

THE U. S. SEPARATOR SHOWS ITS SUPERIORITY.

At the Oregon State Fair this year one of the attractions was a contest between the different makes of cream separators, and, as usual, the U. S. beat everything. Read the following letter, and notice particularly the different skimmilk tests:

Portland, Ore., Sept. 19, 1902.

Vermont Farm Machine, Co.,

Gentlemen: In contest at our State Fair yesterday THE U. S. SEPARATOR BEAT EVERYTHING THERE, leaving only two one-hundredths on skimmilk, while the DeLaval, Sharples and National tied at .06. The Empire leaving .11 and the Reed .12.

HAZELWOOD CREAM COMPANY,
By E. Burr.

The above letter reiterates the fact that the

U. S. SEPARATOR SKIMS THE CLEANEST

and the letter below that the

U. S. SEPARATOR IS THE MOST DURABLE.

Colfax, Wash., Sept. 10, 1902.

Hazelwood, Co.,
Spokane, Wash.

Gentlemen: In reply to yours of the 9th inst., will say in the last four years there have been something like 75 U. S. Cream Separators sold from this creamery, and all the extras that have been furnished by us are as follows:

One crank with handle, cost.....\$2.75
One crank shaft, cost..... 1.25
Express on same..... 2.25

This covers all extras that we have any knowledge of, and we wish to say that it was no fault of the separator that these parts gave way; it was the fault of the party who had been running said separator.

JERSEY CREAMERY,
By E. H. Hinchcliff.

The above reports go to prove very conclusively that the U. S. has no equal for Thoroughness of Separation and Long Life. Our catalogues contain many statements of the same kind, also that it has many other points of excellence. Therefore

THE U. S. SEPARATOR IS THE BEST TO BUY.
