North Venice Farmers' Club

The Northeast Venice farmers held their monthly meeting with Mr and Mrs Chas. Shipman and it was one of the most enjoyable sessions of the year. The meeting was called to order by the president, Wm. Sherman. The first on the program was singing from the club book after which devotional exercises were conducted by Rev. Schofield, reading from the first chapter of Proverbs.

The report of the secretary was read and approved after which we adjourned for dinner.

After a most delicious and appetizing dinner, a mock trial of a law suit was held in which John Brown was charged with stealing two chickens from Arthur Schock. The jury was unable to come to an agreement, so the case was adjourned until the next term of court—our next meeting.

We then listened to some excellent music by Mrs. Clara Nickels and Miss Golia Shipman, which was greatly enjoyed. A reading by Mary Craig followed, which was greatly enjoyed.

Mrs. Wm. Sherman then gave a solo in a very pleasing manner.

"Are our farms producing what they should?" was discussed by Chas. Evert. A piano and violin duet by Mrs. Nickels and Wm. Evert was next on the program and proved excellent.

The question box was in charge of John White. Mr. White found nine questions to be disposed of and these were handled in a fine manner.

The next on the program was a reading by Mrs. Dennis Kildea.

"Modern dress fashions and its influence on society," was fully discussed. Instrumental music by Miss Celia Shipman and Seymour Shipman was greatly enjoyed.

"Soil fertility," was discussed by Messrs. Shipman and Sheldon.

Roll call found all families present but five, which was excellent considering the bad condition of the roads.

At the close of a most delightful and profitable session we adjourned to meet in May with Mr. and Mrs. Arthur Phelps.

the Underwood Tariff law? If so, name it. I can give you the names of some, but they are across the sea; they are in Europe, my friends. As predicted by the Ways and Means Committee in its report on the Underwood Tariff bill and over the signature of its 14 majority members, which recited: "In our judgment, the future growth of our great industries lies beyond the sea." (Laughter and applause on the Republican side.)

By unanimous consent, Mr. Fordney was given leave to extend his remarks by printing the following table:

J. S. THOMPSON IS DEAD

Was Associate of General Bragg; Had Seen Eighty-two Years.

Fond du Lac, Wis., April 15.—John I. Thompson, postmaster at Ann Arbor during war times, for many years in the employ of John L. Mitchell, Milwaukee, millionaire, and for ten years associated with the late Gen. Edward S. Bragg in the practice of law, died here, aged 82 years.

Born in New York March 27, 1832, he went to Ann Arbor when a young man and was a member of the group of men in that state who laid the foundation for the Republican party. He is survived by a widow, two daughters, Mrs. Henry Butler, Pomeroy, O., and one son, Frank H. Thompson, Bartlesville, Okla.

Flected to Two Places. The town of Pelee has a troublesome problem. Charles Heck was a candidate for town clerk against Benjamin Towne and defeated him for the office. He was also a candidate for justice of the peace and was elected to that office as well. Now the question is, can he serve in both offices, or can he resign one and hold onto the other. The attorney general will be appealed to.

Condemns La Crosse Police Station. In La Crosse, Wis., April 15.—The city of La Crosse is threatened with condemnation proceedings by the state board of control unless a new police station is built to replace station No. 2, the front of which is on My street, declared by the state board of control to be a "fire trap and unfit for the purpose for which it is used."

Three Governors Attend "White" La Crosse Wis., April 15.—Gov. McGoey will deliver a speech at the Home-Coming and Made-in-La Crosse week celebration on governor's day, July 1. Governor Eberhart of Minnesota and Governor Clark of Iowa have announced their intention to accept the invitation sent them.

MOTHER-OF-PEARL.

Diffraction Grating Causes Its Beautiful Iridescence.

The apparent color of mother-of-pearl was for a long time somewhat of a puzzle to scientists. Later it was found that the surface of mother-of-pearl consisted of fine striations or ridges, with, of course, little hollows between. This explained everything for it was then to the scientists nothing more or less than an ordinary diffraction grating. To prove it still further an impression of the surface was taken in black wax, and the wax itself exhibited the beautiful display of color shown in the original mother-of-pearl surface. The color is not due to pigment, but to the cancellation in part of the light falling on the surface.

To understand this better it will be well to explain a diffraction grating. It consists of a piece of plate glass upon which are engraved many parallel lines. Rowland has been able to scratch lines on a glass so that there are 20,000 to the inch and the distances from one to the other do not vary by one-millionth of that distance in the 20,000.

As white light, or sunlight, consists of every color known and as light travels in waves, at certain places if light is coming from several different directions very close to one another some of these waves will meet in what are known as opposite phases and will blot one another out, and the only remaining color will be the white. It can be easily seen what is meant by opposing phases from a consideration of waves on the seashore. If the top of a big wave meets a trough of another they cancel, and no wave at all is the result. The same takes place in light phenomena. Light consists of an ether wave, similar to wireless waves, only much shorter, and if its wave is destroyed none of that light can be seen by the eye.

