

A New Model Typewriter!

OLIVER
The Standard Visible Writer

BUY IT NOW!

Yes, the crowning typewriter triumph is here!

IT IS JUST OUT—AND COMES YEARS BEFORE EXPERTS EXPECTED IT.

For makers have striven a life-time to attain this ideal machine. And Oliver has won again, as we scored when we gave the world its first visible writing.

There is truly no other typewriter on earth like this new Oliver "9." Think of a touch so light that the tread of a kitten will run the keys!

CAUTION!

The new-day advances that come alone on this machine are all controlled by Oliver. Even our own previous models—famous in their day—never had the Optional Duplex Shift.

It puts the whole control of 84 letters and characters in the little fingers of the right and left hands. And it lets you write them all with 28 keys, the least to operate of any standard typewriter made.

Thus writers of all other machines can immediately run the Oliver Number "9" with more speed and greater ease.

17 CENTS A DAY! Remember this brand-new Oliver "9" is the greatest value ever given in a typewriter. It has all our previous special inventions—visible writing, automatic spacer, 6 1/4-ounce touch—plus the Optional Duplex Shift, Selective Color Attachment, and all these other new-day features.

Yet we have decided to sell it to everyone everywhere on our famous payment plan—17 cents a day! Now every user can easily afford to have the world's crack visible writer, with the famous PRINTYPE, that writes like print, included FREE if desired.

TODAY—Write for Full Details and be among the first to know about this marvel of writing machines. See why typists, employers, and individuals everywhere are flocking to the Oliver. Just mail a postal at once. No obligation. It's a pleasure for us to tell you about it.

THE OLIVER TYPEWRITER CO., Oliver Typewriter Building, Chicago.

WARNING!

This brilliant new Oliver comes at the old-time price. It costs no more than lesser makes—now out-of-date when compared with this discovery.

For while the Oliver's splendid new features are costly—we have equalized the added expense to us by simplifying construction.

Resolve right now to see this great achievement before you spend a dollar for any typewriter. If you are using some other make you will want to see how much more this one does.

If you are using an Oliver, it naturally follows that you want the finest model.

SAVING SEED CORN FROM FROSTED FIELD

Most Mature Ears Should be Snapped Off. Later Husked, and Then Properly Dried.

In order to secure corn, much of which has undoubtedly been very seriously damaged by the early frost, suitable for seed for next season's crop, farmers should go through their fields before cutting the corn for silage and snap off all of the more mature ears which show reasonably good denting.

"The early frost has caught a good deal of the early seed corn in the milk and much of it will be unfit for seed purposes," says G. R. Hyslop, specialist in field crops at the Oregon Agricultural College.

"Seed corn will undoubtedly be a very scarce article next spring.

"By going through the field and snapping off the more mature ears, farmers will frequently be able to secure satisfactory seed. These ears should be husked out within a few days and stored on the drying rack recommended by the College, in some place that is warm with a current of air. Most of the immature corn may be dried in sufficiently good condition to germinate and produce good corn next year.

"This season has been late as to growing and early as to frost. It very forcibly demonstrates the necessity for an early to a medium maturing variety of silage corn, both from the standpoint of quality of silage and ability to secure sufficient seed to keep up the crop.

"Under no condition try to store the immature corn in bulk or on shelves or in sacks. If you do, it will certainly mold. It should be put on racks or on wires, or should be tied up with string so that no two ears touch and so that the air has access to each ear. Put the corn in a place that is warm and in a draught and it will dry out quickly and without sprouting. If put into a place that is warm without ventilation the immature corn is likely to sprout at once. If put into a cool place without ventilation, the tendency is for it to mold and sour. Corn will successfully stand 130 degrees, F.

"Every farmer should save enough of his best mature seed and try it in order to be certain of a seed stock for next year."

Cigarettes are not sold at the new co-operative store of the University of Oregon students although the store is not on University property. The student directors have decided temporarily against cigarettes and the injunction is likely to stand. The students also have an unwritten law against smoking of any kind on the campus.

The small baby of Mr. and Mrs. Walter Rood has been sick for several days and was brought to town the first of the week by the parents for medical aid.

308 X YES IS A VOTE FOR YOUR CHILDREN

SQUARE DEAL FOR EASTERN OREGON

If you are in favor of a square deal for the country East of the Cascades you will vote for and work for THE PROPOSED EASTERN OREGON STATE NORMAL SCHOOL AT PENDLETON, OREGON. Oregon has but one Normal School. This school is located at Monmouth and is not able to supply more than TEN PER CENT of the teachers required in the public schools of Oregon. Of the more than six thousand teachers in our public schools, BUT 13 PER CENT are graduates of Normal Schools. It is a matter of simple justice to the country East of the Cascades to establish a Normal School East of the mountains to furnish thoroughly trained teachers for the schools of Eastern Oregon.

TRAINED INSTRUCTORS WANTED

Every resident of Eastern Oregon has a vital interest in the passage of this measure for Eastern Oregon pays HIGH SALARIES to her teachers and is entitled to the services of TRAINED INSTRUCTORS.

ONLY COSTS 4 CENTS PER \$1,000

The annual cost of maintenance of the proposed State Normal School amounts to BUT ONE 25TH OF A MILL OR 4 CENTS ON A THOUSAND DOLLARS of taxable property. Isn't it worth this to you to have your children trained to become USEFUL AND PRODUCTIVE citizens?

