has been receiver for a year.
The stockholders have lost everything
and had no voice in the meeting. The
plant may be sold.

The business section of Greenville
was threatened Monday when fire
broke out in the home of John
Schwartz, over W. Matlock's fur and
hide store, from a gasoline explosion.
After a fierce fight in the high wind,
the fire was put out, having consumed
only the one building. Loss, about
\$3,000.

William Doebler, of the firm of Zuhl-
ke and Doebler, wagon makers, of
Imlay City, was instantly killed Mon-
day afternoon while working with a
boring machine in his shop. A piece
of wood caught in a belt and struck
him on the head. He was over 60
years of age and leaves a widow and
five adult children.

The county of Shiawassee is again
stone-broke, and prospects to replen-
ish the treasury are very poor, unless
the citizens vote the \$100,000 bonds at
the spring election. The jurors who
served at this term of the circuit
court, and have large sums coming,
cannot cash their orders on the coun-
ty treasury, the banks also refusing
to take the paper, even at a discount.

The remains of George Bachman,
for 20 years a Grand Trunk trainman
residing in Battle Creek, were brought
home Monday for burial. Bachman
was caught between two freight cars
at Calumet Park, Ind., and his right
knee and shoulder crushed. He was
hurried to Hammond, Ind., but died
just as he was being removed from
the ambulance to St. Margaret's hospi-
tal.

One of the youngest prisoners ever
detained in the Genesee county jail is
now in the custody of Sheriff Zimmer-
man, of Flint. He is Ernest Parks, a
12-year-old Ohio lad, who is charged
with assault and battery upon his 89-
year-old grandmother. Parks was
sent to bring in the evening's wood
and refused; words followed, and
ended, it is charged, in his brutally
beating the aged lady. He was ar-
rested on the charge and held for ex-
amination March 31, under \$100 bonds,
which he couldn't furnish.

OVER 1,000 PERSONS KILLED.

Terrible Was Earthquake on Island of Formosa.

London, March 20.—A dispatch
from Tokio to the Daily Telegraph
says:
"Advices from Taihoku, capital of
Formosa, state that the earthquake on
that island was more serious than at
first reported. In the prefecture of
Kagi alone 1,400 houses were com-
pletely destroyed, 1,014 persons killed
and 695 injured.

"The war department has issued the
following: 'One half of Kagi has been
destroyed. The garrison were march-
ed outside, where they are now camp-
ing. All the soldiers are safe. We
are sending them to Tainan. Trains
between Kagi and Toroku have stop-
ped.'"

Children Had Narrow Escape.

Lamb, Mich., March 20.—While driv-
ing to school Monday morning in a
covered buggy, five children of Lewis
Fritz were struck by a Pere Marquette
train at the B. J. Smith crossing, and
had a miraculous escape. Sight of the
train was obstructed by the blinding
snowstorm. The train caught the rear
wheels of the buggy, tore them off
and threw the children in all direc-
tions, save in front of the locomotive.
With the exception of the oldest girl
who was seriously injured internally,
they escaped with minor bruises.

Lunching in Congress.

Visitors in Washington nearly always
call upon the congressman from their
district, and the latter, if of hospitable
turn, frequently invites them to lunch-
on in the congress restaurant, a
privilege highly prized by the average
visitor. Once a number of women called
upon a wealthy congressman and
were duly invited to have luncheon
with him, which they promptly and
gladly accepted, and when seated pro-
ceeded to order a luncheon substantial
enough for day laborers. When the
check for the luncheon was handed to
the congressman and he handed a bill
for the amount to the waiter, one of the
women remarked that she thought con-
gressmen did not have to pay for their
meals there or she would not have or-
dered so much. The congressman, says
the narrator, explained that paying for
luncheons was one of the pleasant privi-
leges which were still permitted to the
congressmen by an indulgent govern-
ment and that it was one which they
especially enjoyed. "And visitors here
enjoy it, too," he added.—Baltimore

SHUTTING OUT THE SEA.

The Massive Sea Wall That Stretches Around Galveston.

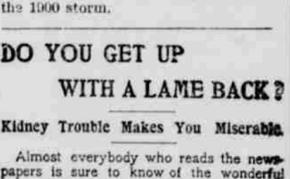

Stretching around the eastern limits
and continuing entirely along the south-
ern side of Galveston is its massive
sea wall, standing as an impenetrable
defense and an insurmountable barrier
against even the greatest storm ever
known to have occurred in the gulf,
says a writer in Marine Review. This
wall symbolizes in its firm construc-
tion on a solid foundation not only the
absolute future safety of the city, but
also that unwavering confidence and
unshaken belief of Galvestonians in
this location as the supreme harbor of
the star empire and the gateway for
the vast and limitless resources of the
great southwest. The city sea wall was
begun Oct. 27, 1902, and the work was
completed July 29, 1904, having been
carried to a successful conclusion in
three months less than the contracted
time, which, considering the magnitude
of the undertaking, is noteworthy. As
an extension of the sea wall around the
city of Galveston, the United States
government appropriated \$591,000 to
build about one mile more of wall
along the beach in front of Fort Crockett
and the federal reserve adjoining
the city on the west. The total length
of the sea wall is about four and a half
miles. It is sixteen feet wide at base,
curving to five feet in width at the
top, being seventeen feet above mean
low tide and one foot higher than in
the 1900 storm.
