**NEW TEN COMMANDMENTS.**  
And The Mail Order Catalogue Plan.

D. R. Talbert, of the California Fig Syrup Co., sends Notes a draft of the ten commandments as revised to fit the mail order catalogue plan, which draft originated somewhere in Virginia. They are as follows:

First—You shall sell your farm products for cash whenever you can, but not to us; we do not buy from you.  
Second—You shall believe our statements and buy all you need from us because we want to be good to you, although we are not personally acquainted with you.  
Third—You shall send the money in advance to give us the chance to get the goods from the factory with your money; meanwhile you will have to wait patiently a few weeks because that is our business method.

Fourth—You shall apply to your nearest city to aid you in building good roads so you can conveniently get the goods from the depot which you buy from us, for we do not build country roads.

Fifth—You shall buy church bells and interior fixtures from us and forward the money in advance, for that is our business method, and you shall collect from the business men in your vicinity as much money as you can for the benefit of your churches. Although we get more money from you than they do, still it is against our rules to donate money for building country churches.

Sixth—You shall buy your tools from us and be your own mechanic in order to drive the mechanics from your vicinity, for we wish it so.

Seventh—You shall induce your neighbor to buy everything from us, as we have room for more money—the less money there is left in your community, the sooner we can put your local merchant out of business and charge you any price we please.

Eighth—You shall look often at the beautiful pictures in our catalogue, so your wishes will increase and you will send in a big order, although you are not in immediate need of the goods, otherwise you might have some money left to buy necessary goods of your local merchants.

Ninth—You shall have the mechanics repair the goods you buy from us, book the bill so you can send the money to us for new goods, otherwise we will not notice our influence.

Tenth—You shall in case of accident, sickness or need, apply to your local dealers for aid and credit, as we do not know you.—Notes.

WRIGLEY-DIEFENDORF.

**Marriage of a Popular Young Lady.**  
Sister of Corunna and Owosso.

Yesterday morning, May 30th, at nine o'clock the home of Mr. and Mrs. C. I. Collins was the scene of the simple yet impressive ceremony which united Mr. Philo C. Diefendorf and Miss Mabel M. Wrigley in the holy bonds of matrimony. Reverend Miller officiated over the Episcopal ring service which made these two loving hearts happy for life. Mrs. C. I. Collins played the wedding march, and during the ceremony Miss Gladys Dickenson very sweetly portrayed in song of happiness that would follow the couple through life.

The wedding took place amid surroundings of pink and white roses in the presence of a few intimate friends, and immediately afterwards a dainty wedding breakfast was served.

The bride wore white French lawn trimmed in Valenciennes lace, and the groom conventional black. Mr. and Mrs. Diefendorf took the 11:05 morning train for the west and will spend their honeymoon in the principal summer resorts of Colorado.

**Headache**

Can be cured only by a remedy that will remove the cause. The oftener you stop it with headache powders or pills the quicker it will return. Generally, headache comes from a disturbed stomach or irregular bowels, and almost invariably

**Lane's Family Medicine**

(a tonic laxative) will cure headache in short order by regulating the bowels and reinvigorating the stomach. It is a great blood medicine and the favorite laxative of old and young. At druggists', 25c. and 50c.

The bride came to Holly from Corunna, Michigan, a few months ago to accept a position in our schools. The only regret attached to her having entered the ranks of the matrons is that she will no longer continue her work in the schools of Holly. While she has been here but a short time she has made many friends who extend to her their most hearty good wishes, and who more than congratulate the lucky groom in his selection of a life companion.

Philo C. Diefendorf has been connected with the Holly Sugar company since he came to Colorado two years ago. He is a man of sterling qualities and one of the leading citizens of our little metropolis. His friends are countless and felicitate him on his remarkably good taste in the choice of a partner to grace his home.

Mr. and Mrs. Diefendorf on their return to Holly in a few days will take up housekeeping in the artistic cottage in the west part of Holly, where Mr. Diefendorf has for some time past been sojourning as a bachelor. Good luck to you, Count.

"May our sweethearts become our wives, and our wives remain our sweethearts."—Holly (Col.) Chieftain.

**Deafness Cannot be Cured** by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c. Take Hall's Family Pills for constipation.

**A Domestic Science High School.**

Alive to the needs of the hour and appreciating the trend of educational methods, Cleveland is to have a domestic high school for girls. Superintendent W. H. Elson expects to open the new building in 1908 with at least 150 girls in the domestic science course. His assistant, Warren E. Hicks, states that the average girl is pitifully ignorant of home duties, and that the new course will include instruction in housekeeping and the care of infants and invalids, so that the pupil will be prepared for the cares that fall to a wife.

