

Pain In Back THAT'S LUMBAGO

Painful but not dangerous. Rub on a few times this well tried, old-time home remedy

ST. JACOBS OIL

Pain goes! You'll be sorry you didn't try it sooner

IT CONQUERS PAIN

The 2c Bottle Contains 1 Time as Much as the 2c Size

All Druggists 25c. and 50c.

Summer Garments

being of thinner and lighter materials and fabric will not keep their shape or retain their freshness of color or appearance as do those of the Winter season. They are also exposed to a greater degree of dust and dirt and the effects of perspiration. Therefore they must be cleaned frequently if you would have your appearance as genteel as good form demands. Our facilities for cleaning and pressing ladies' and gentlemen's Summer clothes are ample to meet all demands, and our skill and care is unquestionable.

An Unconditional Guarantee Goes with Every National

Yes, we mean just what we say. An unconditional guarantee. A guarantee covering the National Cream Separator during the entire term of its use. No matter how many years you may use the National, the guarantee still covers it. And the manufacturers stand behind this guarantee. It is because of this guarantee and because we believe that the National Cream Separator is the best separator manufactured that we are agents for this marvelous machine. We have a National on our floors now. We would be pleased to have you come in and examine it.

Undoubtedly you have heard about the National. You have heard about the many tests in which it has won over almost every other make of machine. Probably you have a friend or neighbor who has a National. Ask them what they think of the National. We are willing to take the word of those who have used the National.

The One-Piece Vortespooon Skimming Device

The National Cream Separator is the only cream separator in the world which is equipped with the Vortespooon one-piece skimming device. This device is the greatest step in the manufacture of cream separators that has ever been made. Think of doing all your own skimming by means of one piece. Not a myriad of discs, floaters and beaters, but just one single piece to do this skimming—one single piece to wash. Your wife can wash this cream separator, clean it all up and have it ready for the next separating in from two to five minutes. You know that it takes at least half an hour to wash and clean the old-fashioned disc machines. This saving in time alone pays for your separator in the course of a year.

We urge you not to buy any other cream separator until you have carefully investigated the National. Come into the store and let us show you the Vortespooon one-piece skimming device. You will scarcely believe your eyes when you see it. It is simply impossible for this one-piece skimming device to get out of order. It is different from the other out-of-date contrivances which are put into ordinary machines that you will be amazed at its simplicity. The National Cream Separator is the most simple machine that was ever manufactured. Don't delay about coming in to see this wonderful machine.

The Opinion of the Majority of Wagon Buyers is that the Studebaker is the Best and Most Economical Wagon

Every year almost twice as many Studebaker wagons are sold as any other make.

People who know wagons have been buying "Studebakers" for nearly 60 years. They're buying more today than ever before.

A Studebaker wagon is bought somewhere every two minutes.

Studebaker wagons wouldn't sell at this tremendous rate unless they gave more value than other wagons. Let us tell you why—it will put you under no obligations whatever.

ALL AMENDMENTS PROMPTLY KILLED

Voting Shows Strength of Canadian Reciprocity Bill.

INSURGENTS' EFFORTS VAIN

Greatest Strength of Opposition Is Shown When 19 Votes Are Mustered Against One Amendment to 38 in Favor.

Washington, July 11.—The senate disposed of the Cummins and Simmons amendments to the Canadian reciprocity bill by voting them down.

The roll was called on several of the amendments. On one vote the opposition to the treaty mustered 19 votes to 38 on the other side. This was their greatest strength. This vote was cast on an amendment giving the president power to revoke the duties proposed under the agreement at any time that Canada might abrogate the treaty and restore the schedule rates as they now exist. On other votes the opposition to be treaty cast from 12 to 14 votes.

Senator Thornton of Louisiana refused to vote for any more of the amendments. He said he had voted for the amendment on Saturday, but would refrain from voting in the future. This reduced Cummins' Democratic following to two, Bailey and Simmons.

Senator Simmons made the principal speech of the day. He denounced the agreement, which he said was "partly protection and partly free trade, but no tariff for revenue in it."

Several sharp clashes occurred between Democratic senators during the consideration of the amendments. Senators Bailey and Simmons on one hand contended that the Democratic party stood for tariff for revenue only and Williams and Stone taking the view that Canadian reciprocity was in line with Democratic doctrines.

The voting, as on Saturday, demonstrated the hopelessness of the effort of the insurgent Republicans to amend the reciprocity bill. They were unable at any time to make the slightest inroad on the solid support of the Canadian bill. It seems now absolutely certain that the reciprocity bill will be passed next week without amendment and the prospect for an adjournment by Aug. 1 looks brighter than ever.

