

consulted in its preparation. Bound in unique wood covers. 158 pp., 12mo. \$1.00.

The Ice Crop.
By Theron L. Hiles. How to harvest, ship and use ice. A complete, practical treatise for farmers, dairymen, ice dealers, produce shippers, meat packers, cold storers and all interested in ice houses, cold storage and the handling and use of ice in any way. Including many receipts for iced dishes and beverages. The book is illustrated by cuts of the tools and machinery used in cutting and storing ice, and the different forms of ice houses and cold storage buildings. 122pp., ill., cloth, 16mo. \$1.00.

The Hop.
Its culture and cure, marketing and manufacture. By Herbert Myrick, assisted by practical experts in successful hop culture in America, England and Europe, deal-
The Study of Breeds.

By Thomas Shaw, professor of animal husbandry, University of Minnesota. This book gives the origin and history of all the pedigreed breeds of cattle, sheep and swine now found in America, in a manner at once brief, comprehensive and in regular sequence. It also deals with their present distribution. It treats of the characteristics of each breed, showing relative size, adaptability, early maturity, feeding and breeding qualities, and uses in crossing and grading. It also gives relative milk production in cattle and wool production in sheep. It gives the recognized standards or scales of points where these exist, and where they do not, standards are submitted. It is a summary of condensations, stated in a manner at once clear, concise, comprehensive and exact. The time occupied in preparing this book has covered a large portion of 12 years. Illustrations are given of male and female animals of each breed that are true to the type. For farmer, breeder or student, the book is the one complete and reliable guide. Upward of 400 pages, nearly 100 full-page plates, cloth, 12mo. \$1.50

The American Standard of Perfection.
The recognized standard work on poultry in this country, adopted by the American poultry association. It contains a complete description of all the recognized varieties of fowls, including turkeys, ducks and geese; gives instructions to judges; glossary of technical terms and nomenclature. It contains 278 pages handsomely bound in cloth, embellished with title in gold on front cover. 1.00

Broilers for Profit.
By Michael K. Boyer. A practical guide to successful broiler raising for market. Written mainly from the experience of the pioneer broiler raisers in this country. Paper .50

The Practical Fruit Grower.
By S. T. Maynard. Just what the beginner needs and the successful fruit man practices. Illustrated. Cloth, 50 cents.

The Cider Maker's Handbook.
By J. M. Trowbridge. A complete guide for the making and keeping of pure cider. Fully illustrated. Cloth, 12mo. \$1.00.

Feeds and Feeding.
By W. A. Henry, dean of the college of agriculture and director of the agricultural experiment station, University of Wisconsin. This large and handsome volume is an exhaustive compendium of useful knowledge, to date, in the broad field covered by the title. In its preparation the extensive experiments conducted by investigators in the old world as well as the work of American experiment stations have all been carefully garnered, sifted, compared and arranged in the best form possible, care being taken to give the subject matter a practical, helpful bearing to the farmer and stockman. The numerous tables contained are well digested and arranged in form to convey quickly and accurately to the mind the data and summaries of results of feeding trials, analyses of feeding stuffs by the chemists, digestion work, etc., etc. The one up-to-date manual on this most important topic. Cloth, 8vo., 675 pages. \$2.00

Testing Milk and Its Products.
By E. H. Farrington and F. W. Woll. A manual for dairy students, creamery and cheese factory operators and farmers. All the questions involved in the various methods of testing milk and cream are handled with rare skill, and yet in so plain a manner that they can be fully understood by all. The book will be found invaluable to every dairymen and buttermaker, and should be in the hands of everyone interested in the subject. Cloth, 8vo. Illustrated. \$1.00

American Dairying.
By H. B. Gurler. A practical treatise on dairy farming and the management of creameries. The book is in two parts. I on private dairying. II on creamery manufacture and milk preservation.
By J. H. Monrad. A complete treatise on pasteurization, sterilization and the preservation and selling of milk in general. Illustrated. paper. .50

Five Hundred Questions and Answers.
In poultry raising. With chapters on the feed and care of poultry, diseases, eggs, incubation, buildings and miscellaneous queries on turkeys, geese and ducks. 8vo. Paper .25

Riley on the Mule.
By Harvey Riley. A treatise on the feeding and training of the mule, and the uses

The Farmer's Veterinary Adviser.
By Prof. James Law. A guide to the prevention and treatment of diseases in domestic animals. This is one of the best works on this subject, and is especially designed to supply the need of the busy American farmer, who can rarely avail himself of the advice of a scientific veterinarian. It is brought up to date and treats of the

prevention of disease as well as of the remedies. Cloth, 8vo. \$3.00

Dadd's American Cattle Doctor.
By George H. Dadd, V. S., twenty-five years a leading veterinary surgeon in England and the United States, and author of the "American Reformed Horse Book." A complete work on all the diseases of cattle, sheep and swine, including every disease peculiar to America and embracing all the latest information on the cattle plague and trichina; containing also a guide to symptoms, a table of weights and measures and a list of valuable medicines. Cloth, 8vo. Illustrated. 2.00

The Nut Culturist.
By Andrew S. Fuller. A treatise on the propagation, planting and cultivation of nut-bearing trees and shrubs adapted to the climate of the United States, with the scientific and common names of the fruits known in commerce as edible or otherwise useful nuts. Intended to aid the farmer to increase his income without adding to his expenses or labor. Cloth, 12mo. \$1.50.

