Reader, did you ever take Simmons' Liver Regulator, the "King of Liver Medicines?" Every body needs take a liver remedy. It is a sluggish or diseased liver that impairs digestion and causes constipation, when the waste that should be carried off remains in the body and poisons the whole system. That dull, heavy feeling is due to a torpid liver. Bilelessness, Headache, Malaria and indigestion are all liver diseases. Keep the liver active by an occasional dose of Simmons' Liver Regulator and you'll get rid of those troubles, and give tone to the whole system. For a laxative Simmons' Liver Regulator is BETTER THAN PEPSIN. It does not gripe, nor weaken, but greatly refreshes and strengthens.

Every package has the Red Z stamp on the wrapper. J. H. Zellin & Co., Philadelphia.

A Clubbing Offer.

A great many of our readers Linn county like to take the weekly Oregonian. We have made arrangements whereby we can furnish it at a reduction from the regular price to those who want both the Express and the Oregonian. The regular price of the Oregonian is \$1.50 per year, and of the Express \$1.50 when in advance. We will furnish both for \$2. per year in advance a saving of one dollar to the subscriber. The Oregonian gives all the general news of the country once a week, and the Express gives all the local news once a week, which will make a most excellent news service for the moderate sum of \$2. per year. Those who are at present subscribers of the Express must pay in all arrears and one year in advance to obtain this special price.

PORTLAND TO SALEM

AN ELECTRIC ROAD PROJECT

Resignation of Dr. W. A. Cusick and Clara Davidson as Physicians at the Asylum.

SALEM, Aug. 31.—There is at least a probability that the project to connect Salem and Portland by an electric railway will be revived with the dawn of better times. The scheme was well under way three years ago—just at the time to be thwarted by the financial crisis. F. N. Derby, superintendent of the capitol railway, has been assigned of capital by an eastern firm to build and equip the line. There is ample water-power for the generation of electricity between the two points, and Mr. Derby estimates that 450,000 will put the line in operation. His plan was to purchase a strip of land one half mile wide along the route and divide it into small tracts for sale. The route, as contemplated by the projectors, was east of Oregon City, but Mr. Derby thinks it not altogether impracticable to go between the river and bluff at that point without crossing the former. As an investment, Mr. Derby is positive that an electric line connecting Salem and Portland would pay. With 30,000 people at one end of the line, and 15,000 at the other, to draw from, and the intervening tributaries, passengers, he thinks, could be carried from Salem to Portland at a profit to the road. It is not at all improbable that this enterprise will be again taken up and pushed to completion in the near future.

The resignation of Dr. W. A. Cusick, visiting physician, and Dr. Clara Davidson, lady physician of the asylum, will be considered at the meeting of the board next Tuesday. In his resignation Dr. Cusick generously offered his service gratuitously hereafter. In requesting her release Dr. Davidson shows diplomacy by asking for an increase of wages. Speaking of the resignations, Dr. Palmé said it was purely a matter of economy. The salaries of the two amount to \$1600 a year. A stenographer will be employed instead, said the superintendent, who will take all the clerical work of the physicians, and a weekly clinic will be established. All cases not demanding immediate attention will be deferred until clinic day. Another innovation is said to be in contemplation which is the introduction of trained nurses.

The Michigan Mines.

ISHPEMING, Mich., Aug. 31.—Learning that the striking miners had given forcible opposition to the deputies who have been chosen to guard the steam shovels, who are coming from the outside points, it was today decided by the local authorities to call for troops. Seven companies of the state militia have been ordered out, and are moving toward Ishpeeming tonight. The news is gladly received by the merchants and many workmen who have been out of employment for seven weeks, and who have not the courage to oppose the strikers. Four cars of shovels arrived today by special train, and are quartered at the Lake Angelline, Lake Superior and Cleveland mines. The shovels will be started Monday.

A loss of over \$500,000 has been caused thus far by the strike. There was a large meeting of strikers in this city today, and much excitement was shown, due to the news that the shovels would be started Monday.

Labor Day.

SAN FRANCISCO, Aug. 31.—The federal offices will all be closed on labor day. The heads of departments were uncertain for a time, but each finally issued an order to close his office Monday. Duty-paid vessels will be allowed to discharge as usual. The day will not be observed as a state holiday.