Among the speeches in opposition to reciprocity were those of Senators Clapp and Dixon, insurgents.

ICE TRUST IN INDIANAPOLIS

Prosecutor May Bring Increase in Price to Attention of Grand Jury.

Indianapolis, July 11.—The increases of 5 cents per hundred pounds by ice dealers on three consecutive days and the charge by one dealer that attempts were made to force him into the combination have caused the prosecutor to present the case to the grand jury under the state anti-trust law, and an investigation will be undertaken at once.

The companies claim that the continued hot weather has exhausted their surplus stock and that they are not able to supply the demand. The price of ice earlier in the season was 30 cents per hundred pounds, but it is now 45. Patrons are being served now with only half the amount they order, the dealers saying they have not enough ice to meet the demand.

THREE SLAIN AT CHRISTENING

As Many Others Probably Fatally Slashed in Ohio Festivities.

Stuebenville, O., July 11.—Three men were slashed to death and three others were probably fatally cut in a general fight at Adena. Two are under arrest. All concerned were Polish miners.

The cutting took place at a christening and dance. The festivities were in progress all day and by midnight, it is said, all of the party were intoxicated. The men are said to have quarreled over a woman. At least ten received slight wounds in the fight and several women were hurt.

AUDITOR SHORT \$60,000

Brown-Ketcham Iron Co. Official Bound Over to Grand Jury.

Indianapolis, July 11.—Frank J. Vinson, auditor of the Brown-Ketcham Iron Co., which recently went into the hands of a receiver, was bound over to the grand jury to answer a charge of embezzlement.

The books are said to show that Vinson has stolen \$60,000 from the company in the past eight years by the sale of products for which he received checks made payable to himself and of which he made no credit on the books.

Harriman's Son-in-Law Injured.
New York, July 11.—In a polo game at the Rockaway Hunt club C. C. Rumsey was hurt in a collision with Malcolm Stevenson and was in an unconscious condition when assisted from the field. No bones were broken. Mr. Rumsey is the husband of Miss Mary Harriman, daughter of the late E. H. Harriman.

PREVENTION AND EXTERMINATION OF WEEDS.

By DR. W. J. BEAL, OF THE MICHIGAN AGRICULTURAL COLLEGE.

THE habits of a weed determine to a great extent the best mode of fighting it. Certain remedies suggest themselves for creeping perennials, like quack grass and toad flax, while different treatment is best for narrow-leaved dock; and still a different mode of attack may be adopted for crab grass and purslane.

Weeds are annuals, as pigweeds, crab grass, purslane; biennials, as bull thistle and mulleins; perennials, like quack grass, Canada thistle, ox-eye daisy.

The annual cost of successfully fighting a weedy farm of 100 acres has been found to be about \$75. Good cultivation in the long run pays a greater profit than elphid culture. It not only kills the weeds, but keeps the soil in condition for securing good crops. It conserves moisture.

Perennial plants cannot gain any if the green leaves are not allowed to appear. The nourishment stored in the root stocks underground will aid the plant to send up slender leaves, and if these remain, the plants gain and recruit, but if the leaves start underground and are cut off before coming to the light, these root stocks are drawn on again to furnish a food to start more leaves and thus in time become exhausted.

The following are some modes of preventing the introduction of weeds and a few rules for their extermination:

1. The right kind of a man, who will carefully observe and study the kinds of weeds and their habits, fighting each to the best advantage, i. e., with method.
2. See that all seeds purchased or grown at home for seed are free from seeds of weeds. Although often heard, these words are too little heeded.
3. See that threshing machines, hay racks, grain bags from other farms are well cleaned before used on the farm.
4. Cook or grind screenings and burn chaff when certain weeds are suspected.
5. Send seeds to the Agricultural college, East Lansing, for identification, unless they are known to be harmless.
6. Strive to prevent weeds from ripening seeds.
7. For meadow or pasture make the soil very fertile, as most weeds will then be killed or crowded by the better grass and become of little account.
8. Modify the rotation of crops with reference to killing the weeds.
9. Make a specialty of hoed or cultivated crops.
10. Make soiling crops a prominent feature in certain fields.
11. Smother weeds with quick-growing and thickly seeded crops, like red clover or rye or buckwheat.
12. Keep some crops growing on land from early spring till late autumn—double cropping, i. e., two cultivated crops in one year for barn and cellar instead of one for use and one of weeds.
13. Cultivate thoroughly after a crop is removed.
14. Clean up and avoid leaving any vacant or out of the way places for breeding ground.
15. Where practicable, remove fences and cultivate to the gutters of the highway.
16. Keep some sheep.
17. When once begun, continue the work thoroughly from year to year, giving no quarter to weeds. This is the easiest in the long run and the royal way.
18. Where hand labor is employed, it is far less expensive and much easier to keep weeds down by raking or hoeing once a week than by going over the ground much less frequently.