STRONG ENDORSEMENT

J. A. Churchill, the State Superintendent of Public Instruction, voices the sentiment of the educators of the state when he says:

"Oregon's greatest need for its rural schools is the teacher who has had full preparation to do her work. Such preparation can best come through Normal School training.

"I trust that the voters of the state will assist in raising the standard of our schools by establishing a State Normal School at Pendleton. The location is central, the interest of the people of Pendleton in education most excellent, and the large number of pupils in the public schools will give ample opportunity to all students to get the amount of teaching practice required in a standard normal school."

The educators of the State insist that Standard Normal Schools be located in towns of 5000 population or more and having ENOUGH GRADE PUPILS FOR TEACHER PRACTICE.

BE LOYAL AND VOTE RIGHT

Show your loyalty to the best interests of Eastern Oregon and of the whole state by working for this measure and by voting YES FOR NO. 308. By voting YES for No. 308 you will help to GIVE TO THE SCHOOL CHILDREN OF OREGON THE SAME ADVANTAGES ENJOYED BY THE SCHOOL CHILDREN OF OUR NEIGHBORING STATES.

SHOOTING STARS PROMISED FOR NOVEMBER

First Display Nov. 15, Second Nov. 24; Northern Lights This Winter

University of Oregon, Eugene, Oct. 2—Two separate annual displays of shooting stars will be visible throughout Oregon November 15 and 24, according to E. H. McAllister, professor of astronomy and mechanics in the State University. The display due on November 15 may be seen in the early morning hours; that of November 24 is due in the early evening. The earth at these times will be cutting through the orbit of the swarm of meteors from which the stars come.

Display of the aurora borealis will be visible in Oregon next winter for the first time in 11 years, Mr. McAllister says. Northern lights are dim in this latitude of the west, except when the sun spots have reached their maximum number, which occurs only once in 11 years. A connection between the sun spots and the aurora borealis is believed by many scientists to exist.

Sells Town Property.

T. J. Matlock, upper Hinton creek farmer, has sold his residence property on Gale street to Clagd Coats. The price paid by Mr. Coats was \$1500. Frank Turner who has been living in the Matlock house, has moved his family into one of the Stoum residences.

BOARDMAN ITEMS

C. C. Paine was a business visitor in Stanfield Monday.

J. W. Ragen of Ione stopped over night in town Friday.

Mrs. Royal Rands entertained Miss Clara Voyne at dinner Sunday.

Paul Jones of Hermiston was a visitor at the Boardman hotel Friday.

Brown of Hermiston was in town Saturday. He spent the day looking over the project.

Wm. Nelson of Echo was a Sunday visitor at the Harper home. He returned home Monday.

Sunday School was held in the school house for the first time Sunday. There were 13 present.

Mr. Callbeck went up to Hermiston Saturday to spend Sunday with his family, returning Monday morning.

Miss Marvel Blyden left for Lewiston Saturday morning to attend the Lewiston Normal. She expects to be gone all winter.

C. Voyne and wife spent the week end with Mrs. Voyne's parents, Mr. and Mrs. Fred Phelps of Hermiston.

James Carty of Lexington was transacting business in Heppner Wednesday.

W. H. Padberg and wife were visiting with Heppner friends Tuesday. Mr. Padberg is one of the big wheat growers of Morrow County. He recently purchased the Ralph Bengt ranch in Clarks Caynon.

BIDS OPEN FOR GOVERNMENT TIMBER LAND

Portland, Ore., Oct. 7, 1916.—Bids were opened today by the District Forester, Portland, for the sale of 124,000,000 feet of timber on the Middle Fork John Day River, Whitman National Forest. The Pacific States Timber Investment Company, of which Mr. Frank B. Mitchell of Baker, Oregon, is President, was the highest bidder.

The timber involved in the sale is 92 per cent yellow pine and is situated in T. 10 S., R. 34 and 35 E., and T. 11 S., R. 33 and 34 E., W. M. and covers an approximate area of 14,600 acres. The prices bid by the Company are \$2.91 per M. for the yellow pine and 75 cents per M. for the other species.

Mr. Mitchell, the President of the Company, says that they will build a mill of 75,000 feet daily capacity at Austin, Oregon and a railroad tap line will be built from that point to log the timber. A planing and finishing mill will be constructed in Baker. The Pacific States Timber Investment Company is a Minneapolis corporation, with considerable holdings on the Middle Fork John Day River.

Church of Christ.

Subject of morning sermon Sunday. "This Do."

In the evening Mrs. Berwick will give an address. She is talented and her address will be of value especially to young people. Special music will be given.

Such tobacco enjoyment

as you never thought could be is yours to command quick as you buy some Prince Albert and fire-up a pipe or a home-made cigarette!

Prince Albert gives you every tobacco satisfaction your smoke-appetite ever hankered for. That's because it's made by a patented process that cuts out bite and parch! Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

PRINCE ALBERT

the national joy smoke

has a flavor as different as it is delightful. You never tasted the like of it! And that isn't strange, either.

Buy Prince Albert everywhere tobacco is sold in tippy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidors—and that corking fine pound crystal-glass humidor with sponge-moistener top that keeps the tobacco in such cleaver trim—always!

Men who think they can't smoke a pipe or roll a cigarette can smoke and will smoke if they use Prince Albert. And smokers who have not yet given P. A. a try-out certainly have a big surprise and a lot of enjoyment coming their way as soon as they invest in a supply. Prince Albert tobacco will tell its own story!