Colors of silk are due in the main to the same thing as mother-of-pearl, especially shot silk. It is with the pearl, can be perfectly reproduced.—New York Tribune.

THOMPSON SUSPECT TAKEN

Man Held Denies Charge; Part of Grand Rapids Loot Found.

Newport, Ky., April 15.—Walter Lawrence, of Covington, Ky., was arrested here charged with being a fugitive from justice. His arrest was made as a result of a statement by a Grand Rapids, Mich., detective that Lawrence might have information concerning the robbery and triple murder at Grand Rapids of Thompson's jewelry store on September 18, 1913.

Lawrence denies he knows anything about the Grand Rapids robbery and declares he will fight extradition to Michigan.

U. S. Court of Appeals Sustains Part of Conviction—Attorney for Negro Aserts His Client Will at Once Return to Chicago for Re-hearing—Expects Only Fine.

Chicago, April 15.—"Black Jack" Johnson has been granted a new trial by the United States Court of Appeals. The negro pugilist, who is now in Paris, was under sentence of one year and a few days in the penitentiary and a fine of \$1,000 for violation of the Mann "white-slave" act in bringing Belle Schreiber, a white woman, into Illinois for improper purposes.

The finding sustains half of Johnson's conviction, but reverses that part of the conviction charging him with bringing the woman to Illinois to continue an immoral life. He will be resentenced on these convictions.

Attorney to Urge Return. Benjamin Bachrach, his attorney, said he would advise Johnson to return to be re-sentenced, declaring that, following the usual rule, Judge Carpenter would probably merely impose a fine on Johnson.

"Johnson probably will come back after June 17," said the attorney, "and I am sure that he will take the penalty, which will be a fine or a light sentence at the most." Johnson was arrested and prosecuted for traveling about the country with the Schreiber woman, whom he first met when he was performing with a burlesque company. Later he a flat for her here.

COLORED PUPILS COSTLIEST.

Kansas City Has to Spend Much More on Them Than on White Pupils.

The Kansas City (Mo.) school board's annual report, just issued, shows that the cost for a pupil for a year in the white elementary schools is \$33.06. In the colored schools of the same character it is \$41.54. Individual cost in the white special schools comes to \$33.75, the same instruction in the special colored schools amounting to \$35.75. The greatest difference is shown in the high schools. The white high school pupils are sent through the year at an outlay of \$87.07 each, while the negro pupils represent a cost of \$103.30 a pupil to the board.

An Everyday Cake

Here is a simple and inexpensive cake that can be varied in many ways with different frostings and icings. It looks a little nicer baked in a tube pan, but will be equally as good baked in a square loaf.

K C Gold Cake

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine.

1/2 cup butter; 1/2 cup sugar; yolks of 4 eggs, beaten light; 1 cup flour; less 2 level tablespoonfuls; 2 level teaspoonfuls K C Baking Powder; 1/2 cup milk; grated rind of 1 orange. Sift flour and baking powder together three times; cream butter and sugar, beat yolks of eggs, add these to creamed mixture, and lastly add the moisture and flour alternately, beating batter until smooth. Gold Cake can only be made successfully by beating yolks of eggs, very, very creamy and light lemon colored, using a rotary beater. The rotary beater is the only beater that will do justice to the yolks of eggs. The beating kills all egg taste and improves the texture of the cake.

Cocunut Frosting

Beat the whites of 2 eggs dry; gradually beat in a cup of sifted confectioner's sugar and continue the beating until the frosting is smooth, thick and glossy; then beat in grated cocunut, fresh or prepared, and spread upon the cake. This frosting is made thick by beating rather than by sugar.

Save this recipe. You will want to use it frequently. Or better, send us the colored certificate packed in each 25-cent can of K C Baking Powder and we will mail you "The Cook's Book" containing this and 89 other baking recipes equally good—all by Mrs. Hill. Jaques Mfg. Co., Chicago.

By Taking Lydia E. Pinkham's Vegetable Compound.

Chicago, Ill.—"I must thank you with all my heart for Lydia E. Pinkham's Vegetable Compound. I used to go to my doctor for pills and remedies and they did not help me. I had headaches and could not eat, and the doctor claimed I had female trouble and must have an operation. I read in the paper about Lydia E. Pinkham's Vegetable Compound and I have taken it and feel fine. A lady said one day, 'Oh, I feel so tired all the time and have headache.' I said, 'Take Lydia E. Pinkham's Vegetable Compound,' and she did and feels fine now."—Mrs. M. R. KARSCHNICK, 1433 N. Paulina Street, Chicago, Illinois.

The Other Case. Dayton, Ohio.—"Lydia E. Pinkham's Vegetable Compound relieved me of pains in my side that I had for years and which doctors' medicines failed to relieve. It has certainly saved me from an operation. I will be glad to assist you by a personal letter to any woman in the same condition."—Mrs. J. W. SHERER, 126 Cass St., Dayton, Ohio.