Corn Should Be Mature For Silage.

It has been found that the use of immature plants for silage does not produce the best feed, because of the silage developing too much acid and not containing enough of the starch and sugars. Care must also be taken to harvest the corn before it is over-ripe for the reason that it is apt to be too dry to make succulent, appetizing and well-keeping silage. If the corn does get over-ripe or frosted, water must be supplied while the silo is being filled. It is also a fact that the crop which yields the largest amount of grain makes the best silage. Hence corn grown for the silo should not be sown thicker than that sown for grain alone.

Trees that are scarred or bruised in cultivation should have the rough bark cut away with a sharp knife and the wound painted over immediately.

Don't forget that both the cow and the horse need salt.

Give it to them in the ration, or else keep it before them in the rock form.

LAKE VESSELS IN COLLISION

Two Big Steamers Crash Together in Superior.

BOTH ARE SENT TO BOTTOM

The William H. Mack and the John Mitchell Crash During a Thick Fog—Only Three Persons Known To Be Dead.

Sault Ste. Marie, Mich., July 11.—Three lives were lost on Lake Superior when the steamer John Mitchell of the Elphicke fleet of Chicago was sunk off Vermillion Point in collision with the steamer William H. Mack.

The known dead are: Archie Causey, Detroit, second mate on the Mitchell; Al Clemens, steward of the Mitchell, Rochester, Ind.; George Austin, watchman of the Mitchell, Cleveland, O. Mrs. Clemens of Rochester, Ind., wife of the steward of the Mitchell, suffered a broken leg in the crash.

The steamer John Mitchell of the Elphicke fleet of Chicago was sunk off Vermillion point, sixty miles northwest of the Soo, in collision with the steamer William H. Mack. The latter was also partly submerged.

Captain Campbell of the steamer Huronic sighted two barges at anchor near a great mass of floating lumber and wreckage of Vermillion point. He feared a steamer had been towing the barges and that it struck a reef in a fog and sank. The truth as to the collision was discovered later.

The Mitchell and Mack were two of the largest ore carriers in service on the great lakes. They were 600-footers, of 10,000 tons each. Both were equipped for carrying a limited number of passengers.

Latest reports from the scene of the collision are that there was a dense fog and that the steamers met while bound in opposite directions. So thick was the fog that neither saw the other until too close together for the wheelmen to avert a crash.

Captains of both steamers ordered the boats lowered and life rafts flung out the instant of the collision. The impact was so terrific, however, that the Mitchell went down almost instantaneously, and those lost did not have a chance to fight for their lives.

A heavy sea was rolling, which made it difficult for the boats lowered from the Mack to survive. The damage to this vessel was not so great as that suffered by the Mitchell, but it filled rapidly.

Most of those on board the Mack managed to put on life belts and to launch the small boats and row a short distance from the wreck before the Mack was entirely submerged.

Player Assaults an Umpire.

Philadelphia, July 11.—Sherwood Magee made an unprovoked assault upon Umpire Finneran. The affair occurred in the third inning when, with two of the home players on the bases, Finneran called Magee out on strikes.

WEATHER FORECAST

Indiana—Local thunder showers today; probably fair and cooler tomorrow; moderate southwestern and west winds.

Illinois—Local thunder showers today; cooler tonight; fair and cooler tomorrow; moderate south and southwest winds.

Wisconsin—Fair and cooler today; fair tomorrow; moderate temperature, brisk westerly winds.

SAY TELLER TOOK \$5,000

Pittsburg Man Arrested on Charge of Misappropriating Funds.

Pittsburg, Pa., July 11.—L. A. Kerrigan, paying teller of the Exchange National bank, was arrested by the federal authorities, charged with misappropriating more than \$5,000 of the bank's funds.

Kerrigan had charge of the checks that came from the clearing house, and it is alleged that by manipulation he would cause the bookkeeper to make two entries of the same checks and thus cover up the alleged discrepancies.

Noted Acrobat Is Dead.

Grand Rapids, Mich., July 11.—Chas. Schmitt, one of the noted acrobats of the circus world, who learned his profession on sawdust piles in this city when a young lad, is dead in Portlar, Ore. He was forty-five years old. For years he was connected with the acrobatic troupe known as Leondor brothers and also appeared on the vaudeville stage.

Open Door and a Light.