Should a girl so trained not marry, there remains a wide field of activity before her in paid positions in the same order of work. The demand for competent managing housekeepers is never met, and the wealthy are willing to pay high salaries to intelligent guardians of their nurseries.

Women have succeeded nobly in the trades, professions and the arts and proved their ability to win their way wherever fortune places them. Yet it is as mothers and homemakers that they most bless the world. It is but tardy justice, then, that gives them an opportunity to study the scientific and economic features of domestic life.

The Technical High School for Girls will be a serious rival to the business college. The first step taken by Cleveland which is in advance in many benefits for its young citizens, will find imitators in all other progressive cities, and the date of its opening next year may be celebrated by similar ceremonies in other communities that have hastened to erect schools following its inspiring example.—Chicago Post.

**Of Special Interest to Women.**

It is doubtful if any other newspaper in the United States offers so much that is of interest to women and of value in the home as does The Chicago Record-Herald. In the daily issues are to be found a daily pattern suitable for home dressmaking, the daily bill of fare, chatty society news and Mme. Qui Vive's daily feature of answers upon beauty topics. On Monday appears "Martha's Management," devoted to household and culinary topics, while short light reading for the whole family is always found on the editorial page. On Friday appears Dr. Withrow's comment on the Sunday School lesson, and through the week will be found crisp reviews of the new books. In the Sunday issue a complete section is devoted to women, containing Mme. Qui Vive's beauty page, "Hints for the Home Dressmaker" by Jeannette Hope, Marion Harland's page, Dame Curzon's "Novelties in Entertainment," society news and many special articles of interest to women. The Sunday Magazine of The Record Herald is full of good stories, interesting articles on timely topics, clever verse, wit, humor and miscellany, with many beautiful illustrations. It has the real magazine favor.

After a heavy meal, take a couple of Doan's Regulets, and give your stomach, liver and bowels the help they will need. Regulets bring easy, regular passages of the bowels.

**The Junior Reception.**

The annual reception tendered the graduating class of the high school by the Junior class occurred Friday night and proved to be one of the most enjoyable events of the year. It was attended by 125 persons including several of the alumni. The corridor of the Central where the event took place was turned into a delightful reception room by the deft hands of the lower classmen and presented a very pretty appearance, being decorated in the high school colors and furnished in fine style.

The guests began to arrive at 7:30 o'clock, and from that time until 8:30 when they marched into the banquet hall, everyone mingled together and the general good feeling existed between teachers, board members and pupils, was made manifest.

As they entered the banquet hall, while sweet strains of music furnished by an orchestra hidden behind screens, floated through the air, they beheld rows of tables resplendent in decorations and furnishings. After blessing was asked by Rev. A. B. Leonard the guests sat down to a bountiful four-course supper.

The inner man satisfied, a series of toasts which were both interesting and helpful, was given by members of the faculty, board and classes.

Miss Lucile Bailey acted as toastmaster and did it in a manner which reflects much credit upon her.

"We met little Joe one day in a Pittsburg toby (cheap cigar) factory," writes Owen R. Lovejoy in the July Woman's Home Companion. "A tenement room twelve feet square, with a low ceiling, not an open door or window, was occupied by twelve or thirteen people, who were rolling this cheap cigar. We had gone with a friend of the children to see little Joe, a boy of eleven, who worked twelve hours a day except on one day of the week, when his hours continued on to midnight.

"As we watched him bending over his table, his fingers flying deftly at their work, we seemed to see two pictures of little Joe sitting before us. First was the perfect machine, a human organism, trained to lightning motions that produced five or six hundred of these cigars a day, for which he received eight cents a hundred. Second, the sallow face, the listless eyes, the narrow chest, the ominous cough, which combined to write with his life blood Nature's curse upon our social neglect. Without speaking a word Joe told us more convincingly about child labor than all the census reports that were ever compiled."

Itching, torturing skin eruptions, disfigure, annoy, drive one wild. Doan's Ointment brings quick relief and lasting cures. Fifty cents at any drug store.

Special prizes have been offered during the past five years for exhibits of grains, fruits and vegetables from the upper peninsula. When first offered they met with little response but the exhibit has grown to be one of the largest and most important seen at the fair. The Upper Peninsula Agricultural college will be represented this year with a complete display of agricultural products. The exhibit will be in charge of Prof. Leo M. Gelsmar, Chatham, Mich., who is the secretary.

Mr. Andrew Carnegie has written to Mr. David Homer Bates, the author of "Lincoln in the Telegraph Office," now appearing in The Century Magazine, telling Mr. Bates of his appreciation. Mr. Carnegie says: "My experience with Mr. Lincoln, that great and good man, was similar to yours, as I had many opportunities of seeing him, my office at that time adjoining Colonel Scott's, and the telegraph office being next to mine. Mr. Lincoln came to the telegraph office as you record, and, so far as my memory serves me, your account is a faithful one of the stirring events of that historic period as related to the telegraph."

