

The Motorcycle on the Farm.

If one is to believe the statements of the leading motorcycle manufacturers of the day and their statements seem logical, it is cheaper to make a trip to town on a motorcycle than to drive or walk. A manufacture of one of these motorcycles (his particular make holds the world's record for economy) states that while the machine that made the world's record traveling fifty miles at a cost of less than one-tenth cent per mile over country roads was operated by an expert, it is nothing unusual for this particular make of motorcycle in the hands of an amateur to travel from six to eight miles on one cent's worth of gasoline.

In comparison with the private riding horse the expense per mile is naturally much less and if one figures that while the driving horse must be fed daily, the motorcycle only consumes while in use, the difference is still greater. The limit of a horse for continuous daily driving is probably thirty miles, while that of a motorcycle is over two hundred. Good traveling for a road horse means ten miles an hour; good traveling for

Digging asphalt from Trinidad Lake

A roof is only as good as its waterproofing.

Knowing this, will you buy the covering for your roof on its "looks" alone, and not know what it is made of?

Genasco

the Trinidad-Lake-Asphalt Roofing

is waterproofed entirely with natural asphalt. In Trinidad Lake this asphalt has resisted blazing sun and terrific storms for hundreds of years. It has natural oils that give it lasting life in a roof despite the buffeting of rain, snow, sun, wind, heat, cold, and fire.

Man has tried to make lasting waterproofers—and always failed. Ordinary ready roofings show you what happens. They are made of mysterious "compositions" or coal tar; and they soon crack, break, leak, and go to pieces. Yet as for looks, they are mighty good imitations.

The life and backbone of Genasco is Trinidad Lake Asphalt—the natural everlasting waterproofer—and that makes Genasco last.

Genasco is made with mineral and smooth surfaces. Guaranteed, of course.

The Kant-leak Kleet waterproofs the seams of roofing thoroughly without the use of smeary unsightly cement, avoids nail-leaks, and gives the roof an attractive appearance.

Ask your dealer for Genasco Roofing, with Kant-leak Kleets packed in the roll. Write us for the Good Roof Guide Book and samples.

a motorcycle from thirty to fifty miles per hour.

In this age of scarce hired help, time, at some season is extremely valuable to the farmer. His ability to cover the distance to town and back with a motorcycle in one fifth of the road driving horse time and with no time wasted harnessing and unharnessing, is a factor to be considered.

Most all the good motorcycles are now equipped with tandem attachments and luggage carriers, if desired. By means of this tandem attachment two can ride as well as one. The luggage carrier permits the carrying of small freight, not exceeding 200 pounds.

Many a farmer, as well as his children, have rebelled at their inability to go to town, to the swimming hole or the fishing grounds in the late summer evening, for a horse cannot be worked all day and be driven on the road at night. To these the motorcycle fills a long felt want. It is ever ready, costs nothing when idle and will last for years.

It is really more expensive to be without a motorcycle than to own one, just as it is more expensive to plow with a hand plow, cradle the grain and use the flail instead of the modern appliances. The best makes of motorcycle today can be had for from \$225 up. A motorcycle like many other pieces of machinery, can be built too cheaply to be good. There are, however, several well established makes, which have years of successful manufacture behind them and one will not go amiss in choosing any of these.

The motorcycle of today has come to stay. Already in the cities it is being adopted extensively by business firms because of the great time saving its use assures.

Repair men, inspection men, etc., can accomplish triple the work possible with their former horse and carriage. The saving of time as well as the great pleasure to be derived from its use has given the motorcycle a lasting place in the home of the American farmer.

Combining Fruits.

(Contributed)

Many fruits can be bettered by judicious use of other fruits. Blackberries and blueberries make a better pie than single, using blueberries in large quantity.

Combine quinces with apples.

Tomato preserves are improved with sliced orange.

Jelly of apples and pears have pear flavor and apple firmness. Strawberries and gooseberries make better jam. To five quarts strawberries add two of gooseberries, either green or turning red.

Gooseberries, currants and raspberries in equal parts make good jam.

Elderberries, with green grapes, gooseberries or crabapples for jelly, sauce or pie.

For roly poly or jam, black currants and red currants.

Ripe red currants and ripe gooseberries make good preserves or pies.

Black raspberries stewed with red, juicy cherries.

Peach jam and grated pineapple is pleasant.

Blackberries are improved with a cupful of currant juice to each jar of fruit.

Evaporated peaches and apricots are better than alone.

Why Farmers Are Buying Harley-Davidson

MOTORCYCLES

BECAUSE THEY SAVE VALUABLE TIME.

With this machine they can go to town in one-fifth the time consumed driving and a farmers time is worth money.

THEY ARE ECONOMICAL.

This machine will travel 10 miles for a cent, never tires, is always ready and cost nothing when idle.

"THE SILENT GRAY FELLOW"

The Harley-Davidson Motorcycle is made and guaranteed by the largest exclusive motorcycle factory in the world.

The Harley-Davidson stock machine holds the world's economy record and has won more races, hill climbs and endurance contests than any other motorcycle made.

The first Harley-Davidsons we made 10 years ago are still running and giving satisfaction, although they have probably covered 100,000 miles.

Let us tell you more about this "Silent Gray Fellow."

We have just completed an illustrated booklet, entitled "The Harley-Davidson on the Farm." It's worth reading. Send for your free copy to-day.

HARLEY-DAVIDSON MOTOR CO.
906 L STREET. MILWAUKEE, WIS.

The illustration gives you but a mere idea of the beauty of these cards. You must see them. They are FREE. In many beautiful colors, and full gold background. These Gold Cards are the newest richest, most expensive and exquisite post cards you have ever seen. Ask now if you want them.

If you want this brand new set of ten beautiful gold "beauty-friendship" post cards, and are willing to do us a small favor as soon as you receive them, fill out the coupon today. These post cards are exquisitely beautiful. They are yours for the coupon and six cents in stamps to pay postage, etc. You will be the most delighted person in the world when you see them. Whatever you do, act quickly, and they are yours, and fifty more too. They are just out and the newest thing.

Fill out and mail the coupon today and we will give you our easy plan of getting 50 or 100 more of the most beautiful post cards you ever saw. Get our new plan at once and act quickly before someone else gets ahead of you.

THE RANCH, KENT, WASH.

THE RANCH:

Enclosed please find three 2-cent stamps, 6c. Send me the ten beautiful GOLD post cards. I promise to show them to five of my friends. Tell me how to get fifty more Free, for just a little work.