The wives of north country collars observe a very touching and pathetic custom when an accident occurs in the pit. Directly it is known to the wife of a collier that an accident has happened in the pit where her husband works and that his fate is uncertain she throws open the house door, and, however inclement the weather may be, she keeps the door open and a candle burning in the window night and day till the man is brought home, dead or alive. In some cases the door has remained open and the candle alight during several weeks.—London Graphic.

Order of Publication.

State of Michigan, the Probate Court for the County of Shiawassee.
At a session of the Probate Court for said County, held at the Probate office, in the City of Corunna, on Tuesday, the 27th day of June in the year of one thousand nine hundred and eleven.

In the matter of the estate of Henry M. Lowell, deceased, on reading and filing the petition of Louis A. Dreher, praying that administration de bonis non of said estate may be granted to petitioner or some other suitable person.

It is ordered that the 24th day of July, next at ten o'clock in the forenoon, at said Probate office, be assigned for hearing said petition.

And it is further ordered that a copy of this order be published three successive weeks previous to said day of hearing, in the Owosso Times a newspaper printed and circulating in said County of Shiawassee.

MATTHEW BUSH, Judge of Probate.
By FLORENCE LINDBRY, Probate Register.

Commissioners Notice.

In the matter of the estate of Harriet Wing deceased.
We the undersigned, having been appointed by the Hon. Matthew Bush, Judge of Probate in and for the County of Shiawassee, State of Michigan, Commissioners to receive, examine and adjust all claims and demands of all persons against said estate, do hereby give notice, that we will meet at the residence of Elmer D. Colby in the township of Woodstock, in said County, on Monday, the 28th day of August, A. D. 1911, and on Monday the 30th day of October, A. D. 1911, at ten o'clock in the forenoon of each of said days, for the purpose of receiving and adjusting all claims against said estate, and that four months from the 27th day of June, A. D. 1911, are allowed to creditors present their claims to said Commissioners for adjustment and allowance.

Dated the 27th day of June A. D. 1911.
SEYMOUR PIATT,
JAMES SHAFT,
Commissioners.

Probate Order.

State of Michigan, the Probate Court for the County of Shiawassee.
At a session of the Probate Court for said County held at the Probate Office in the City of Corunna, on Tuesday the 27th day of June in the year one thousand nine hundred and eleven.

Present, Matthew Bush, Judge of Probate.
In the matter of the estate of William Downey, deceased.
On reading and filing the petition of Rebecca Downey, praying for an allowance from said estate for her support and maintenance.

It is ordered that the 10th day of July, next at ten o'clock in the forenoon, at said Probate Office, be assigned for hearing said petition.

And it is further ordered that a copy of this order be published three successive weeks previous to said day of hearing, in the Owosso Times a newspaper printed and circulating in said County of Shiawassee.

MATTHEW BUSH, Judge of Probate.
By FLORENCE LINDBRY, Probate Register.

Notice of Proposed Closing of Portion of State Street.

To whom it may concern:

Take notice that pursuant to the annexed resolution certified under my hand and the seal of the City of Owosso the Council of the said city will meet upon Monday, the seventh day of August, 1911, at 7:30 o'clock in the afternoon of said day for the purpose of hearing objections to the proposed discontinuance, vacation and abolishment of that portion of State street named in said resolution. Objections may be filed in my office in writing by any person interested by until the day and hour above mentioned. The annexed resolution was passed by the Council of said City at its regular meeting on the third day of July, A. D. 1911, and in pursuance of this resolution this notice is given:

Resolved by the Council of the City of Owosso that it is hereby determined to be advisable to vacate, discontinue and abolish that part of State street in said City of Owosso described as follows: Commencing at the northeast corner of lot one (1) in block seventeen (17) of A. L. & B. O. Williams addition to the City of Owosso, thence southerly to the southeast corner of lot two (2) in block seventeen (17) of said addition, thence easterly to the southeast corner of lot three (3) in block sixteen (16) of A. L. & B. O. Williams addition to the City of Owosso, thence northerly along the west side of said lot three (3) to the right of way of the Michigan Central Railroad thence northwesterly along said right of way to the southeast corner of block eighteen of A. L. & B. O. Williams addition to the City of Owosso, thence west to the place of beginning.

Be it further resolved that Monday the seventh day of August, 1911 at 7:30 o'clock in the afternoon shall be and is hereby appointed as the time when this Council shall appointed to hear objections thereto. The City Clerk is directed to publish a notice of such meeting, with a copy of this resolution, for four weeks before the time appointed for such meeting in the Owosso Times, one of the newspapers of the City of Owosso. Such notice shall specify the proposed action of this Council and that objections to such proposed action may be filed with the City Clerk in writing at any time before the day and hour mentioned.

ARTHUR E. DEMOND,
City Clerk of the City of Owosso.
Dated, June 28, 1911.