Mrs. T. S. Hawkins, Chattanooga, Tenn., says, "Shiloh's Vitalizer 'SAVED MY LIFE.' I consider it the best remedy for a debilitated system I ever used." For Dyspepsia, Liver or Kidney trouble it excels. Price 75c. Sold by N. W. Smith.

The Women of Utah.

SALT LAKE, Utah, Aug. 31.—The supreme court has decided that women cannot vote at the coming election in November. The case came up on appeal in the suit of Sarah E. Anderson against Charles Tyree, register officer at Ogden, involving the question of women voting.

Chief Justice Merritt rendered the decision today. He said that Judge Barthe and himself had arrived at a conclusion. Judge King dissented on the subject. Mrs. Anderson had asked that her name be placed on the register roll. Judge Merritt said the Edmunds-Tucker law had not been repealed and would remain effective until statehood was achieved. Section 2 of the enabling act had extended the franchise among males, but had not referred to females. To allow females to vote would be in conflict with the act and was forbidden. There had been stress laid upon the fourth section of the enabling act, where the "qualified voters of the proposed state" were authorized to vote. In his view these qualified voters were those qualified under existing laws and the enabling act. There has been no intention on the part of the constitutional convention to allow women to vote at the first election in November next, but to allow them to vote thereafter. This was clearly shown in section 11, of the schedule of the constitution.

Twelve Men at Last.

SAN FRANCISCO, Aug. 29.—The tedious work of completing a jury to try Theodore Durrant for the murder of Blanche Lamont was ended today by the acceptance of Samuel E. Dutton, a wholesale stationer, as the twelfth juror. After the information had been read, both sides joined in a request for an adjournment until Monday, promising that there should be no further delays until the completion of the case. The court after some hesitation, granted the request for adjournment, giving notice to counsel that he would probably hold court on Saturdays until the testimony in the case is all in.

Monday the case will be opened by District Attorney Barnes. His address is expected to cover the entire case, and to marshal all the material points of the prosecution. He had at first intended to ask that two extra jurors be selected as a reserve, but this idea was abandoned. The difficulty experienced in obtaining twelve jurors and the uncertainty of the constitutionality of the law passed at the last legislature permitting a jury of fourteen in criminal cases satisfied the district attorney to proceed with the talesmen already secured.

A New Star for the Flag.

WASHINGTON, Aug. 30.—Another star, the forty-fifth, will be added to the flag. The new star will represent Utah, and the order for its addition to the national colors was issued by Secretary Lamont. The star will be placed to the right of the fourth row from the top.

The order for the additional star is accompanied by one changing the size of the colors. Heretofore the standard has been six feet by five. The new order makes the regulation size five feet six inches by four feet four inches. The order provides for new colors to be issued to all infantry, artillery and battalions of engineers, and also for new standards for all cavalry. The new flags will be very handsome. They are to be made of the finest American silk, and their cost will be considerable.

Utah will not attain statehood until July 4, next, but all the flags hereafter contracted for and issued will contain a star heralding the admission of that territory into the Union of States.

Badly Bruised.

ROSEBURG, Aug. 30.—A party, consisting of S. C. Flint and wife, Thomas Hinkle, Misses Jennie Buick and Marie Wissing, left Roseburg this morning for Tiopa, (twenty-five miles east of here. When within five miles of their destination and at Lone Rock ferry, on a heavy grade, the neckyoke of the hack broke, frightening the horses. In running down grade the hack struck a large tree, throwing all out in a heap. The ladies received some bruises, and Hinkle was badly bruised about the head. Flint was badly injured about the legs, and when the messenger left was unable to speak. Medical attendance left this evening.

SHILOH'S CURE, the great Cough and Croup Cure, is in great demand. Pocket size contains twenty-five only 65c. Children love it. Sold by N. W. Smith.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

He Cried Wolf too Often.

NORTH YAKIMA, Aug. 31.—Today, while a party of boys were bathing in the Yakima river, one of them, Chester Rosenfeldt, cried out he was drowning. He had on several occasions, made this claim in sport, and no attention was paid to it until he went under for the third time. Then his companions went to his rescue, but it was ten minutes before he could be gotten out. His body was still warm, but efforts at resuscitation proved futile. The deceased was the son of J. W. Rosenfeldt, a well-known merchant of this city, and formerly of Portland.

Real is a Free Man.

SALEM, Aug. 30.—The Rev. J. C. Read received his discharge from the insane asylum today, and returned to Oregon City, where he expects to remain a short time. It is his intention to go to California soon.