Small Fruit Culturist.
By Andrew S. Fuller. The book covers the whole ground of propagating small fruits, their culture, varieties, packing for market, etc. It is very finely and thoroughly illustrated, and makes an admirable companion to "The Grape Culturist." Cloth, 12mo. \$1.00.

Duck Culture.
By James Rankin. Natural and artificial. Fully illustrated. Paper. .25

Stoddard's The New Egg Farm.
Or, the management of poultry on a large scale for commercial purposes. A practical manual and reliable handbook upon producing eggs and poultry for market as a profitable business enterprise, either by itself or connected with other branches of agriculture. By H. H. Stoddard, for many years editor American Poultry Journal, The Poultry Weekly, author of An Egg Farm, etc., etc. Mr. Stoddard's first book, "An Egg Farm," has had the largest sale of any standard poultry book. The present is an entirely new work, three times as large, summarizing the lessons of all experience in the recent vast development of the poultry industry. It is the only up-to-date manual on commercial poultry raising. Nearly 150 illustrations. 331 pages. 12mo., cloth. \$1.00

Land Draining.
By Manly Miles. On the principles of draining, giving the results of his extended experience in laying tile drains. The directions for the laying out and the construction of tile drains will enable the farmer to avoid the errors of imperfect construction and the disappointment that must necessarily follow. Cloth, 12mo. \$1.00.

The Secrets of Health, or How Not to be Sick and How to Get Well from Sickness.
By S. H. Platt, A. M., M. D., late member of the Connecticut Eclectic Medical Society, the National Eclectic Medical Association.

The Dairy Calf.
Breeding and Raising. By L. S. Hardin. A careful and minute description of the correct system for raising dairy calves. The whole work is characterized by the never-failing current of sound common sense. Paper, 12mo .25

Cattle Breeding.
By William Warfield. This work is by common consent the most valuable and pre-eminently practical treatise on cattle breeding ever published in America, being the actual experience and observance of a practical man. Cloth, 12mo. \$2.00

Youatt and Spooner on the Horse.
By Hon. Henry S. Randall. The structure and diseases of the horse, remedies, rules to buyers, breakers, shoers, etc. Youatt's work somewhat simplified and brought down by W. C. Spooner, M. R. C. V. S.; to which is prefixed an account of the breeds in the United States and Canada. Illustrated by numerous engravings. 12mo. \$1.00

The Practical Horseshoer.
This work treats of and illustrates proper shape of shoes for different diseases of the feet, the various methods of shoeing vicious and ugly horses and mules, and a great variety of tools suitable and useful in horse shoeing; how to shoe horses to cure contraction, to prevent interfering or over-reaching, best method of treating corns—whether cold or hot fitting is best, etc. Cloth, 12mo. 1.00

Sander's Horse Breeding.
By J. H. Sanders. Being the general principles of heredity applied to the business of breeding horses and the management of stallions, brood mares and foals. The book embraces all that the breeder should know in regard to the selection of stock, management of the stallion, brood mare and foal, and treatment of diseases peculiar to breeding animals. Cloth, 12mo. 1.50

Coburn's Swine Husbandry.
By F. D. Coburn. New, revised and enlarged. The breeding, rearing and management of swine, and the prevention and treatment of their diseases. It is the fullest and freshest compendium relating to swine breeding yet offered. Cloth, 12mo. \$1.50

Animal Castration.
By A. Liautard, V. S. A concise and practical treatise on the castration of the domestic animals. Illustrated with 44 cuts. Cloth, 12mo. \$2.00

Harris on the Pig.
By Joseph Harris. The points of the various English and American breeds are thoroughly discussed, and the great advantage of using thoroughbred males clearly shown. The work is equally valuable to the farmer who keeps but few pigs, and to the breeder on an extensive scale. Illustrated. Cloth, 12mo. \$1.00

Diseases of Swine.
By D. McIntosh, V. S. A text-book for swine growers, veterinary surgeons and students. This is the first work exclusively devoted to the subject published in America. The subjects dealt with are based on science and confirmed by experience, so that the reader will not have to lose time in reading theories which are not confirmed by facts. In the treatment of hog cholera and other diseases which in the majority of cases prove fatal, the author's original and extensive investigations have thrown considerable light on many points hitherto but little understood. Cloth, 230 pages, 12mo. Illustrated. \$2.00

There is no better time for setting trees than late in the fall.

Many orchardists make a great mistake planting trees too deep.

Apple trees should not be planted on lowlands subject to overflows.

Irrigation Farming
A Handbook for the Practical Application of Water in the Production of Crops
By LUCIUS M. WILCOX

NEW EDITION, REVISED, ENLARGED AND REWRITTEN

THIS substantial volume presents in systematic sequence and concise form everything pertaining to the most modern irrigation methods and means, thus making it the most complete manual on the subject ever published. Its author is the recognized authority on the whole subject of irrigation, from a practical standpoint, every statement made is based on the best experience, practice and science, and may be unhesitatingly relied upon as absolutely true. The principal chapters treat very fully of the advantages of irrigation; relations of soils to irrigation; treatment of alkali; water supply; canal construction; reservoirs and ponds; pipes for irrigation purposes; flumes and their structure; duty and measurement of water; methods of applying water; irrigation of field crops, the garden, the orchard, the vineyard and small fruits; all about alfalfa; windmills and pumps; devices, appliances and contrivances; subirrigation and subsoling; seepage and drainage; irrigation in humid regions; common law of irrigation; glossary of irrigation terms, etc., etc. The volume is profusely, handsomely and practically illustrated.
