Pianos

ESTEY "PURITAN" STYLE.

Not at any time since the establishment of our business in Seattle have we had on display such a diversity of values and qualities in pianos as at the present time. We present a line of instruments running in price from \$150 to \$750, in the uprights, and from \$850 to \$1,050, in the grand pianos.

If you are thinking seriously of getting a piano you will certainly do yourself an injustice if you ignore our invitation to call and look through this excellent stock. Whether you buy a piano for \$150 or \$1,500, you will be treated with the same consideration and courtesy at this store. Whether you buy a piano on our easy payment plan, paying \$25 down and \$10 a month, or pay cash, you are considered just as valuable a customer to the house in one case as in the other. We want to become acquainted with you. Let us tell you what we can do for you in our line, and after that, if you can not find the piano to please you, we will feel that you have done your part and will be thankful to you for the opportunity granted us of showing the goods. If you cannot come in, write for full information.

Ask for a copy of "some FACTS ABOUT PIANOS and WE WHO SELL THEM." Sent free for the asking.