Congressman Clark on Yaquina.

Congressman C. W. Clark, of Missouri, who recently returned from a week's stay at Yaquina, has been down to Astoria. In an interview he said, among other things:

"I am on a visit to the Pacific coast for strictly business reasons, as I believe that I cannot fill the time before congress meets better than by thoroughly posting myself not only on the general condition of things in the West, but also on special matters in which the central government is concerned. At Yaquina Bay, where I have been staying for the past week, I thoroughly inspected the government works, and was shown great kindness by Captain Synson. It is a pity to have the fact thrust on one's notice that in the building of all these great national undertakings, there are glaring faults, not in the matter of actual construction, but in the methods employed. The work at Yaquina Bay has taken thirteen years to complete to its present stage, when three years would have been ample time. There have been three stoppages with a break of years between each, and the whole thing shows plainly on its surface the result of such a patchwork policy. I believe and intend to advocate with all my strength in the government running its business just in the same manner as any level headed private citizen would look after his own interests. Why should undertakings of this character be built by Congress, and its starts. Why cannot the national government decide what work is necessary, appropriate a sufficient amount of money to take it to a completion, and then lose no time in finishing it up? The day I left Yaquina the superintendent in charge was busy dismantling and housing all the machinery for the fall and winter months, spending valuable time and government money in doing something that should have been wholly unnecessary.

Tillamook Fisherman.

The fishermen of Tillamook are organized and ask twenty cents apiece for silver sides and fifty cents apiece for chinook salmon, says the Headlight. About fifteen fishermen have been brought in from the Columbia, and it is thought there will be trouble if they attempt to fish at the old price—fifteen and thirty cents. The cannerymen claim that fish were so plentiful this year on the Columbia and that prices are so low that it is impossible to accede to the demands of the fishermen. The fishermen claim that over \$1 per fish is paid on the Columbia; that the prices asked are very low, and that they can make more by not fishing, or sending what few they do catch across the mountains for the valley trade. They say the cannery leaves no money here, and that those who do fish come out about even at the end of the season, and that it is just as well to let the fish rest and breed for a year. The fishermen are determined, and it is rumored there will be trouble if anybody tries to fish at the low prices. On the other hand, the proprietors of the cannery say they will have no trouble, but will pull up stakes and abandon fishing this year if there is any strike.

Testing Soil.

Four Calcutta sacks of dirt lying on the college farm, says the Corvallis Gazette, attract the attention of the pedestrian who goes out to the O. A. C. building. Each sack contains a sample of soil, one hundred pounds in weight, and is to be shipped back to the Department of Agriculture at Washington, there to be experimented with in order to ascertain what elements it comprises, and for what purposes it is best adapted. The soil is taken out of the ground in layers two inches in thickness, the first one coming from the top of the ground. The next layer is taken out at a depth of eight inches, the next one at two, and the fourth at four feet of depth. The accumulation and the shipment of the samples of soil is under direction of Prof. Shaw, chemist at the experiment station, and the samples are being gathered from all parts of the farm, and are to represent all the various kinds of soil found within the farm's borders. The sacks seen on the campus were taken from the old farm, and are specimens of Oregon's well known "white land." They will be started on the journey east in a day or two.

Railroad Hogs.

The Roseburg Review is sorry to chronicle the news that the recent shipment of green plums, to the eastern markets through the Oregon Fruit Union have proven financially unsuccessful. The fruit sold from sixty-five to eighty-four cents a box, certainly a good price, and shippers expected fair profits but was disappointed when their checks arrived. It seems that it was represented to the fruit growers here that the freight would be one and a quarter cents a pound, but when the returns from the shipments came, it figured up two cents or more, leaving growers little or nothing. Judge Riddle shipped 2400 pounds of plums and received a check for \$74, having paid \$75 for picking and placing the fruit aboard the cars. He was out his plums \$1 in money and the board of the pickers. Mr. Godfrey's plums sold at the rate of \$2.25 cents a bushel and the railroad let him have 5 cents of it, keeping the \$2.30.

Sold at Sheriff's Sale.

Sheriff McFerson sold at sheriff's sale Saturday five pieces of land for claims aggregating \$13,584.42. The plaintiff was purchaser in each case and the sales were as follows:
The German Savings and Loan Society, U. S. plaintiff The Portland Construction company, 600 acres, sold for \$9550.
