Sadie Bowen asks that The Gazette-Times extend her sincere thanks to those who have so kindly assisted her during the past week in her need; also to the Knights of Pythias lodge for their substantial help. Mrs. Bowen, who is getting well along in years, has to depend upon what work she can get to do in order to make a living. Of late she has been out of employment and has reached a point of destitution. Her condition being made known to the good people of Heppner, assistance was rendered her at once, her coal bin was replenished, and the old lady given other assistance that will assure her comfort while she is out of work. For all of this Mrs. Bowen is very grateful.

Oris Padberg was in the city from his Heppner Flat farm on Wednesday. Out that way the snow has drifted very badly, blowing off the hills and filling up the low places. Many fields were blown quite clean of snow over large areas and this is rather bad for the growing wheat. Should more snow come and cover up the bare spots, it will be of much benefit in protecting the grain while the cold snap is on. There was no frost in the ground when the big snow began falling and Mr. Padberg thinks there was at least 15 inches on the level.

Mrs. Henry Boten was here during the past week, attending to business in connection with the final settlement of the John Garbide estate, of which she is the administratrix. She departed for her home at Kamela, Oregon, on Tuesday. After the first of the year she will have charge of the eating house at that place, and when any of the Heppner people are passing that way on the Oregon trail, she would be pleased to have them give her a call.

Con McLaughlin, who is an extensive rancher of the Lena country, was in Heppner the first of the week. He reports lots of winter out his way, with the snow badly drifted as it is around Heppner. Mr. McLaughlin, who is extensively engaged in hog raising, will spend the winter near Vinson, where he has secured feed for his stock.

Mr. and Mrs. Jeff Jones returned home on Saturday from Oakland, Calif., where Mrs. Jones has been spending the past three months, and where she was joined a few weeks ago by Mr. Jones. They spent a week in Portland on the way up.

Oscar Keithley, Eight Mile farmer, was in the city yesterday and landed a bunch of orders for turkeys, dressed and undressed, for the Christmas dinner of Heppner citizens. He raised a fine lot of the royal birds this season.

Dates Announced for Oregon State Wool Growers Convention.

The annual Convention of the Oregon State Wool Growers will be held in Pendleton, January 27-29, 1923. As these dates follow immediately after the National Convention which will be held in Spokane, Secretary Mac Hoke of the Oregon Association has been able to secure a fine array of talent of national prominence for the Pendleton Session.

"Indications are that we will have a record attendance, not only because of the splendid program and important business to be transacted, but because of the fact that all applicants for forest grazing privileges must appear in person this year before a special committee that will be in session at the Convention," declares Jay Dobbin, President of the Oregon State Wool Growers Association.

Live Cecil News Items.

Here's the Secret Of that wonderful "round" tone

On hearing The Brunswick for the first time every music lover exclaims at its wonderful full, round, life-like tones. Back of the grill is the secret—an oval horn built entirely of wood on the violin principle. Sound waves are amplified and sent out to the listener in correct acoustical "circles." No metal touches them. That's the secret!
