AUTO BANDITS COME BACK

Do Job in Detroit Similar to One Pulled Off Last Month.

Detroit, Aug. 29.—Two automobile bandits held up a Standard Oil collecting wagon near Dearborn, a suburb, beat the driver and threw \$4,000 taken from the wagon into their machine and fled, according to the driver, who was found lying in the road by men who answered his cries.

His description of the automobile is similar to that of the machine used in the Burroughs pay car holdup.

Olivet College News Letter.

The officials of the college have just completed a Trust Agreement with the Security Trust Company of Detroit, whereby every dollar given to the college for endowment will be held in trust by the Security Trust Co. and the income only turned over to the trustees for the use of the college.

The rooms at Shepherd hall, the young women's dormitory, are being rapidly filled. There are only fifteen possible locations left, and the college has begun a canvass of the town for good rooming places. It is expected that the rooming capacity of the town will be taxed to the utmost.

Miss Margaret L. Mulford, the new teacher of voice, was in Olivet the first of the week supervising the installation in her studio of a fine new Mason and Hamlin piano which has been made especially for her use.

Both town and college are so busy getting ready for the opening of college that workmen cannot be had for love or money, and merchants and landlords are compelled to do their own painting, papering and minor repairing.

Walton Tavern, after being closed nearly three years, is to be reopened and will be in running order again by Sept. 1st. This will no doubt prove, as it has in the past, a popular eating place for students as well as the traveling public.

The Department of Business Administration has been asked to make up and recommend for use in the business office of the college a complete set of business forms, so that the new administration may begin the year with new books, forms and methods. The business office is to be one of the laboratories of the business administration department.

Olivet's new affiliated Professional Courses are attracting wide attention and being used as models. A recent letter received by the college asks for detailed information regarding them, with special reference to their application in Anatolia college, Turkey.

The fine tower clock, the timepiece of both college and surrounding country, is to be fitted with new business and placed in good repair before the opening of college.

ROUMANIA WINS FIRST VICTORY

Vienna Admits Retreat Before New Belligerents.

BULGAR DRIVE IS ABANDONED

Danube Bridges Wrecked, Indicating Focus of Entente Are On Defensive Rous and Roumanians Have Already Effected a Junction—Moving to Cut Constantinople Railway.

Vienna, Aug. 30.—The war office statement at night admits the Austro-Hungarian troops have been forced to retreat before the Roumanians.

London, Aug. 30.—The Roumanian army is advancing into Hungary. The first important victory of the fifteenth power to enter the European war is admitted by Vienna in an official statement which says the Austro-Hungarian troops, which claimed the advantage in the initial clash with the new belligerent Monday, have been forced to retreat.

This announcement, coupled with a statement earlier in the day that the Bulgarians have blown up several bridges across the Danube, indicates that the rush of the Roumanians has put the Teutons on the defensive at all points. The blowing up of the Danube bridges is interpreted as meaning that the Teutons have given up all hope of an invasion of Roumania and an advance across the Danube against Bucharest, and re content to put what obstacles they may in the way of a Roumanian invasion of eastern Hungary, which is already menaced by the Russian drive through the Carpathians.

Rusa Move on Bulgars.

The power of the new offensive against the central powers rapidly gained strength, the entry of Russian troops into Roumania with the purpose of moving against Bulgaria from this new direction, having further complicated the defensive task of the central power. These Russian forces are believed to be directed against the railroad communication between the central powers and Constantinople, the cutting of which would be a terrific blow to the Turks and would open the way for a land attack which is expected to be the opening wedge in the task of clearing the Dardanelles and opening direct water communication between Russia and the entente allies.

ITALIANS DRIVE FOE BACK

Austrians Forced to Flee Trenches on Mount Cimone.

Rome, Aug. 30.—Austro-Hungarian troops holding the northern slope of Monte Cimone have been driven from their trenches, says an official report issued by the war office.

At Monte Majo the Italians drove the Austro-Hungarians back, capturing twenty prisoners. The summit of Mount Cairiol, about which there has been severe fighting for upwards of a week, has been captured by the Italians. Thirty prisoners were taken.

Noted Landscape Painter Dies. Paris, Aug. 30.—Henri Harpignies, the famous landscape painter, died here at the age of ninety-seven. He prided himself on the sumptuous table he kept and on the fact he could drink three liquors and smoke twelve pipes a day up until the last week of his life.

Thief Raids Jail; Gets \$463.

Marion, Ind., Aug. 29.—The Grant county jail here was visited by a thief early in the day and a box containing \$463, the property of the Marion Service company, was taken. The money was in the room occupied by D. P. Artman, turnkey.

Bore for Water, Get Oil.

Sterling, Ill., Aug. 29.—Drillers who yank a well for a factory discovered oil at a depth of 150 feet, and in such quantities as to make it impossible to use the water for drinking purposes.

THREE STRIKERS ARE SHOT

Milk Wagon Drivers at St. Louis Fire Into Jeering Crowd.

St. Louis, Aug. 30.—Three striking milk wagon drivers were shot here by men who were on a milk truck belonging to the Pevelly Dairy company. The company had advertised that it would meet all its former employees who desired to return to work at 4 o'clock in the afternoon. About 300 union men assembled on a vacant lot in front of the plant to demonstrate against returning to work. About 5 o'clock a truck carrying six or seven men passed. The union men began to jeer and the men on the truck fired into the crowd.

Germans Fire 2,000 Gas Shells.

Petrograd, Aug. 30.—An official statement issued by the Russian war department says: "In the region of Toboly-Helina the enemy launched an attack upon our position on the western bank of the Stokhod river. The attack was repelled. During the day the enemy fired 2,000 asphyxiating gas shells in this region. Southeast of Smolary the enemy attacked our detachments which were occupying the islands, but without any success."

WHY WOMEN WRITE LETTERS

To Lydia E. Pinkham Medicine Co.

Women who are well often ask "Are the letters which the Lydia E. Pinkham Medicine Co. are continually publishing, genuine?" "Are they truthful?" "Why do women write such letters?"

In answer we say that never have we published a fictitious letter or name. Never, knowingly, have we published an untruthful letter, or one without the full and written consent of the woman who wrote it.

The reason that thousands of women from all parts of the country write such grateful letters to the Lydia E. Pinkham Medicine Co. is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives, once burdened with pain and suffering. It has relieved women from some of the worst forms of female ills, from displacements, inflammation, ulceration, irregularities, nervousness, weakness, stomach troubles and from the blues.

It is impossible for any woman who is well and who has never suffered to realize how these poor, suffering women feel when restored to health; their keen desire to help other women who are suffering as they did.