**The Song of the Hair**

There are four verses. Verse 1. Ayer's Hair Vigor stops falling hair. Verse 2. Ayer's Hair Vigor makes the hair grow. Verse 3. Ayer's Hair Vigor cures dandruff. Verse 4. Ayer's Hair Vigor makes the scalp healthy, and keeps it so. It is a regular hair-food; this is the real secret of its wonderful success.

The best kind of a testimonial— "Sold for over sixty years." Made by J. C. Ayer Co., Lowell, Mass. Also manufacturers of Sarsaparilla, Pills, Cherry Pectoral.

**North Owosso Farmers' Club.**

The North Owosso Farmers' Club was entertained by Mr. and Mrs. W. H. Smith June 14th at their pleasant home, The Meadow Grove Farm. The house was very prettily decorated with flowers and the dear old flag in commemoration of the anniversary of our flag.

Despite the cold weather and backward season the family of members were all present except two with the visiting members made a pleasant time, after a very enjoyable dinner was served at one o'clock by the young ladies the meeting was called to order by the president, Mrs. Stiles.

Opening song by the club, prayer by Rev. Hanks, the entertainment committee reported the June meeting to be held with Mr. and Mrs. J. U. Miller.

The program was then taken up. The farm garden, would you grow late as well as early vegetables, and what kinds? Mr. Miller and Mrs. Smith.

Mr. Miller prefers both put in early ones then follow in rotation a few days or weeks apart that gives fresh vegetables all of the time.

Mrs. Smith says she does not know much about planting them but likes them to cook with.

Mrs. Freeman says she prefers early sweet corn then keep planting in rotation to have it fresh for the table.

The importance of spraying? and what solutions are best to use? Mr. Stiles and Mr. Day.

Mr. Stiles thinks it necessary for potatoes in this country but has not yet decided what mixture to use. Should farmers buy an incubator? Mrs. Greenwood and Mrs. Willoughby.

Mrs. Greenwood says she thinks they should and that the chickens are so much more uniform in size and you can sell them much sooner and set them when you wish to. She then read a very amusing paper about the incubator.

Mrs. Willoughby says she prefers the hens. Mrs. Stiles raises a large quantity of chickens and she prefers the hens. A few wholesome spring dishes. Mrs. Sawyer and Mrs. Freeman.

Mrs. Sawyer thinks tapioca and rice and Indian puddings, cold meat loaves, sour crout and Dutch cheese. How many children be taught business principles?

Rev. Hanks says to, make confidence in them and to teach them by experience and trust them with money.

Who may be considered the greatest man in history? Rev. Hanks said that Jesus Christ was the greatest man to him and a great many of the club were of the same opinion.

Recitation, Fern Greenwalt was very amusing. Rev. Hanks gave a very interesting and instructive talk about the dear old flag.

Mr. Carson was appointed to communicate with the Lansing Lightening Rod Co. and get their price list. A vote of thanks was given to the host and hostess for their royal entertainment.

Program for June 1907. How to get rid of moss on fruit trees. Mr. Willoughby. Ashes as a fertilizer. Mr. Clapp and Mr. Greenwood.

Cheese making on the farm, would it pay to bother with it for our own use? Mrs. Day and Mrs. Stewart.

Which weighs the most, a quart of cream or a quart of water or milk and how much will each weigh? Mrs. W. S. Carson and Mrs. Clapp.

As a rule how much butter can be obtained from a quart of cream? Mrs. Lowell.

How much salt for a pound of butter? Mrs. Partridge and Mrs. Yale.

How to use nitrate of soda. Mr. Carson. On account of sickness and death the club was postponed, and will be held again June 28, 1907.

**CASTORIA.** The Kind You Have Always Bought. Bears the Signature of *Chas. H. Fletcher*

Letters at the Church. "That seems a tremendously big bunch of mail to be delivered at a church," remarked an early caller to the sexton. "A good deal of it belongs to the parishioners," he explained. "I do not mean to the regular worshippers, but to persons who drop in for an occasional service. They are mostly comparative strangers in town. When leaving home, they have no idea what they will do or where they will be located, so in order to relieve the anxiety of their friends they give instructions to send their mail to some church of which they have all heard. The mere fact that the wanderers have to call at such a place once or twice a week for letters is considered a guarantee of their safety. The pastors welcome such an arrangement. It may be an additional responsibility to take care of the letters, but it keeps them in touch with many strangers who otherwise probably would not go near a church."—New York Sun.
