## COMMISSIONERS' COURT September Term Is a Short One — Principal Business Auditing of Bills.

The regular September term of the County Court was convened on Wednesday, Sept. 4, at the County Court chambers, the full Court being present.

No matters of very great importance came up for consideration, and the auditing of claims against the county took the principal time of the Court. These were not as numerous as common so the commissioners were able to get through with the business of the term in one day.

The full proceedings follow herewith:

Bonds of Farmers' Union Warehouse Co., Phill Cohn, and Interior Warehouse Co., all warehousemen of Morrow county, were read and approved.

Petition of C. A. Lovgren, et al, for county road read and rejected on account of not having required number of legal petitioners.

The resignation of D. V. S. Reid as county surveyor was accepted and Loy M. Turner was appointed to fill out the unexpired term.

To aid in securing exhibits for the Morrow-Umatilla fair, the court appropriated the sum of \$250 and appointed D. C. Gurdane to disburse the same and look after the exhibits.

Wood contract with A. M. Slocum was cancelled, and clerk instructed to pay for amount already delivered, 33 1-2 cords, at the contract price.

## COUNCIL PROCEEDINGS.

### First Meeting In Two Months ---Water Bonds Paid.

The City Council met on Monday evening after having failed to get together for a couple of months. As a consequence there was an accumulation of bills against the city, but little other business to claim the attention of the council.

In the absence of Mayor Van Vactor, W. O. Minor, chairman of the Council, presided, and there were present beside him councilmen Barratt, Kirk and Currin.

A petition asking the council to vacate a portion of the street and public road, and to re-establish the public road on new lines just east of the new school building in Day's Addition, was submitted to the council, and after due consideration the same was granted. This will vacate a portion of the east end of Baltimore street and change the present road and make it run farther up on the hill toward the old school building. Beginning at a point not far from the mill, the road can be made to run around the point of the schoolhouse hill on a three per cent grade, and its relocation will be an improvement. It was really made necessary by the location of the new school building.

A similar petition was also presented asking that Sterling, Clark and Huggins streets lying in Shipley's Addition be vacated, and the prayer of the petitioners was granted. The erection of the Farmers' warehouse, which will cover a large portion of this addition, made it necessary that these streets be vacated.

The O.-W. R. & N. Co. was granted the right to construct and maintain a railroad track across Morgan street to connect its main line with the Farmers' warehouse.

The following claims against the city were audited and allowed:

L W Briggs, principal, interest and expense in paying off water bonds	\$15,462 50

## Economical

It has been claimed that ready-made clothes are cheapest because they are made in quantities. This is not true.

If the manufacturer could have people come to his factory and buy there, he could not even then give good value because of the poor quality of material and inferior workmanship.

To the original cost of the garment, the manufacturer must pay traveling salesmen's expenses and the retailer adds another profit of about 40 per cent.

The original "quality price" is thereby lost and the price is higher than that of a carefully merchant tailored suit made here.

There are a great many men in this town who are proud to say we make their clothes.

THEY KNOW WHY.

I have the exclusive agency in Morrow county for the Famous Detmer Woolen Co.'s guaranteed all pure wool.
