

Will You Read This Twice?

A very important question to-day which every housekeeper must decide for herself is whether she prefers pure, cream of tartar baking powder like Royal or whether she is willing to use baking powder made of inferior substitutes which do not add healthful qualities to the food.

One kind is easily distinguished from the other, since the laws of various States require the ingredients to be printed upon the label. If anyone is in doubt which kind is most healthful, it is worth while to ask the family doctor. Then decide.

And when once a decision is reached let no advertisement or dealer's argument or canvasser's solicitation change the decision. It is not a question of a few cents or of pleasing a salesman. It is a question of health.

If this appeals to you as reasonable and sensible advice, it is worth reading twice. And it is worth remembering.
